

Metropolitan Transportation Commission Programming and Allocations Committee

December 13, 2017

Agenda Item 5a

MTC Resolution No. 4202, Revised

Subject: Proposed revisions to the One Bay Area Grant 2 (OBAG 2) program, including approval of the project recommendations from the nine county Congestion Management Agencies (CMAs) for the \$386 million County Program.

Background: The OBAG 2 program framework was adopted by the Commission in November 2015, and revised in July 2016 to incorporate additional revenues and housing-related elements. The program establishes the Commission's commitments and policies for investing Surface Transportation Block Grant Program (STP) and Congestion Mitigation and Air Quality Improvement (CMAQ) funds for regional and local programs from FY2017-18 through FY2021-22.

The OBAG 2 program is divided into a Regional Program (\$476 million), managed by MTC, and a County Program (\$386 million), managed by the nine county Congestion Management Agencies (CMAs):

This month, staff recommend the following revisions to the OBAG 2 County and Regional Programs:

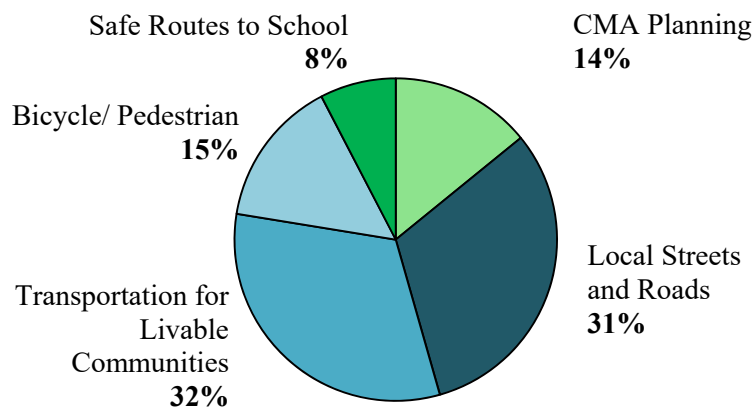

1. County Program Project Recommendations: Following the July 2016 Commission action to distribute additional revenues and housing-related elements into the OBAG 2 program, CMAs were given one year to lead a unified call for projects and recommend projects to MTC by July 2017.

This month, staff recommends approval of the OBAG 2 County Program as recommended by the CMAs. A snapshot of the recommended investments by project type is provided in the chart below. The full list of project recommendations by county are provided in Attachment B-2 of the program resolution.

The OBAG 2 County Program Report Card (Appendix A) provides an overview of the projects recommended by the county CMAs, progress made in meeting the program objectives described above, and compliance with numerous policy requirements. Key findings are summarized in Attachment 1.

The OBAG 2 County Program Report Card and findings in Attachment 1 are provided to the Commission as a regional perspective on project funding recommendations from the CMAs, as well as to inform future programming policy actions.

OBAG 2 County Program Investments by Project Type

Program Total: \$386 million

2. Housing Production Incentive Revisions: In addition to the recommended revisions for the County Program, staff recommends revising the OBAG 2 Project Selection and Programming Policy to reflect changes made to the *80k by 2020 Challenge Grant* by the Commission as part of its adoption of the 2018 Regional Transportation Improvement Program (RTIP) Guidelines. These revisions include:

- Increasing the number of jurisdictions eligible to receive the challenge grant from 10 to 15;
- Clarifying that the preservation, in addition to permitting, of affordable housing units will be credited in the program; and
- Provision that at least one jurisdiction from each county will be awarded a challenge grant.

Issues:

1) TIP Amendments to Follow Requirements: Project sponsors must also meet several requirements in order for MTC to program their grant funding into the federal Transportation Improvement Program (TIP). These requirements include local policy compliance, completion of a complete streets checklist for all capital projects, maintaining a certified Pavement Management Program (PMP), and participating in annual traffic data collection as part of the federal Highway Performance Monitoring System (HPMS) and periodic local streets and roads needs assessments. Staff will work with CMAs and project sponsor staff to ensure all requirements have been met prior to programming OBAG 2 funds in the TIP.

2) Housing Element Compliance: Staff recommends conditional approval of OBAG 2 County Program funding for the 5 jurisdictions that have not yet submitted Housing Element Annual Progress reports: Albany, Danville, Martinez, Saratoga and Vallejo. In order for these to be eligible for OBAG 2 County Program funds, they must submit a compliant housing element progress report (for the 2016 reporting year) to HCD no later than March 1, 2018.

3) CMAQ Revenue: Caltrans recently informed staff that MTC's apportionment of CMAQ will likely decrease by approximately \$8 million per year starting in FY 2019, resulting in a roughly \$33 million revenue reduction over the OBAG 2 funding period. The revenue reduction is the result of good news on the air quality front; in June 2018 the Bay Area will have completed 20 years of being in attainment of EPA's carbon monoxide (CO) standard, after which the region will no longer be considered a CO maintenance area. In California, CMAQ apportionments are distributed among regions in part based on their maintenance status for air quality standards, with an additional weight being given to regions that are in maintenance or non-attainment.

Staff recommends approval of the County Program of Projects this month, and will develop potential options for addressing a shortfall, should it come to pass, such as: identifying opportunities to direct cost savings and additional fund sources to the program, reducing the size of the program either in a targeted or proportional manner, adding another year to the end of OBAG 2 funding period, carrying forward the shortfall into a following cycle, or seeking a change in state statute regarding fund distribution to reward, rather than penalize, regions that have made progress on air quality requirements.

Recommendation: Refer MTC Resolution No. 4202, Revised to the Commission for approval. Because Resolution No. 4202 is also proposed for revision under Agenda 5b, it is included under

this Agenda Item with all proposed revisions. Only items approved by the Committee will be forwarded to the Commission.

