Agenda Item 2b

Resolution No. 3881, Revised

Subject: Revisions to the Lifeline Transportation Cycle 2 Program of Projects

Background: MTC's Lifeline Transportation Program (LTP) funds projects that improve mobility for the region's low-income communities. The program is administered by the nine county congestion management agencies (CMAs), and in Santa Clara County via a joint arrangement between the CMA and the County.

1) Lifeline Transportation Program - Cycle 2 Revisions:

In 2009, the Commission adopted Resolution No. 3881, which approved the Lifeline Transportation Program of Projects for Cycle 2 (FYs 2008-09, 2009-10, and 2010-11), totaling approximately \$57 million. The Second-Cycle program is funded by State Transit Assistance (STA), Proposition 1B Transit funds, and federal Job Access and Reverse Commute (JARC) funds.

As of 2018, all of the projects have been completed, closed out, or discontinued. However, a balance of approximately \$130,193 in unspent JARC funds still remains in an open FTA grant due to projects that either did not spend all of these funds or were canceled. The Federal Transit Administration (FTA) has requested that MTC close out this JARC-funded grant by September 2019 or demonstrate the ability to use the remainder of the funds in the immediate future. Only existing Lifeline Cycle 2 projects funded with FTA JARC funds are eligible to use the JARC funds; no new projects can be added to the program.

To meet FTA's request, staff recommends redirecting the JARC funds to an active project that is positioned to utilize the funds immediately. Other eligible projects listed in the FTA grant were considered, but they were either completed, not active or would result in inefficiently parsing out the funds to a large number of smaller projects.

Staff recommends redirecting the JARC funds to Ways to Work Family Loan Program sponsored by Peninsula Family Service in the amount of \$130,193. The project provides low-interest auto loans to individuals in San Mateo and Santa Clara counties who are unable to access consumer loan financing. The loans, coupled with financial education and credit repair assistance, help address transportation barriers so that individuals can pursue efforts at self-sufficiency, including work, education, asset building and job training.

Issues: For the Lifeline Transportation Program - Cycle 2 proposed revision, the award, allocation and reimbursement of JARC funds to the Peninsula Family Service project is contingent upon FTA's approval and availability of funds within the existing grant.

Recommendation: Refer Resolution No. 3881, Revised to the Commission for approval.

This resolution adopts the FY 2009 through FY 2011 Program of Projects for MTC's Second-Cycle Lifeline Transportation Program, funded with State Transit Assistance (STA), Proposition 1B Transit and Job Access Reverse Commute (JARC) funds.

The evaluation criteria established in Resolution 3860 were used by the county entities administering the program to develop the program of projects.

The following attachments are provided with this resolution:

Attachment A — Second-Cycle Lifeline Transportation Program of Projects -
FY2009-2011

This resolution was revised on May 27, 2009 to amend Attachment A to incorporate changes to STA-funded projects based on STA reductions in the final FY2009 state budget, and adds two new projects – new transit and shuttle service in Napa County and a SamTrans bus purchase in San Mateo County.

This resolution was revised on October 28, 2009 to amend Attachment A to revise and add STA funds to the Balboa Park Station entrance project in San Francisco County and to incorporate Proposition 1B-funded projects in Santa Clara County.

This resolution was revised on October 26, 2016 to amend Attachment A to reprogram \$13,164 in project cost savings from the Hunter's View Revitalization Transit Stop Connection to the Mission Bay Loop project, (an existing Lifeline Transportation Cycle 3 project that was added to Lifeline Transportation Cycle 2 on June 22, 2016).

This resolution was revised on May 24, 2017 to amend Attachment A to redirect \$304,532 in unused federal Job Access and Reverse Commute (JARC) funds that are remaining in the Lifeline Transportation Cycle 2 program. \$204,532 is being programmed to the San Leandro Links Shuttle project and \$100,000 is being programmed to the Neighborhood Bicycle Centers project (both are existing Lifeline Transportation Cycle 2 projects).

