

Metropolitan Transportation Commission

March 24, 2021

Agenda Item 6b – 21-0361

Monthly Report of Transit Operator Statistics on Healthy Transit Plan Performance

- Subject:** Monthly report by transit operators on performance by each agency on common pandemic-related health and safety metrics and an update on agencies' commitment to the "Riding Together: Bay Area Healthy Transit Plan" through Board or Council adopted resolutions of support.
- Background:** As directed by the Commission, staff is providing the attached information on monthly metrics of operator performance on key common metrics related to Covid-19 health and safety measures, as reported by agencies through the publicly accessible dashboard located at:
<http://healthytransitplan.com/>.
- Issues:** None
- Recommendation:** Information Only
- Attachments:** Attachment A: Joint transit operator cover memo and report.

Therese W. McMillan

March 17, 2021

The Honorable Alfredo Pedroza, Chair
Metropolitan Transportation Committee
375 Beale Street, #800
San Francisco, CA 94105

Dear Chair Pedroza:

The attached report covers the transit operator metrics from February 10 to March 9, 2021, as called for in the Riding Together: Bay Area Healthy Transit Plan.

The report shows that implementation of the baseline measures called for in the Plan continues to yield positive results in the areas of passenger and employee mask compliance, contact tracing, and vehicle capacity.

In each category, nearly all agencies are achieving the high bars established to measure effective implementation of the Healthy Transit Plan.

- Transit employees continue to receive and properly use masks.
- Contact tracing continues to be effective.
- Nearly every agency has maintained over 95% passenger mask compliance, and actions are being taken to improve compliance.
- Nearly all systems continue to have sufficient vehicle capacity to achieve a 6-foot physical distance goal.

As you know, the Healthy Transit Plan is a living document and is consistently evaluated to gauge its effectiveness as conditions evolve. Most recently, Bay Area transit agencies are teaming up to ensure that those individuals who are eligible for the COVID-19 vaccine can use transit to get to vaccination sites. Now, to inform the public in a comprehensive way, the website healthytransitplan.com includes a list of [vaccination sites](#) accessible by public transportation and the current special promotions, including many free rides, offered by the agencies serving the sites. Transit agencies are doing their best to help provide equitable access to the vaccination sites, especially for vulnerable Bay Area communities that have been disproportionately impacted by the pandemic.

March 17, 2021

Page 2

Providing better access to vaccination sites is an example of public transit's agility and adaptability. It also shines a spotlight on why it is so important to continue our collaborative advocacy efforts centered around getting our frontline transit workers prioritized to receive the vaccine.

We continue look forward to ongoing collaboration with the Commission to and to working together to restore ridership, rider confidence, and financial stability during these uncertain times.

Sincerely,

Michael Hursh,
General Manager
Alameda-Contra Costa
Transit District (AC Transit)

Robert Powers,
General Manager
San Francisco Bay Area
Rapid Transit District
(BART)

Jim Hartnett,

Bay Area Transit Agencies Update on Healthy Transit Plan Public Dashboard

March 17, 2021

From the onset of the pandemic, Bay Area transit agencies, both large and small, united to implement measures for a safe ride for the public as our region responds to the COVID-19 pandemic. Transit agencies took ownership of a coordinated response and collaborated to develop and publish “Riding Together: Bay Area Healthy Transit Plan.” As part of their commitment to the plan, regular reporting to the public is provided by the transit agencies via a dashboard as a means of accountability (please see list of participating agencies below). Please visit the dashboard at: <http://healthytransitplan.com/>.

Today, transit agencies are reporting on the February 10 – March 9, 2021 reporting period. A brief summary of outcomes for each of the four core metrics is as follows:

Metric	Outcomes
Passengers Properly Wearing Face Coverings	24 of 25 agencies achieved a 5-star rating, meaning at least 95% of passengers are properly¹ wearing face coverings on transit. BART received a 4.5-star rating 93% of passengers properly wearing face coverings on transit. Of the 7% of riders not in compliance, it is noted that 4% are riders with masks but not wearing them properly. Current efforts underway to improve mask wearing compliance include: - New posters have been deployed that show how to properly wear a mask and includes messaging about ensuring a tight fit. - All stations systemwide have extra masks available by request at the station agent booths for those who need one to ride. - Officers and ambassadors have extra masks to hand out if necessary. BART's latest budget doubled the number of our Ambassador Program to increase rider safety and assist with mask compliance. - BART has employed an active educational campaign with overhead announcements every 15 minutes, messages on the platform signs, and posters across the system. - Signs are posted at station agent booths that clearly state: “If you need a mask, ask a station agent.” - BART will pilot face mask vending machines inside some stations. - Colorful and vibrant posters promoting the rich cultural history of wearing masks are being posted inside trains and stations.
Vehicle Capacity	24 of 25 agencies achieved a 5-star rating, meaning at least 95% of vehicles have capacity to allow for physical distancing of 6 feet while riding.² Where systems

¹ A properly worn face covering covers both the nose and mouth. Having a mask that is not properly worn is counted as non-compliant.

² The Healthy Transit Plan includes guidance that public transportation customers are expected to remain a minimum of 3 feet or optimally 6 feet, as practicable. For this period of reporting, based on current public health orders, operators applied a 6-foot metric. However, as the region moves further into recovery a 3-foot metric (coupled with high rates of face

for Safe Distancing	are falling short of 5-stars it illustrates the continuing need for transit service of transit-dependent and essential workers. AC Transit achieved a 4-star rating with 87% of vehicles having capacity to allow for physical distancing of 6 feet while riding. AC Transit's ridership has stabilized over the last few months while the agency is still adhering to a 6ft physical distancing guideline. However, AC Transit still receives regular reports of passenger pass-ups due to capacity limits. AC Transit does not have the resources to increase frequency to address the pass-up of customers likely trying to make essential trips. This problem could be exacerbated with the reopening of schools. AC Transit would like to work with local counties, other transit operators and our labor unions to reduce physical distancing requirements on our buses when safe to do so.
Employees Properly Wearing Face Coverings	All agencies achieved 5-star ratings, meaning at least 95% of employees are properly wearing face coverings at work.
Contact Tracing	All agencies achieved 5-star ratings, meaning at least 95% of employee known exposures or positive COVID 19 cases have internal contact tracing completed or underway. A five-star rating is also applied if no potential exposures or cases exist.

The dashboard also includes links to each agency's pandemic-specific webpage as well as tips for passengers. These customer tips are especially important since the success of the Healthy Transit Plan is directly tied to passenger participation including properly wearing masks and keeping a safe six-foot distance from others. Transit agencies will continue to monitor compliance and determine if there are additional actions that can be taken to support passenger participation, such as provision of masks where compliance is less than 95%.

Each agency has also adopted a resolution to formally demonstrate the commitment to implement the Healthy Transit Plan; adopted resolutions will be posted on each agency's website.

Participating Agencies

- Alameda-Contra Costa Transit District (AC Transit)
- Altamont Corridor Express (ACE)
- Caltrain
- City of Dixon Redit-Ride
- County Connection (CCCTA)
- Eastern Contra Costa Transit Authority (Tri Delta)
- Fairfield and Suisun (FAST)
- Golden Gate Bridge, Highway and Transportation District (GGBHTD)

covering compliance) may become more appropriate. For this reason, the plan does not recommend a minimum compliance level.