Attachment 1
Key One Bay Area Grant (OBAG 2) County Program Findings

- **Similar Project Type Mix, Compared to OBAG 1.**

The mix of project types selected by the CMAs for the OBAG 2 County Program is largely consistent with the results seen in OBAG 1 (Appendix A, page 2). In both rounds, the majority of County Program funding is programmed to active transportation projects, including bicycle and pedestrian investments, Transportation for Livable Communities (TLC), and Safe Routes to School (SRTS).
- **Investments Continue to be Focused in Priority Development Areas.**

In the OBAG 2 County Program, CMAs directed a majority of their available funds (82%) to transportation projects that are within Priority Development Areas (PDAs) or that are outside PDAs but provide improved transit, bicycle and/or pedestrian access to a nearby PDA (Appendix A, page 8). This significant emphasis on investing in locally-adopted PDAs, as defined by the CMAs, exceeds the minimum investment target established by the OBAG program, which requires the four North Bay counties to program at least 50% of their funds to PDAs, and the remaining five counties in the Peninsula, East Bay and South Bay to program a minimum of 70% to support PDAs.
- **Definitions for PDA Investments Vary by County.**

For a project located outside of a PDA, CMAs are provided the flexibility to determine whether or not the project provides improved access to a nearby PDA. The criteria adopted vary significantly among the CMAs, posing a significant challenge for regional assessment of PDA investments (Appendix A, page 14).
- **Results are Mixed for Linking Funding to Local Contributions to Housing Objectives.**

An important element of the OBAG County Program is the use of transportation funding to incentivize local jurisdictions to plan for and produce housing, particularly affordable housing. In OBAG 2, the jurisdictions contributing the most towards housing goals tend to also be recommended for the most grant funding, with some exceptions. Additionally, when OBAG 1 and OBAG 2 grants are combined, there are few jurisdictions that have received significantly less funding than expected (or conversely, significantly more), based on their contributions to housing (Appendix A, pages 9-10). Housing considerations are one of many factors that CMAs are required to consider in their project selection process. Staff will work with CMA staff to better understand the implications of these results and whether this approach may need to be adjusted in the future. In some instances this could be a result of undocumented local fund swaps.
- **Self-Certification has mixed results for Local Policy Compliance.**

Self-certification of compliance with policy requirements may be insufficient at reaching universal compliance with OBAG policies (Appendix A, pages 11-12). In particular, 5 jurisdictions that remain out of compliance are still recommended for OBAG 2 funding by their CMAs. One positive result pertains to the Surplus Land requirement, in which general law cities and counties must adopt a resolution affirming compliance with the California Surplus Land Act. All cities and counties recommended by their CMA for OBAG 2 funding have met this new requirement.
- **Housing Anti-Displacement Criteria Added, but Impact Unclear.**

In OBAG 2, the Commission directed CMAs to develop a specific methodology to provide additional weight to jurisdictions that have adopted the most effective housing anti-displacement

Attachment 1 – Key OBAG 2 County Program Findings

Page 2 of 2

policies. The CMAs met this requirement, but the impact of the addition is unclear (Appendix A, page 13). MTC staff will work with CMA staff to better understand what impact this new scoring requirement had on County Program funding decisions as well as on incentivizing local policy adoption by cities and counties. Findings will inform the effort approved by the Commission in October 2017 to develop supplemental housing condition criteria that takes all regional discretionary fund sources into consideration, with results shared for public and stakeholder review by July 2018.

- **CMAs using more funds for own planning.**
In OBAG 2, the CMAs are using \$54 million for their own planning activities (separate from PDA planning), or 14% of the program. In OBAG 1, CMA planning was \$43 million, or 13%.
- **Local Policy Compliance:** To be eligible for OBAG 2 County Program funding, cities and counties are required to comply with several policy requirements, which are also required separately by state law. Of these program requirements, 8 jurisdictions in the Bay Area have still not come into compliance with the requirement to submit annual Housing Element annual Reports to HCD. Of these jurisdictions that have not yet submitted their 2016 progress report to HCD, 5 are recommended for OBAG 2 County Program funding by their respective CMAs.

OBAG 2 Requirement	Jurisdictions Not in Compliance	
Housing Element Annual Progress Reporting	Albany Danville Martinez	Saratoga Vallejo

One Bay Area Grant (OBAG 2)

County Program Report Card

MTC’s innovative One Bay Area Grant (OBAG) County Program is designed to strengthen the ties between local transportation investments and regional goals for affordable housing and greenhouse gas reduction. To create a funding program that builds upon local priorities to reach regional objectives, the County Program:

greenhouse gas reduction. To create a funding program that builds upon local priorities to reach regional objectives, the County Program:

- Focuses transportation investments on supporting future growth in Priority Development Areas (PDAs)
- Rewards local contributions to housing with County Program funding, including:
 - Planning and zoning to accommodate future housing growth through the Regional Housing Need Allocation (RHNA) process, and
 - Permitting and production of housing, particularly units that are affordable at the very-low, low, and moderate income levels
- Provides flexibility to the nine County Congestion Management Agencies (CMAs) to select projects that best reflect countywide and local priorities, while still achieving the overall program goals

County Program Investments

\$ in millions

County	OBAG 2 County Program (FY18-22)	OBAG 1 County Program (FY13-17)	Total
Alameda	\$77	\$66	\$142
Contra Costa	\$56	\$48	\$104
Marin	\$11	\$11	\$22
Napa	\$8	\$7	\$16
San Francisco	\$48	\$39	\$87
San Mateo	\$33	\$28	\$60
Santa Clara	\$104	\$92	\$196
Solano	\$21	\$20	\$41
Sonoma	\$28	\$24	\$52
Total	\$386	\$334	\$720

Project Types

Over the course of the first two cycles of the OBAG program, the greatest share of investments were directed to TLC projects (34% of total). Similar to bike/pedestrian improvements, TLC projects are heavily oriented to bicycle access and walkability, but also include streetscape improvements, road diets, or transit elements. When combining the TLC investments with bicycle/pedestrian (16%) and SRTS (8%) categories, a majority of County Program funds were directed to active transportation projects (58%).