Notes

- (a) Alameda County received a \$5,098,588 advance of their Tier 1 Prop 1 B funds in FY08. The funds and projects shown here were applied for in April 2008. Allocation of \$270,954 of Proposition 1B funds from from Ashby BART station elevator to MacArthur BART Station Plaza Improvement is conditioned upon approval from the Alameda County Transportation Commission in December 2012.
- (b) Includes \$57,977 in Small Urbanized Area JARC funds administered by Caltrans in Tier 1 and \$130,000 in Tier 2.
- (c) JARC funds part of the Small Urbanized Area program administered by Caltrans.
- (d) Golden Gate Transit will claim the funds for these projects. Totals include administration costs.
- (e) Moved from Tier 2 to Tier 1, May 2009.
- (f) AC Transit will claim the funds for these projects.
- (g) Tier 1 STA amount partially backfilled with Tier 2 JARC to meet sponsor's original funding request and make additional Tier 2 STA available to other projects.
- (h) SamTrans will claim the funds for these projects. Tier 2 STA amounts are for SamTrans' administration costs.
- (i) MTA will claim the funds for this project. Approval of this project is subject to project sponsor securing the necessary easements.
- (j) JARC funds part of the Small Urbanized Area JARC funds administered by Caltrans in Tier 1 and \$323,225 in Tier 2.
- (k) \$165,359 of the total Large Urbanized Area JARC funds awarded in Tier 2 were reprogrammed in Res. 3788 due to discontinuation of another First Cycle Lifeline project in Santa Clara County. The Tier 2 JARC amount available for MTC to encumber in this Resolution is \$343,450.
- (l) JARC funds part of the Small Urbanized Area JARC funds administered by Caltrans.
- (m) Allocation of \$35,000 in JARC funds from San Leandro LINKS Shuttle to Neighborhood Bike Centers is conditioned upon approval from the Alameda County Transportation Commission.

- (o) On 4/22/15, \$216,000 in Lifeline Cycle 2 Proposition 1B funds were removed from the San Bruno Transit Preferential Streets (TPS) project and programmed to the Potrero Hill Pedestrian Safety and Transit Stop Improvements project. The San Bruno TPS project never received the \$216,000 in FY2009-10 Proposition 1B funds that were programmed to the project; the San Bruno TPS project is instead being funded as part of SFMTA's Muni Forward project and the \$216,000 in FY2009-10 funds were advanced to the Urban Core category from the Lifeline category in May 2011 in order to accommodate urgent funding needs of the Central Subway project. SFMTA has confirmed that in April 2015, the \$216,000 will be returned to the Lifeline category using SFMTA's FY2015 Revenue-Based PTMISEA funds (see MTC Resolution Nos. 3880, Revised and 4179, Revised).
- (p) On 6/22/16, Project Cost saving of \$100,510 in Lifeline Cycle 2 Proposition 1B funds were transferred from the Randolph/ Fanalones/ Orizaba Transit Access Improvements project and programmed to the Mission Bay Loop project. The additional \$100,510 would fund unanticipated project costs associated with relocating a sewer line adjacent to the track on the Mission Bay Loop project. (see also MTC Resolution Nos. 3880, Revised).
- (q) On 10/26/16 Project Cost savings of \$13,164 in Lifeline Cycle 2 Proposition 1B funds was transferred from the Hunter's View Revitalization Project and programmed to the Mission Bay Loop project. Agenda Item 2c

MTC Resolution Nos. 3989 Revised, and 4202 Revised

Subject: Revisions to the MTC Exchange Program and One Bay Area Grant (OBAG 2) Program, for the Innovative Deployments to Enhance Arterials (IDEA) program.

Background: **Exchange Program:** On occasion, MTC enters into agreements to exchange federal Surface Transportation Block Grant Program (STP) and Congestion Mitigation and Air Quality Improvement (CMAQ) program funds with non-federal local funds. These exchanges do not increase the total amount of funds available to the region, but rather change the fund source for a portion of the federal STP/CMAQ program, allowing MTC greater flexibility to deliver select priority projects. MTC Resolution No. 3989, Revised, describes the procedures governing MTC's Exchange Program and details the agreements and commitments that have been made to date.

