

# AB 2011 (Wicks): Affordable Housing and High Road Jobs Act

Joint MTC ABAG Legislation Committee
June 10, 2022

### **Bay Area Housing Challenges**

- The Bay Area is facing a severe housing affordability crisis, which has been exacerbated by the COVID-19 pandemic
- Housing affordability challenges driven (in part) by mismatch between housing supply and demand
- Minimum of 400,000 units over the next 8 years needed in the Bay Area to address this mismatch

# Commercial Redevelopment as Tool to Combat the Housing Crisis

#### **Underutilized Commercial Land**

- Brick and mortar retail and commercial spaces have been facing a steady decline since the takeoff of online shopping
- Reimagining underutilized commercial spaces as housing can turn an economic development challenge into an opportunity.

#### **Housing Development Potential**

- 2 million units Urban Footprint estimated increase of market-feasible capacity if housing were allowed on commercial sites
- 300,000 acres UC Berkeley Terner Center estimate of commercial land area in California's four largest metros

# Residential Redevelopment of Commercial Land: MTC/ABAG Policy Alignment

### Combatting Climate Change

 Infill development brings residents closer to jobs, transit and amenities, thus helping to reduce per capita greenhouse gas emissions.

### Jobs and Economy

 Mixed-use, mixed income development of aging shopping malls and office parks can revitalize underutilized spaces while bringing housing closer to jobs

#### Housing Affordability

The Bay Area's severe housing shortage is a major contributor to the housing affordability crisis. Housing production, especially affordable housing production, is needed to achieve the Plan Bay Area 2050 vision of a more affordable, inclusive and diverse Bay Area for all residents.

### MTC ABAG 2022 Joint Advocacy Program

- Pursue a range of strategies to increase housing production to help meet the Bay Area's housing goals
- Support proposals to authorize housing as a permitted use in certain commercial zones, subject to local approval but without requiring zoning changes.

# AB 2011: Housing Streamlining in Commercial Areas

 AB 2011 (Wicks) would require affordable housing projects meeting certain labor, affordability, density, and site criteria be deemed a "use by right" and subject to a ministerial project approval if the project is located in certain commercial areas.

#### **Commercial area**

(office, retail or parking is a principally permitted use)

Project Meets Minimum
Standards for:

Labor
Affordability
Site
Objective design

standards

### By-right development

(no conditional use permit, rezoning, CEQA or discretionary review required)

### Summary of AB 2011 Criteria for Mixed Income vs. 100% Affordable Projects

	Mixed Income Project	100% Affordable Project
Affordability	Minimum of 15% units must be deed- restricted affordable units	100% of units must be deed-restricted affordable units
Location	<ul> <li>On a commercial corridor (typically a four- to six-lane road) and on an urban infill site zoned for retail, office or parking, except:</li> <li>Site within a specific plan area must also allow residential</li> <li>Location is not adjacent to industrial land or in an environmentally sensitive area, as defined by the bill.</li> </ul>	<ul> <li>Any urban infill site zoned for retail, office or parking, except:</li> <li>Site within a specific area plan must also allow residential</li> <li>Location is not adjacent to industrial land or in an environmentally sensitive area, as defined by the bill</li> </ul>
Project characteristics	Three- to five-story, medium-density project; residential or mixed-use	Low- to medium density; residential or mixed-use

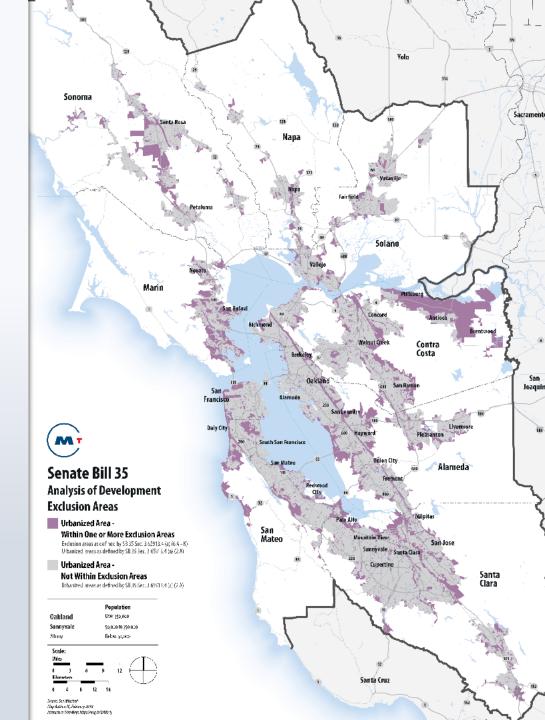

### AB 2011 Exclusion Areas in the Bay Area

- AB 2011 conditions eligibility for project streamlining on numerous factors, including that a project must be located in an urban area. Projects may *not* be located on environmentally sensitive sites or hazardous sites.
- The map adjacent provides an approximation of Bay Area geographies that would be wholly excluded from AB 2011 parameters (the purple and white areas on the map).

