Subject: Topper Lane, Lafayette

External Email

I understand that a 10' bike/walk lane is being proposed on Topper. I am opposed to this on either side of the street for the following reasons:

- It does not improve the safety of walkers or bikes as the road would be narrowed and cars could potentially jump the curb and hit walkers/bikers.
- Creates a false sense of safety and cars could possibly speed.
- Increase vandalism on Birdhaven houses that back onto Topper.
- It only benefits a few families on Birdhaven Ct.
- Taking down trees lessens the neighborhood feel and environment.

Thank you for your consideration.