In September 2018, the Commission approved MTC Resolution No. 4357 providing \$4 million in STP funds for the I-680 HOV/Express Lane, in exchange for an equal amount of Contra Costa Transportation Authority (CCTA) measure funds. In November 2018 the \$4 million was assigned to specific projects within the MTC Exchange Program, MTC Resolution 3989.

Exchange Commitments

Staff recommends the following modifications to the MTC exchange Program, MTC Resolution 3839, and making adjustments to OBAG 2 – MTC Resolution No. 4202 Attachment B-1 Revised, to reflect these modifications.

- Change recipient of the Concord IDEA project from the Contra Costa Transportation Authority (CCTA) to the City of Concord and reduce the funding from \$619,000 to \$589,000
- Reduce funding amount for the MTC Richmond-San Rafael Bridge Forward project from \$1,160,000 to \$1,046,000
- Redirect these funds to a new project for the MTC-led portion of the Concord IDEA project for \$144,000. The \$144,000 covers the required match identified in MTC Resolution 4357.

These modifications result in no net change to total funds committed to-date in the MTC Exchange Program and delivers the same improvements.

Issues: None

Recommendation: Refer MTC Resolution Nos. 3989, Revised, and 4202, Revised to the Commission for approval. Because Resolution 4202 is proposed for revision under another agenda items, it is included once under Agenda Item 4a with all proposed revisions. Only items referred by the Committee will be forwarded to the Commission.

ABSTRACT

Resolution No. 3989, Revised

This resolution establishes the procedures governing the MTC Exchange Program. This resolution supersedes MTC Resolution No. 3018.

Attachment B was revised on October 26, 2011 to provide \$376,000 Exchange Program funding to the intertribal Electric Vehicle project.

Attachments B and C were respectively revised on February 26, 2014 to include \$10 million in Exchange Program funding for Transit Oriented Affordable Housing (TOAH), and update final balances of the initial STP Exchange Program (Resolution 3018) to reflect final project close out.

Attachments A and B were revised on December 21, 2016 to program \$1.1 million to the Bay Bridge Forward Commuter Parking Initiative and update the name of the Transit Oriented Affordable Housing Program.

Attachments A and B were revised on July 26, 2017 to program \$8.2 million to the Regional Priority Conservation Area (PCA) program and \$2.8 million to the Regional Active Operational Management Program. An additional \$1 million in exchange funds will be committed to a specific project or program through a future Commission action. This action and associated agreement and programming actions are contingent upon California Transportation Commission (CTC) approval of the amendment to the baseline agreement for the Marin Sonoma Narrows project to accept STP/CMAQ funds rather than local funds.

Attachment B was revised on February 28, 2018 to program \$10 million to the Bay Area Preservation Pilot; \$1,024,000 to Richmond's Bike Share Capital and Outreach project; \$826,000 for the joint Transportation Authority of Marin/Sonoma County Transportation Authority (TAM/SCTA) Bike Share Capital and Outreach project along the SMART Corridor; and redirect \$2,800,000 from Regional Active Operational Management to the Bay Bridge Forward Commuter Parking Initiative project.

Attachment B was revised on March 28, 2018 to program \$30,000 to the Bay Area Greenprint Priority Conservation Area (PCA) Improvements.

Attachments A and B were revised on November 28, 2018 to add the SCVTA SR 85 Transit Guideway Study and the CCTA I-680 NB HOV/Express Lane exchange agreements, and to program \$4,000,000 in Exchange funds to the following projects: \$619,000 to CCTA for Innovative Deployment for Enhanced Arterials; \$621,000 to the city of Walnut Creek for innovative Deployment for Enhanced Arterials; \$500,000 to the city of Richmond for the Richmond-San Rafael Bridge Bikeway Access; \$1,160,000 to MTC for Richmond-San Rafael Bridge Forward; and \$1,100,000 to MTC for Napa Valley Transportation Demand Management Strategies.

