

The Bay Lights Project Update

January 11, 2023

The Bay Lights Project

Graphic of Existing Bay Lights

- Originally commissioned in 2013 to commemorate the 75th anniversary of the Bay Bridge
- Iconic light sculpture programmed by artist Leo Villareal
- Gifted to Caltrans by Illuminate
- Maintained by BATA
- Aging system, needs replacement

The Bay Lights 360 - Proposed

[Simulation of The Bay Lights 360 – linked video simulation](#)

- Funded by Illuminate
- 48,000 lights illuminated on both sides of the north side of the west span
- Visible from all directions for increased aesthetic equity
- Light display in wave-like abstract pattern
- Can independently adjust either side