Eligible project types include:

- ❖ Bicycle and pedestrian
- ❖ Transportation for Livable Communities (TLC)
- ❖ Local streets and roads
- ❖ Safe Routes to School (SRTS)
- ❖ Planning

The project mix remained fairly consistent between OBAG 1 and OBAG 2, with roughly equivalent shares being directed to each of the five project types. OBAG 2 does represent a relative shift in emphasis towards local streets and roads (percent share increased nearly 7 points compared to OBAG 1) and a corresponding decrease in share of TLC investments (percent share decreased 4 points from OBAG 1).

Investments by Project Type | Share of County Program Total

Additional information on the project types and investment levels by county and between funding cycles is provided in the project type focus areas below.

PROJECT TYPE IN FOCUS → CMA Planning Activities

Over the course of the OBAG 1 and 2 County Program, nearly \$100 million has been programmed to general CMA Planning Activities (14% of total program). Although CMA Planning accounts for an average of 14% of the total County Program, the shares for each county have fluctuated somewhat between OBAG 1 and OBAG 2. In OBAG 2, Santa Clara County and Solano County increased the size of their CMA Planning grant significantly (\$3.8 million and \$3.1 million, respectively). However, the relative share of the funding increase as part of each county's discretionary program was much greater in Solano County, which does not have a sales tax measure, (13% point increase over OBAG 1) than Santa Clara County (3% point increase). For the other seven counties, CMA Planning shares remained relatively flat, with absolute changes ranging between 0-4%.

CMA Planning Activities | Share of County Programs

CMA Planning Activities | County Detail

County	OBAG		Difference \$ Amount	Difference % of County Program
	2 CMA Planning	1 CMA Planning		
Alameda ACTC	\$8.3 11%	\$8.1 12%	\$0.2	-1%
Contra Costa CCTA	\$4.3 8%	\$5.1 11%	\$0.8	-3%
Marin TAM	\$3.8 35%	\$3.8 35%	\$0.0	0%
Napa NVTA	\$3.8 47%	\$3.4 45%	\$0.4	2%
San Francisco SFCTA	\$5.9 12%	\$4.3 11%	\$1.6	1%
San Mateo C/CAG	\$5.3 16%	\$4.1 15%	\$1.2	1%
Santa Clara VTA	\$10.9 10%	\$7.1 8%	\$3.8	2%
Solano STA	\$6.9 32%	\$3.7 19%	\$3.1	13%
Sonoma SCTA	\$5.0 18%	\$3.4 14%	\$1.6	4%
Total	\$54.3 14%	\$43.1 13%	\$11.2	1%

PROJECT TYPE IN FOCUS → Local Streets and Roads Investments

More than \$200 million has been allocated through the County Program to projects that preserve or rehabilitate local streets and roads. The total amount recommended for streets and roads projects in OBAG 2 is \$120 million, a \$38 million (45%) increase from OBAG 1. Included in the OBAG 2 amount for local streets and roads projects is \$12.5 million in Federal-Aid Secondary (FAS) program funds, which are provided to counties by state statute specifically for rural roads. These FAS shares were not included in the OBAG 1 County Program, as the shares had already been programmed in an earlier funding cycle.

Santa Clara and Contra Costa County have each recommended more than \$30 million to local streets and roads projects through the OBAG 2 program. Notably, San Francisco County has not directed any County Program funding to local streets and roads projects to date.

Local Streets and Roads | Investments by County

In OBAG 2, local streets and roads projects account for 31% of the overall County Program, a slight increase from a 25% share in OBAG 1. This additional emphasis on local streets and roads funding is most notable in Contra Costa County, where 56% of OBAG 2 funds are directed to pavement preservation projects (up from 35% in OBAG 1) and San Mateo County, with 41% going towards local streets and roads (up from 15% in OBAG 1).

Local Streets and Roads | Share of County Programs

PROJECT TYPES IN FOCUS → Active Transportation Investments

The majority of the OBAG County Program has been invested in active transportation (58%), a combination of Transportation for Livable Communities (TLC), bicycle and pedestrian, and Safe Routes to School (SRTS) projects. Over the course of the first two cycles of the program, more than \$415 million has been invested in projects and programs that improve accessibility, mobility and safety for pedestrians, bicyclists, and public transit riders.

CMAAs programmed approximately the same dollar amount (\$207 million) to active transportation in OBAG 1 and OBAG 2, despite a \$52 million (16%) increase in the overall size of the County Program in OBAG 2. Investments by county in active transportation are detailed below.

Active Transportation Investments | Investments by County

Active Transportation Investments | Share of County Programs

Additional information on investment breakdown for TLC, bicycle/pedestrian, and SRTS projects is provided below.

Active Transportation Investments | County Investments by Project Type

County	Transportation for Livable Communities		Bicycle/Pedestrian		Safe Routes to School		Total
	OBAG 2	OBAG 1	OBAG 2	OBAG 1	OBAG 2	OBAG 1

Alameda	Oakland	Lakeside Family Streets	\$4,792,000
Santa Clara	Palo Alto	El Camino Real Pedestrian Safety & Streetscape Imps	\$4,655,000
Contra Costa	Concord	Monument Blvd Class I Path	\$4,368,000

OBAG 2 County Program Report Card
PDA Investments

Working in step with *Plan Bay Area 2040*, the region’s current long-range transportation plan and Sustainable Communities’ Strategy (RTP/SCS), the OBAG County Program is designed to strategically invest in local transportation projects that support regional goals for focused development in designated areas, long-term reduction greenhouse gas (GHG) emissions, and housing affordability for all Bay Area residents.