Attachment B was revised on March 27, 2019 to change the recipient of the Concord IDEA project from CCTA to the City of Concord and reduce the funding from \$619,000 to \$589,000; and reduce the funding amount for the MTC Richmond-San Rafael Bridge Forward project from \$1,160,000 to \$1,046,000; and redirect these funds to a new project with MTC as the recipient for the Concord IDEA project for \$144,000. The matching funds for the Concord IDEA project as identified in MTC Resolution 4357, are included within the \$144,000 amount. These changes result in no net change to total funds committed to-date.

Further discussions are contained in the Programming and Allocations Committee summary sheet dated February 9, 2011, October 12, 2011, February 12, 2014, December 14, 2016, July 12, 2017, February 14, 2018, March 7, 2018, November 14, 2018, and March 6, 2019.

Agenda Item 2d

MTC Resolution No. 4333, Revised

Subject: Amendment to the RM2 Operating and Marketing Program to add \$2 million for a carpool incentive program.

Background: In January, the BATA budget amendment included a \$2 million increase for the RM2 marketing program and staff proposes that the Commission take corresponding action to add the funds the RM2 operating and marketing program administered by our agency. These funds are part of a proposed larger funding package for the launch of a regional carpool program. The Bay Area Carpool Challenge will help employers reduce single occupancy vehicle rates and encourage HOV3+ carpooling among their employees. MTC will procure a commute technology platform vendor that helps employers manage transportation options, provide incentives directly to employees that carpool, and track behavior change.

Providing the RM2 funds now will allow staff to pursue some early activities such as outreach and initial technical program set-up. Further information regarding the regional carpool program including a full funding plan proposal will be brought to the Commission for consideration later this spring.

ABSTRACT

Resolution No. 4333, Revised

This resolution adopts the Regional Measure 2 (RM2) Operating Assistance Program for FY2018-19.

This resolution was revised on November 28, 2018 to program RM2 marketing funds to WETA, AC Transit, and MTC.

This resolution was revised on February 27, 2019 by Executive Director's Administrative Action to rescind marketing funds from 511 Real Time and reallocate those funds plus the unprogrammed marketing balance to four projects—Solano Express, NVRTA's Route 29, AC Transit Transbay Service, and regional campaign for Bike to Work, Trails, and Transit Week.

This resolution was revised on March 27, 2019 to program \$2 million in marketing funds for a carpool incentive program.

Further discussion of this action is contained in the Programming and Allocations Committee Summary Sheet dated May 9, 2018 November 14, 2018, and March 6, 2019.

WHEREAS, on March 2, 2004, voters approved Regional Measure 2, which increased the toll for all vehicles on the seven State-owned toll bridges in the San Francisco Bay Area by \$1.00, with this extra dollar funding various transportation projects within the region that have been determined to reduce congestion or to make improvements to travel in the toll bridge corridors, as identified in SB 916 (Chapter 715, Statutes of 2004), commonly referred as Regional Measure 2 (“RM2”); and

WHEREAS, RM2 establishes the Regional Traffic Relief Plan and identifies specific projects eligible to receive RM2 funding for operating assistance as identified in Section 30914(d) of the California Streets and Highways Code; and

WHEREAS, BATA shall fund the projects of the Regional Traffic Relief Plan by bonding or transfers to MTC; and

WHEREAS, RM2 assigns administrative duties and responsibilities for the implementation of the Regional Traffic Relief Plan to MTC; and

MTC Resolution Nos. 4375, Revised

Subject: 2019 Transportation Improvement Program (TIP) Amendment 2019-10.

Background: The federally required TIP is a comprehensive listing of Bay Area surface transportation projects that receive federal funds, are subject to a federally required action or are regionally significant. MTC, as the federally designated Metropolitan Planning Organization (MPO) for the nine-county San Francisco Bay Area Region, must prepare and adopt the TIP at least once every two years. The 2019 TIP, covering the four-year period from FY 2018-19 through 2021-22, was adopted by the Commission on September 26, 2018, and approved by the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) on December 17, 2018. The 2019 TIP is valid for four years under federal regulations. The TIP may be revised to make necessary changes prior to the next update. The TIP is posted on MTC's website at: <http://mtc.ca.gov/our-work/fund-invest/transportation-improvement-program>.