Note: Exclusion areas generally align with SB 35 (Wiener, 2017)

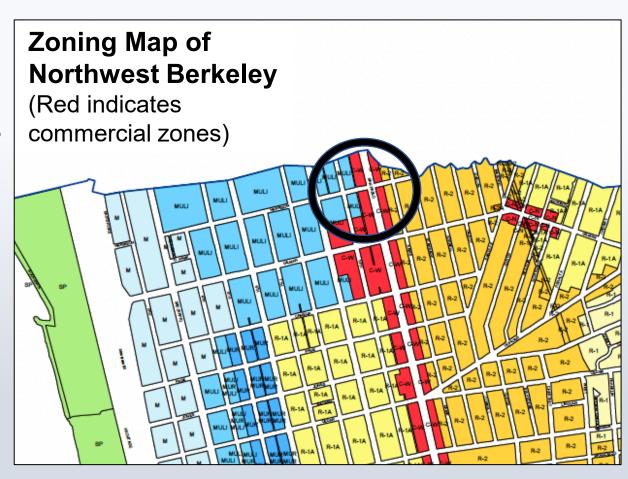

# AB 2011 Streamlining Scenario: Berkeley

For-profit developer is proposing a three-story housing project on San Pablo Ave. in northwest Berkeley. Fifteen percent of the units will be set at affordable rents for low-income households and be deed restricted for 55 years. The developer will comply with all AB 2011 labor standards.

#### Zone: West Berkeley Commercial (red)

- ✓ Located on a commercial corridor (road is 70 feet to 150 feet wide)?
- ✓ Zoned for office, retail or parking?
  Specific Plan area? No
- ✓ Labor standards?
- ✓ Affordability standards
- ✓ Urban infill & not in environmentally sensitive area?
- ✓ Density standards?

Result: By-right development

#### **Downtown Oakland Specific** Plan Map (Proposed) Downtown District Residential Downtown District Mixed Residential Downtown District Waterfront Downtown District Planned Waterfront Development Commercia Downtown District Mixed Commercial Downtown District Pedestrian Downtown District General Downtown District Art and Garage Downtown District Produce Market Mixed Industrial/Commercia Downtown District Jack London ☐ ☐ Downtown Oakland Specific Plan Area

### **AB 2011 Streamlining Scenario: Oakland**

Non-profit affordable housing developer is proposing to build a two-story 100% affordable apartment building in downtown Oakland's newly zoned Arts and Garage district. Units will be deed restricted for 55 years and developer will comply with AB 2011 labor standards.

#### Zone: Arts and Garage commercial district (grey)

- ✓ Zoned for office, retail or parking?
- ✓ Specific Plan area? Yes
  Residential allowed? No
- ✓ Labor standards?
- ✓ Affordability standards
- Urban infill & not in environmentally sensitive area?
- ✓ Density standards

Result: Rezoning or conditional use permit required; no ministerial project approval

### Staff Recommends Three Amendments to Integrate Ongoing Planning Into AB 2011

- Create a nexus between project streamlining and RHNA performance by allowing for ministerial project-level approvals only in jurisdictions that are not keeping pace with their RHNA goals.
- 2. Support local planning in commercial corridors where local governments have rezoned to accommodate infill residential development. Specifically, for planning areas where local governments have already completed (or will complete) rezones, AB 2011's streamlining provisions should be limited to the locations where residential development is allowed.
- 3. The bill should be amended to include provisions to ensure local governments receive "credit" in the current housing element cycle for planned residential development in commercial corridors.

### Support if Amended Recommendation

Amendments aim to advance multiple regional goals

#### Alleviating the Housing Crisis

 AB 2011 aligns with MTC and ABAG's policy priority of supporting housing production across income levels.

### Plan Bay Area 2050 Alignment

 Repurposing commercial spaces for housing aligns further aligns with Plan Bay Area climate, connectivity, economy and workforce goals.

### Supporting Local Planning

- Many Bay Area cities are taking steps to accommodate more housing in underutilized commercial areas.
- Our proposed amendments align AB 2011 with these ongoing planning efforts, including through ensuring these efforts are accounted for in housing element reviews.

#### **Balancing Priorities**

 Recommended amendments aim to balance local land use control with new tools to combat the housing affordability crisis.
