Programming and Allocations Committee**

Agenda Item 2j

MTC Resolution No. 3914, Revised

- Subject:** An allocation of \$3 million in AB1171 Bridge Toll funds to Tri-Valley-San Joaquin Valley Regional Rail Authority for environmental and preliminary engineering on the Valley Link project.
- Background:** In September 2018, the Commission allocated \$10.12 million to the Tri-Valley—San Joaquin Valley Regional Rail Authority (TVSJVRRA) for CEQA documentation and preliminary engineering on the Valley Link rail project, from the \$95 million in AB1171 Bridge Tolls committed to Tri-Valley Transit Access Improvements through MTC Res. No. 3434. In the subsequent time, TVSJVRRA adopted its statutorily required Feasibility Report in October 2019, and has identified a preferred alternative, begun environmental review, and completed 15% preliminary design plans.
- Through this work, TVSJVRRA has identified the need for updates to the preliminary engineering plans to adjust for new assumptions regarding increased ridership, service plan changes, and corresponding revisions to the track schematics and layout. Also included in this allocation request are continued oversight and management of the prime contractor performing the pre-development tasks and activities, and funding for project partners for support activities (e.g., review of preliminary design plans and environmental documents) during this phase.
- Updated 15% preliminary design plans for submission with the draft CEQA Environmental Impact Report are expected to be complete in spring 2020, followed by completion of 30% preliminary design in early 2021. MTC's previous allocation will continue to fund the CEQA documents and 30% preliminary design. Additional bridge toll allocations will likely be sought by TVSJVRRA in the coming months to initiate and complete the Caltrans Project Approval and Environmental Documentation (PA&ED) process and related supporting costs. Proceeding in a phased allocation request allows work to continue while shaping up the management structure, confirming contract costs, and identifying partner contributions. Proceeding to final design and construction will depend on completion of environmental and securing additional funding sources.
- Issues:** None.
- Recommendation:** Refer MTC Resolution No. 3914, Revised, to the Commission for approval.
- Attachments:** MTC Resolution No. 3914, Revised