Amendment 2019-10 makes revisions to four projects with a net funding decrease of approximately \$18.7 million. Among other changes, this revision:

- Amends one new exempt project into the TIP; and
- Archives one project.

The revisions made with this amendment do not conflict with the financial constraint requirements of the TIP, and therefore the 2019 TIP remains financially constrained with this amendment.

The 2019 TIP is also designed such that, once implemented, it makes progress toward achieving the performance targets established per federal regulations.

The revisions made pursuant to this amendment will not change the air quality conformity finding; therefore, a conformity determination is not required.

The TIP Revision Summary for this amendment is attached (Attachment 1) and is also available in the MTC offices at 375 Beale Street, San Francisco, CA, and is posted on the Internet at: <http://mtc.ca.gov/our-work/fund-invest/tip/tip-revisions-and-amendments>.

The TIP public participation process also serves to satisfy the public involvement requirements of the FTA annual Program of Projects, for applicable funds.

This amendment will be transmitted to Caltrans after the Commission approval; after its review, Caltrans will forward the amendment to FTA/FHWA as required for final federal agency review and approval.

Issues: None

Recommendation: Refer MTC Resolution No. 4375, Revised to the Commission for approval.

Re: Adoption of the 2019 Transportation Improvement Program (TIP)

METROPOLITAN TRANSPORTATION COMMISSION
RESOLUTION NO. 4375

WHEREAS, the Metropolitan Transportation Commission (MTC) is the regional transportation planning agency for the San Francisco Bay Area pursuant to California Government Code Section 66500 et seq.; and

WHEREAS, MTC is the federally designated Metropolitan Planning Organization (MPO), pursuant to Section 134(d) of Title 23 of the United States Code (USC) for the nine-county San Francisco Bay Area region (the region); and

WHEREAS, Title 23 Code of Federal Regulations Part 450 (23 CFR §450) requires the region to carry out a continuing, cooperative and comprehensive transportation planning process as a condition to the receipt of federal assistance to develop and update at least every four years, a Transportation Improvement Program (TIP) consisting of a comprehensive listing of transportation projects that receive federal funds or that are subject to a federally required action, or that are regionally significant; and

WHEREAS, Section 65074 of the California Government Code requires all state MPOs to update their TIPS concurrently every even year; and

WHEREAS, the TIP must be consistent with the Regional Transportation Plan (RTP) adopted pursuant to Government Code Section 66508, the State Implementation Plan (SIP) as required by the federal Clean Air Act (42 U.S.C. Section 7401 et seq.); and the San Francisco Bay Area Transportation Air Quality Conformity Protocol (MTC Resolution 3757), which establish the Air Quality Conformity Procedures for MTC's TIP and RTP; and

WHEREAS, federal regulations (23 CFR §450.326(k)) require that the TIP be financially constrained, by year, to reasonable estimates of available federal and state transportation funds; and

WHEREAS, federal regulations (23 CFR §450.326) require that the TIP be designed such that once implemented, it makes progress toward achieving the performance targets established under §450.306(d) and that the TIP shall include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the metropolitan transportation plan, linking investment priorities to those performance targets; and

WHEREAS, federal regulations (23 CFR §450.316) require that the MPO develop and use a documented public participation plan that defines a process for providing citizens, affected public agencies and interested parties with reasonable opportunities to be involved in the metropolitan transportation planning process; and

WHEREAS, federal regulations (23 CFR §450.332(a)) allow MTC to move projects between years in the first four years of the TIP without a TIP amendment, if Expedited Project Selection Procedures (EPSP) are adopted to ensure such shifts are consistent with the required year by year financial constraints; and

WHEREAS, MTC, the State, and public transportation operators within the region have developed and implemented EPSP for the federal TIP as required by Federal Regulations (23 CFR 450.332(a)) and Section 134 of Title 23 United States Code (USC §134), as outlined in Attachment A to this Resolution, and MTC Resolution 3606, Revised; and