To make progress in these areas, the County Program requires CMAs to direct the bulk of their discretionary funding on projects that are located within Priority Development Areas (PDAs) or projects that otherwise support access, mobility and development of PDAs. For more populous counties in the Peninsula, East and South Bay, 70% of the County Program must be PDA supportive investments (Alameda, Contra Costa, San Francisco, San Mateo, and Santa Clara Counties); in the North Bay, 50% of investments are required to support PDAs (Marin, Napa, Solano and Sonoma County).

In both OBAG 1 and OBAG 2, the CMAs met and exceeded the PDA investment targets for their respective counties. In OBAG 2, 82% of County Program investments are in PDAs or otherwise support nearby PDAs, as defined by the CMAs, up from 80% of County Program investments in OBAG 1. Over the course of the two cycles, this totals nearly \$540 million invested in projects that support local PDAs.

PDA Investments | *Share of County Programs*

Housing Linkage

A defining feature of the OBAG County Program is the introduction of housing considerations into the framework for how to distribute transportation dollars.

In OBAG 2, the formula used to distribute county program funds was revised to:

- Consider housing contributions over a longer timeframe in order to mitigate the effect of the recent recession and major swings in housing permit approvals, while still providing additional weight for jurisdictions that recently made strides in housing outcomes (70% weighting given to units permitted in 2007-2014, 30% weight for permits from 1999-2006);
- Place additional emphasis on housing production over planning for future housing needs through the Regional Housing Needs Allocation (RHNA) process (production factors account for 30% of OBAG 2 total formula, up from 25% in OBAG 1).
- Place additional emphasis on housing that is affordable at the very low, low, and moderate income levels, over total housing units (affordability factors account for 30% of OBAG 2 total formula, up from 25% in OBAG 1).

The County Program distribution formula is designed to reward local efforts to accommodate future housing growth at all income levels through the RHNA process and that also make good on those commitments through the permitting and production of housing.

It is important to note that the link between MTC’s County Program formula distribution and the grants ultimately received by local jurisdictions is indirect, as each CMA manages its own countywide competitive call for projects for the amounts allotted to each county. Although housing contributions are an important consideration for project selection, CMAs are also required to consider several other factors – including investing in high impact areas, such as PDAs, Transit Priority Areas (TPAs); projects in Communities of Concern (CoCs) or identified through Community-Based Transportation Plans (CBTPs); projects within the Air District’s Community Air Risk Evaluation (CARE) communities; and projects within cities and counties that have adopted affordable housing creation and preservation policies. In addition, CMAs also take into consideration the priorities and needs of the jurisdictions within their counties, as well as administrative issues including eligibility with OBAG policy requirements, and deliverability issues.

In OBAG 2, the jurisdictions contributing the most towards housing goals tend to also be recommended for the most grant funding, with a few exceptions. Additionally, when OBAG 1 and OBAG 2 grants are combined, there are a few jurisdictions that have received significantly less funding than expected (or conversely, significantly more), based on their contributions to housing. The tables below highlight some of these differences.

Distribution Formula

OBAG 2 County Program Funding

* Per the 2014-2022 Regional Housing Need Allocation.

** Per the 1999-2006 and 2007-2014 Housing Production Report from ABAG.

The OBAG County Program distribution formula incorporates local efforts to accommodate future housing growth at all income levels,* but housing is one of many factors taken into consideration by CMAs in project prioritization. **The tables below are provided for informational purposes only, and do not imply a requirement for CMAs to award specific amounts to individual jurisdictions.**

Top 15 Jurisdictions | Sorted by Grant Award Totals

\$, in millions

 Jurisdiction **is not** in the top 15 in terms of contribution to county distribution formula, but **is** in the top 15 for largest grant totals.

 Jurisdiction **is** in the top 15 contributors to county distribution formula, but **is not** in the top 15 recipients of grant funds.

*The link between local housing factors and OBAG grant funding is indirect. Each CMA manages its own countywide competitive call for projects for the amount allotted to the county. In addition to taking housing contributions into consideration, CMAs are required to prioritize projects that invest in high impact areas (PDAs/TPAs), Communities of Concern (COCs), Air District Community Air Risk Evaluation (CARE) communities, and in jurisdictions that have adopted affordable housing creation and preservation policies. In addition, CMAs may choose to incorporate additional project evaluation criteria to best meet the needs and priorities of their county.

** Jurisdiction's contribution to the OBAG 1 and OBAG 2 county distribution formulas; includes various housing factors (50% of formula) and population (50% of formula).

Policy Requirements

To be eligible for OBAG 2 County Program funding, local cities and counties are required to comply with several policy requirements, which are also required separately by state law:

- **Housing Element Certification:** Cities and counties must have a general plan housing element adopted and certified by the California Department of Housing and Community Development (HCD) for 2014-2022 RHNA by May 31, 2015.
 - 100% compliance – all Bay Area jurisdictions have an HCD certified housing element
- **Housing Element Annual Progress Reporting:** Cities and counties are required to submit Housing Element Annual Reports to HCD by April 1 every year. All cities and counties receiving OBAG 2 funding must comply with this requirement during the entire OBAG 2 funding period.
 - 93% compliance – 8 jurisdictions have not yet submitted a compliant 2016 progress report (due April 1, 2017); 5 of these jurisdictions are recommended for OBAG 2 funding by their CMA.

In order to remain eligible for OBAG 2 County Program funds, all jurisdictions must submit a compliant housing element progress report (for the 2016 reporting year) to HCD no later than March 1, 2018.

