Subject: please electrify Caltrain

External Email

Dear Metropolitan Transportation Commission,

I live practically on the Caltrain tracks in Sunnyvale between the Sunnyvale and Lawrence stations. I breathe diesel particulate every day. My dog has a cough which hasn't gone away for two years and keeps me up at night. Please give as much funding as you can to Caltrain to get the electrification done as soon as humanly possible. My dog and I will thank you!

Yours,
Rani Fischer