WHEREAS, MTC has found in MTC Resolution No. 4374 that the 2019 TIP, as set forth in this resolution, conforms to the applicable provisions of the SIP for the San Francisco Bay Area; and

WHEREAS, the San Francisco Bay Area air basin was designated by U.S. Environmental Protection Agency as nonattainment for the fine particulate matter (PM_{2.5}) standard in December 2009, and MTC must demonstrate conformance to this standard through an interim emissions test until a PM_{2.5} SIP is approved by the federal Environmental Protection Agency (U.S. EPA); now, therefore be it

RESOLVED, that MTC adopts the 2019 TIP, attached hereto as Attachment A and incorporated herein as though set forth at length; and be it further

RESOLVED, that MTC has developed the 2019 TIP in cooperation with the Bay Area County Transportation Agencies, transit operators, the Bay Area Air Quality Management District (BAAQMD), the California Department of Transportation (Caltrans), and other partner agencies and interested stakeholders, and in consultation with the Federal Highway Administration (FHWA), Federal Transit Administration (FTA) and U.S. EPA; and, be it further

RESOLVED, that the projects and programs included in the 2019 TIP, attached hereto as Attachment A to this resolution, and incorporated herein as though set forth at length, are consistent with the RTP; and, be it further

RESOLVED, that the 2019 TIP is financially constrained, by year, to reasonable estimates of available federal, state and local transportation funds; and, be it further

RESOLVED, that the 2019 TIP makes progress toward achieving the performance targets established under §450.306(d); and, be it further

RESOLVED, that MTC approves the EPSP developed by MTC, the State, and public transportation operators within the region for the federal TIP as required by federal regulations (23 CFR 450.332(a)) and Section 134 of Title 23 United States Code (USC §134), as outlined in Attachment A to this Resolution, and MTC Resolution 3606, Revised; and, be it further

RESOLVED, that MTC will support, where appropriate, efforts by project sponsors to obtain letters of no prejudice or full funding agreements from FTA for projects contained in the transit element of the TIP; and, be it further

RESOLVED, that the public participation process conducted for the 2019 TIP satisfies the public involvement requirements of the FTA annual Program of Projects; and, be it further

RESOLVED, that the adoption of the TIP shall not constitute MTC's review or approval of those projects included in the TIP pursuant to Government Code Sections 66518 and 66520, or provisions in federal regulations (49 CFR Part 17) regarding Intergovernmental Review of Federal Programs; and, be it further

RESOLVED, that MTC's review of projects contained in the TIP was accomplished in accordance with procedures and guidelines set forth in the San Francisco Bay Area Transportation Air Quality Conformity Protocol (MTC Resolution 3757); and, be it further

Revisions to the 2019 TIP

Revisions to the 2019 Transportation Improvement Program (TIP) will be included as they are approved.

Revision 2019-01 is an administrative modification that revises 52 projects with a net funding increase of approximately \$36.7 million. The revision was approved into the Federal-Statewide TIP by the Deputy Executive Director on December 19, 2018. Among other changes, this revision:

- Updates the funding plans of 36 Surface Transportation Block Grant Program/ Congestion Mitigation and Air Quality Improvement Program (STP/CMAQ) funded projects to reflect obligations and programming decisions;
- Updates the funding plan of the Santa Clara Valley Transportation Authority's US-101 Express Lanes in Santa Clara County project to reflect the programming of \$3.3 million in repurposed earmark funds;
- Updates the funding plan and back-up listing of the Caltrans-managed local Highway Bridge Program (HBP) grouped listing and updates the funding plans of eight individually listed HBP-funded projects to reflect the latest information from Caltrans; and
- Updates the funding plan and back-up listing of the State Highway Operation and Protection Program (SHOPP) Collision Reduction grouped listing to reflect the latest information from Caltrans.