As a reminder to all jurisdictions, the annual progress reports are an annual requirement to maintain eligibility throughout the OBAG 2 funding period. Jurisdictions that do not submit progress reports pursuant to state statute may risk deprogramming of OBAG 2 funds and risk eligibility for future fund cycles.

- **Complete Streets Policy:** Cities and counties must adopt a complete streets resolution by the date the CMAs submit their OBAG 2 project recommendations to MTC, incorporating MTC's required complete streets elements as outlined in MTC's Complete Streets Guidance. Alternatively a jurisdiction can meet this requirement through an update of their general plan circulation element after January 1, 2010 to incorporate the provisions of the 2008 Complete Streets Act.
 - 99% compliance – only one jurisdiction has not yet adopted a compliant complete streets resolution of updated circulation element; all jurisdictions recommended for OBAG 2 funding by their CMA have met this requirement.
- **Surplus Land Act:** All general law cities and counties must adopt a surplus land resolution by the date affirming compliance with the State Surplus Land Act.
 - 100% compliance – All general law cities and counties adopted a resolution affirming compliance with the State Surplus Land Act.

Note: In addition to the policy requirements described above, which are required to maintain eligibility for OBAG 2 funding, local jurisdictions must also meet several additional requirements in order for MTC to program their grant funding into the federal Transportation Improvement Program (TIP). These requirements include completion of a complete streets checklist for all capital projects, maintaining a certified Pavement Management Program (PMP), and participating in annual traffic data collection as part of the federal Highway Performance Monitoring System (HPMS) and periodic local streets and roads needs assessments.

OBAG 2 Local Policy Compliance | Required for OBAG 2 Eligibility

OBAG 2 Requirement	Compliance	Non-Compliant Jurisdictions	
		Recommended by CMA for OBAG 2 Funding	Not Recommended by CMA for OBAG 2 Funding
• Housing Element Certification	100%		
• Housing Element Annual Progress Reporting	93%	Albany Danville Martinez	Saratoga Vallejo Los Altos Hills Dixon Rio Vista
• Complete Streets Policy	99%		Cloverdale
• Surplus Land Act	100%		

OBAG 2 Local Compliance | Required Prior to TIP Programming

OBAG 2 Requirement	Compliance	Non-Compliant Jurisdictions	
		Recommended by CMA for OBAG 2 Funding	Not Recommended by CMA for OBAG 2 Funding
• Complete Streets Checklists	100%	(see note below)	
• Pavement Management Certification (PMP)	94%	Portola Valley Vallejo Sebastopol	Mill Valley Tiburon Cloverdale
• Local Streets and Roads Needs Assessment	100%		
• Highway Performance Monitoring System (HPMS) Annual Traffic Data Survey	95%	Gilroy Healdsburg	Belvedere Monte Sereno Rio Vista

Note: All projects recommended for OBAG 2 funding have completed a Complete Streets Checklist. However, the OBAG 2 policy requires that complete streets checklists be completed and made available for review by Bicycle and Pedestrian Advisory Committees (BPACs) prior to CMA adoption of the program of projects. MTC will work with CMAs and project sponsor staff to ensure all checklists that were submitted after the CMA program adoption are made available to the appropriate BPAC for review, prior to programming in the TIP.

CMA Policies

Anti-Displacement Scoring for PDA Projects

OBAG 2 included a new requirement for CMAs to adopt a specific scoring methodology for funding projects within PDAs or Transit Priority Areas (TPAs) to reward jurisdictions with the most effective housing anti-displacement policies. The various approaches taken by CMAs to meet this requirement are detailed below.

CMA Anti-Displacement Scoring Approaches	
Alameda <i>ACTC</i>	ACTC used existing criteria for project evaluation: up to 9 points (out of 100) for various affordable housing preservation/creation strategies.
Contra Costa <i>CCTA</i>	CCTC adopted an approach to direct up to 4 points (out of 100) based on the number of housing policies from UC Berkeley’s Urban Displacement project list of 14 policies.
Marin <i>TAM</i>	TAM assigned a low/medium/high score based on the number of policies adopted in the jurisdictions. Both of their two PDA jurisdictions were given “medium” scores, but of those, only San Rafael submitted a funding application. Thus, the additional scoring confirmed the selection of San Rafael for PDA funding.
Napa <i>NVTA</i>	Framework included a low/medium/high ranking. The application included a long list of housing policies including several not included in the UC Berkeley list, such as various loan programs for housing preservation and home-ownership, foreclosure prevention programs, and reduced parking requirements.
San Francisco <i>SFCTA</i>	San Francisco has several existing community stabilization policies in place. To honor the intent of the Commission to provide additional weighting to support affordable housing goals, SFCTA's scoring methodology gave up to 3 points (out of 43) to projects located in a PDA that is near a proposed housing development with 75% or more affordable units.
San Mateo <i>C/CAG</i>	C/CAG approved up to 1 point (out of 96) to jurisdictions with one or more of 14 listed housing preservation/stabilization policies.
Santa Clara <i>VTA</i>	Policy included up to 5 bonus points (beyond the 100 point total) for jurisdictions with policies in place (1 point per policy); VTA included 5 applicable policies and one catch-all for other strategies.
Solano <i>STA</i>	STA uses a qualitative project selection process. The application asked the sponsor to describe the jurisdiction’s anti-displacement policies.
Sonoma <i>SCTA</i>	SCTA awarded up to 3 points (out of 35) for projects in PDAs with affordable housing preservation and creation strategies and community stabilization policies.

As part of this new requirement, the Commission directed MTC and the CMAs to analyze the impact of this incentive-based scoring methodology on project selection and local anti-displacement and affordable housing production policy development. MTC staff will work with CMA staff to better understand what impact this new scoring requirement had on County Program funding decisions as well as on incentivizing local policy adoption by cities and counties. Findings will inform the effort to develop supplemental housing condition criteria that takes all regional discretionary fund sources into consideration, with results shared for public and stakeholder review by July 2018.

