Subject: MTC/ABAG Legislative Committee - Agenda #3b AB455 Bay Bridge Fast Forward

External Email

Dear MTC/ABAG Legislative Committee:

I am writing to ask the Committee to support AB 455 to improve Transbay bus service.

I live in San Francisco, and I support this bill because it will improve cross-bay transportation, provide a better alternative to driving, and reduce carbon emissions. I often travel between SF and the East Bay by bus, and this kind of low-carbon, low-impact form of transit should be a first-class part of our regional transportation system.

Thank you for your consideration.

Sincerely,
William Cline
San Francisco
