

Association of Bay Area Governments Publicly Owned Energy Resources

ABAG POWER

Board of Directors

December 11, 2025

Agenda Item 7.b. 2

ABAG-MTC POWER

Subject:

NRG Energy will provide an informational presentation about carbon offsets

Background:

The Association of Bay Area Governments Publicly Owned Energy Resources (ABAG POWER) operates a natural gas aggregation program that serves 52 public agencies. Staff manages the purchase of natural gas and arranges for its delivery to Pacific Gas and Electric Company (PG&E) distribution pipelines, from which it is then distributed to participating facilities.

As part of its strategic roadmap, ABAG POWER is expanding its portfolio to include carbon offsets.

NRG Energy will provide an informational presentation on carbon offsets and explain how carbon credits are used to reduce greenhouse gas emissions.

Issues:

None.

Recommended Action:

None.