PDA Investment Criteria for Projects Outside of PDAs

A project does not need to be located within the geographic boundaries of a PDA in order to support access and mobility of the PDA. In some cases, a project located entirely outside of a PDA, such as new or improved transit service, can provide significant benefits to a nearby PDA. In recognition of this, CMAs may consider projects providing improved access to a PDA as contributing to their PDA minimum investment targets. The criteria adopted by each CMA to determine whether a project provide access or benefits to a nearby PDA are detailed below.

PDA Investment Criteria for Projects Outside of PDAs	
Alameda ACTC	Providing benefits of travel to or from a PDA, between PDAs, or between a PDA and a job center or other important community services or areas
Contra Costa CCTA	The project: <ol style="list-style-type: none"> 1. Is wholly or partially within the limits of a PDA or directly connects to a PDA 2. Improves access to the PDA and is within ½ mile of a PDA, or within 1 mile of a PDA and within a COC, or within 2 miles of a PDA and improves transit access on a route that serves and connects a PDA 3. Improves or completes a gap on the Countywide Bikeway Network designated in the Authority’s Countywide Bicycle and Pedestrian Plan, is within the designated Contra Costa Urban Limit Line, and improves bicycle/pedestrian access to one or more PDAs 4. Connects a PDA either to a transit station or transit center or to a significant concentration of jobs, either of which is within 1 mile of the PDA 5. Is greater than ½ mile from a PDA and does not meet any of the above criteria, but does provide critical improvements in access to a PDA, such as removing a barrier in gaining access to a PDA and providing substantially more direct bicycle/pedestrian access to the PDA
Marin TAM	No definition; OBAG 2 projects are within/partially within PDA or not in a PDA.
Napa NVTA	No definition; required applicants to describe
San Francisco SFCTA	No definition; required applicants to describe
San Mateo C/CAG	The project: <ol style="list-style-type: none"> 1. Provides direct access to a PDA 2. Is within one mile radius of a PDA boundary 3. Is located on a street that houses a transit route, which directly leads to a PDA 4. Is located within ½ mile of 1 or more stops for 2 or more public or shuttle bus lines, or within ½ mile of a rail or regional transit station, that is connected to a PDA 5. Provides a connection between a TOD, as defined by C/CAG, and a PDA. 6. Is a bicycle/pedestrian facility that is included in an adopted bicycle/pedestrian plan within San Mateo County and is part of a network that leads to a PDA.
Santa Clara VTA	<ol style="list-style-type: none"> 1. Definitely Serves: Project is completely or partially in a PDA; portion of the project is within ½ mile of a PDA; the project is wholly on one of the included Transit Investment Corridors; bike projects that are wholly within Countywide Bike Corridors; connects one PDA to another; removes a barrier to a PDA. 2. Needs Justification: Project is greater than ½ mile from any PDA and does not meet any of the above criteria, but benefits a PDA, with clear justification.
Solano STA	No definition; OBAG 2 projects are within/partially within PDA or not in a PDA.
Sonoma SCTA	No definition; required applicants to describe. SCTA did use a “rule of thumb” internally: ¼ mile from PDA for bike/pedestrian projects; ½ mile for LSR projects.

One Bay Area Grant (OBAG 2) Alameda County Projects

Bicycle / Pedestrian		
1	Albany: San Pablo Ave and Buchanan St Pedestrian Improvements	\$340,000
2	Oakland: Lakeside Family Streets	\$4,792,000
Local Streets & Roads		
3	Alameda County: Various Streets and Roads Preservation	\$3,950,000
4	Alameda: City Wide Street Resurfacing Program	\$827,000
5	Berkeley: North Shattuck Ave Rehabilitation*	\$1,214,000

ABSTRACT

Resolution No. 4202, Revised

Adoption of the project selection policies and project programming for the second round of the One Bay Area Grant program (OBAG 2). The project selection criteria and programming policy contain the project categories that are to be funded with various fund sources including federal surface transportation act funding available to MTC for its programming discretion to be included in the federal Transportation Improvement Program (TIP) for the OBAG 2 funding period.

The resolution includes the following attachments:

- Attachment A – OBAG 2 Project Selection Criteria and Programming Policy
- Attachment B-1 – OBAG 2 Regional Program Project List
- Attachment B-2 – OBAG 2 County Program Project List

On July 27, 2016, Attachment A, and Attachments B-1 and B-2 were revised to add additional funding and projects to the OBAG 2 framework, including \$72 million in additional Fixing America's Surface Transportation Act (FAST) funding, and to incorporate housing-related policies.

On October 26, 2016, Attachment A, and Attachment B-1 were revised to clarify language related to the North Bay Priority Conservation Area (PCA) Program in Attachment A and to deprogram \$2,500,000 from the Water Emergency Transportation Authority (WETA) Ferry Service Enhancement Pilot within the Regional Active Operational Management Program.

On December 21, 2016, Attachments B-1 and B-2 were revised to redirect \$417,000 in un-programmed balances from the Regional Active Operational Management program to MTC's Spare the Air Youth within the Climate Initiatives Program; divide MTC's Rideshare Program into three subcomponents totaling \$10,000,000: \$720,000 for Rideshare Implementation, \$7,280,000 for the Carpool Program, and \$2,000,000 for the Vanpool Program; direct \$1,785,000 from 511 Next Gen to the Commuter Benefits program; direct \$1,000,000 in un-programmed balances to SMART's Multi-Use Pathway; transfer \$1,000,000 from MTC's Casual Carpool project to MTC's Eastbay

Commuter Parking project within the Bay Bridge Forward program, as the former will be funded with non-federal funds; transfer \$500,000 from the Freeway Performance Initiative program and \$500,000 in un-programmed balances to US 101/Marin Sonoma Narrow's B2 Phase 2 project in the Regional Active Operational Management Program; shift \$40,000,000 from the BART Car Replacement/Expansion project to the Golden Gate Bridge Suicide Deterrent project and \$13 million from MTC's Clipper project to un-programmed balances within the Transit Priorities program as part of a RM2 funding action to address a cost increase on the Golden Gate Bridge Suicide Deterrent project; and program \$5,990,000 to Alameda County's Safe Routes to School Program in the County Program.

On March 22, 2017, Attachment B-1 was revised to program \$17,000,000 in un-programmed balances within the Regional Transit Priorities Program to MTC's Clipper Program, as part of the FY17 Transit Capital Priorities program.

On April 26, 2017, Attachment B-2 was revised to program \$1,655,000 to the Sonoma Safe Routes to School program; and redirect \$1,000 from Contra Costa Transportation Authority's Planning Activities Base to its discretionary balance and \$1,000 from San Francisco County Transportation Authority's Planning Activities Base to its discretionary balance to address an inconsistency between amounts programmed to planning activities in Appendix A-3 and reflect actual amounts obligated for planning.

On May 24, 2017, Attachment B-1 was revised to redirect \$1,237,000 from 511 Next Gen to AOM Implementation within the Regional Active Operational Management program to reflect re-organization of staff between program elements; direct \$18,000,000 in Arterial/Transit Performance to the Program for Arterial System Synchronization (\$5,000,000) and the Next Gen Arterial Operations Program (\$13,000,000) within the Regional Active Operational Management program; direct \$19,000,000 from the Transportation Management System (TMS) Field Equipment Devices Operations and Maintenance to TMS Implementation (\$2,910,000), Performance-Based Intelligent Transportation Systems Device Maintenance and Rehabilitation (\$5,940,000), Transportation Management Center Asset Upgrade and Replacement (\$4,000,000), I-880 Communication Upgrade and Infrastructure Gap Closures (\$4,000,000) and a Detection Technology Pilot (\$5,000,000) within the Regional Active Operational Management program; and remove \$290,556 in un-programmed balances from the Regional Active Operational Management program to address over-programming in a previous cycles of the STP/CMAQ regional programs.

ABSTRACT

MTC Resolution No. 4202, Revised

Page 3

On June 28, 2017, Attachments B-1 and B-2 were revised to reprogram \$1,000,000 from the SMART Pathway – 2nd to Andersen to San Rafael’s Grand Ave Bike/Pedestrian Improvements within the Regional Climate Initiatives program as part of a funding exchange within the City of San Rafael, conditioned on San Rafael committing \$1 million in non-federal funds to the construction of the pathway, and a resolution of local support for the use of federal funds on the Grand Ave project, and TAM approval of the redirection of local measure funds between the projects; split out \$8,729,000 from the 511 Next Gen program to 511 Implementation within the Regional Active Operational Management program; program \$1,250,000 to Golden Gate Bridge Highway and Transportation District for the Bettini Transit Center as part of the Marin County Program; and program \$2,617,000 within the San Mateo County Program to the San Mateo County Office of Education for the SRTS program, including \$223,000 in supplemental funds from San Mateo’s discretionary balance.

On July 26, 2017, Attachment B-1 was revised to program \$12,000,000 to the US 101 Marin Sonoma Narrows project as part of a fund exchange agreement with Sonoma County Transportation Authority; \$11,000,000 in exchange funds are added to the program for tracking purposes, with the final \$1 million in exchange funds to be identified through a future Commission action.

On September 27, 2017, Attachment B-1 was revised to change the name of the Next Gen Arterial Operations Program (NGAOP) to Innovative Deployment for Enhanced Arterials (IDEA) to reflect program rebranding and additional focus on advanced technologies; program \$4,160,000 to Incident Management Implementation and \$8,840,000 to I-880 Integrated Corridor Mobility project within the Regional Active Operational Management program; split out the Connected Vehicles/Shared Mobility program into the Connected Vehicles/Automated Vehicles program for \$2,500,000 and the Shared Use Mobility program for \$2,500,000; and program \$16,000,000 for three corridors within the Freeway Performance Program, with \$8,000,000 for I-680, \$3,000,000 for I-880, and \$5,000,000 for SR-84.

On October 25, 2017, Attachment B-1 was revised to program \$10,000,000 to the Bay Area Air Quality Management District for the Spare the Air program, in lieu of the Electric Vehicle Programs within the Regional Climate Initiatives Program, conditioned on the Air District contribution of an additional \$10 million to advance implementation of electric vehicles within the region.

ABSTRACT

MTC Resolution No. 4202, Revised

Page 4

On November 15, 2017, Attachment B-2 was revised to program \$200,000 in the Alameda County Program to the I-580 Corridor Study, to support a joint corridor study between Alameda County Transportation Commission (ACTC) and MTC; \$122,000 within the Napa County Program to Napa Valley Transportation Authority (NVTA) for the Napa County Safe Routes to School (SRTS) Program; and \$300,000 within the Contra Costa County Program to San Ramon for the San Ramon Valley Street Smarts Program.

On December 20, 2017, Attachments A, Appendix A-3, B-1, and B-2 were revised to program \$334 million in the County Program to local and county projects recommended by the nine Congestion Management Agencies (CMAs); redirect \$10,248,000 from BART Car Replacement/Expansion to Clipper within the Regional Transit Priorities Program; revise the CMA Planning Activities funding amounts to reflect the supplementary funds requested by several CMAs through their County Programs; and clarify the program details for the Local Housing Production Incentive program (also known as the *80K by 2020 Challenge Grant*).

Further discussion of the project selection criteria and programming policy is contained in the memorandum to the Programming and Allocations Committee dated November 4, 2015, July 13, 2016, October 12, 2016, December 14, 2016, February 8, 2017 (action deferred to March 2017), March 8, 2017, April 12, 2017, May 10, 2017, June 14, 2017, July 12, 2017, September 13, 2017, October 11, 2017, November 8, 2017, and December 13, 2017.

RE: One Bay Area Grant Program Second Round (OBAG 2) Project Selection Criteria and Programming Policy

METROPOLITAN TRANSPORTATION COMMISSION
RESOLUTION NO. 4202

WHEREAS, the Metropolitan Transportation Commission (MTC) is the Regional Transportation Planning Agency (RTPA) for the San Francisco Bay Area pursuant to Government Code Section 66500 et seq.; and

WHEREAS, MTC is the designated Metropolitan Planning Organization (MPO) for the nine-county San Francisco Bay Area region and is required to prepare and endorse a Transportation Improvement Program (TIP) which includes federal funds; and

WHEREAS, MTC is the designated recipient for state and federal funding assigned to the RTPA/MPO of the San Francisco Bay Area for the programming of projects; and

WHEREAS, state and federal funds assigned for RTPA/MPO programming discretion are subject to availability and must be used within prescribed funding deadlines regardless of project readiness; and

WHEREAS, MTC, in cooperation with the Association of Bay Area Governments (ABAG), the Bay Area Air Quality Management District (BAAQMD), the Bay Conservation and Development Commission (BCDC), California Department of Transportation (Caltrans), Congestion Management Agencies (CMAs), county Transportation Authorities (TAs), transit operators, counties, cities, and interested stakeholders, has developed criteria, policies and procedures to be used in the selection of projects to be funded with various funding including regional federal funds as set forth in Attachments A, B-1 and B-2 of this Resolution, incorporated herein as though set forth at length; and

WHEREAS, using the policies set forth in Attachment A of this Resolution, MTC, in cooperation with the Bay Area Partnership and interested stakeholders, will develop a program of projects to be funded with these funds for inclusion in the federal TIP, as set forth in Attachments B-1 and B-2 of this Resolution, incorporated herein as though set forth at length; and

WHEREAS the federal TIP and subsequent TIP amendments and updates are subject to public review and comment; now therefore be it

RESOLVED that MTC approves the “Project Selection Criteria and Programming Policy” for projects to be funded in the OBAG 2 Program as set forth in Attachments A, B-1 and B-2 of this Resolution; and be it further

RESOLVED that the regional discretionary funding shall be pooled and distributed on a regional basis for implementation of project selection criteria, policies, procedures and programming, consistent with the Regional Transportation Plan (RTP); and be it further

RESOLVED that the projects will be included in the federal TIP subject to final federal approval and requirements; and be it further

RESOLVED that the Executive Director or designee may make technical adjustments and other non-substantial revisions, including updates to fund sources and distributions to reflect final funding criteria and availability; and be it further

RESOLVED that the Executive Director or designee is authorized to revise Attachments B-1 and B-2 as necessary to reflect the programming of projects as the projects are selected, revised and included in the federal TIP; and be it further

RESOLVED that the Executive Director or designee shall make available a copy of this resolution, and attachments as may be required and appropriate.

METROPOLITAN TRANSPORTATION COMMISSION

Dave Cortese, Chair

The above resolution was entered into by the Metropolitan Transportation Commission at the regular meeting of the Commission held in Oakland, California, on November 18, 2015

Date: November 18, 2015

Attachment A
Resolution No. 4202

OBAG 2
One Bay Area Grant Program
Project Selection Criteria and Programming Policy

Appendix A-9 outlines the framework for this program including goals, project screening, eligibility, eligible sponsors, and project selection.

8. Housing Production Incentive

As part of the OBAG 2 framework, MTC will develop a challenge grant program for the production of affordable housing. The purpose of the program is to reward local jurisdictions that produce the most housing units at the very low, low, and moderate income levels.

The proposed concept for this program is to set a six year target for production of low and moderate income housing units (2015 through 2020), based on the housing unit needs identified through the Regional Housing Needs Allocation (RHNA) for 2014-22. The target for the proposed challenge grant period is approximately 80,000 low and moderate income units (35,000 very low, 22,000 low and 25,000 moderate units, for a total of 82,000 units, derived from the years of the current RHNA cycle). The units would need to be located in PDA's or in Transit Priority Areas (TPA's). Additionally, to be credited towards reaching the production targets, very low and low income units need to be deed restricted; moderate income units do not require deed restriction to be credited in the program. **Existing units that are preserved for long-term affordability will also be credited towards the program's production targets.**

At the end of the production challenge cycle, MTC will distribute grant funds to the jurisdictions that contribute the most toward reaching the regional production target. To keep the grant size large enough to serve as an incentive for housing production, the grant program would be limited to no more than the top **ten-15** producers of affordable housing units, or fewer, if the 80,000 unit target is reached by less than **ten-cities 15 jurisdictions**. **In addition, at least one jurisdiction from each county will be awarded a challenge grant.** Staff will provide annual progress reports on production of affordable housing units.

The funds provided **through OBAG 2** would be STP/CMAQ, and would need to be used only for federally eligible transportation purposes. **Additional funds may be added outside of OBAG 2 to increase the size of the challenge grant program.**

COUNTY PROGRAMMING POLICIES

The policies below apply to the programs managed by the county Congestion Management Agencies (CMAs) or substitute agency:

- ▶ **Program Eligibility:** The CMA, or substitute agency, may program funds from its OBAG 2 county fund distribution to projects that meet the eligibility requirements for any of the following transportation improvement types:
 - Planning and Outreach Activities
 - Local Streets and Roads Preservation
 - Bicycle and Pedestrian Improvements
 - Transportation for Livable Communities