The administrative modification is financially constrained by year and MTC relies on the State's programming capacity in the amount of \$3.3 million in repurposed earmark funds, \$17.4 million in HBP funds and \$5.3 million in SHOPP funds to reflect the net change in funding over the four years of the TIP. MTC's 2019 TIP, as revised with Revision No. 2019-01, remains in conformity with the applicable State Implementation Plan (SIP) for air quality and the revision does not interfere with the timely implementation of the Transportation Control Measures contained in the SIP.

Revision 2019-02 is an administrative modification that revises 12 projects with a net funding increase of approximately \$7.3 million. The revision was approved into the Federal-Statewide TIP by the Deputy Executive Director on February 1, 2019. Among other changes, this revision:

- Updates the funding plans of six Surface Transportation Block Grant Program/ Congestion Mitigation and Air Quality Improvement Program (STP/CMAQ) funded projects, one Road Repair and Accountability Act (SB1) and State Transportation

Improvement Program funded project, and one High Priority Program earmark funded project to reflect the latest programming decisions; and

- Updates the funding plan and back-up listing of the State Highway Operation and Protection Program (SHOPP) Collision Reduction grouped listing to reflect the latest information from Caltrans.

The administrative modification is financially constrained by year and MTC relies on the State's programming capacity in the amount of \$421,807 in High Priority Program earmark funds, \$207,000 in SB1 funds and \$6 million in SHOPP funds to reflect the net change in funding over the four years of the TIP. MTC's 2019 TIP, as revised with Revision No. 2019-02, remains in conformity with the applicable State Implementation Plan (SIP) for air quality and the revision does not interfere with the timely implementation of the Transportation Control Measures contained in the SIP.

Revision 2019-03 is an amendment that revises 40 projects with a net funding increase of approximately \$155 million. The revision was referred by the Programming and Allocations Committee on December 12, 2018, and approved by the MTC Commission on December 19, 2018. Caltrans approval was received on January 15, 2019, and final federal approval is expected in mid-February 2019. Among other changes, this revision:

- Updates the funding plans of six Highway Bridge Program funded projects to reflect the latest programming information from Caltrans;
- Adds two new exempt projects and one new non-exempt not regionally significant project, deletes an existing exempt project and updates the funding plans of 14 additional projects to reflect Surface Transportation Block Grant / Congestion Mitigation and Air Quality Improvement Program (STP/CMAQ) programming decisions and obligations;
- Adds one new grouped listing and updates the funding plans and back up listings of three existing grouped listings to reflect the latest information from Caltrans;
- Adds three additional new exempt projects to the TIP; and
- Carries forward two exempt projects and two grouped listings from the 2017 TIP.

Changes made with this revision do not affect the air quality conformity finding or conflict with the financial constraint requirements.

Revision 2019-04 is a pending administrative modification.

Revision 2019-05 is an amendment that revises three projects with a net funding increase of approximately \$22.5 million. The revision was referred by the Programming and Allocations Committee on January 9, 2019, and approved by the MTC Commission on January 23, 2019. Caltrans approval is expected in late February 2019, and final federal approval is expected in mid-March 2019. Among other changes, this revision updates the funding plan and back-up listing of the Caltrans managed Highway Safety Improvement Program grouped listing. Changes made with this revision do not affect the air quality conformity finding or conflict with the financial constraint requirements.

Revision 2019-06 is an amendment that revises two projects with a net funding increase of approximately \$15.8 million. The revision was proposed subsequent to the Programming and

Allocations Committee review of Revision 2019-05 on January 9, 2019 and was approved by the MTC Commission on January 23, 2019. Caltrans approval is expected in late February 2019, and final federal approval is expected in mid-March 2019. Among other changes, this revision:

- Adds one Federal Transit Administration Bus and Bus Facilities Program and Low or No Emission Vehicle Program funded Fairfield and Suisun Transit project to the TIP; and
- Adds the San Joaquin Regional Rail Commission's Oakley Station Platform project to reflect the award of Transit and Intercity Rail Capital Program funds.

Changes made with this revision do not affect the air quality conformity finding or conflict with the financial constraint requirements.

Revision 2019-07 is a pending administrative modification.

Revision 2019-08 is an amendment that revises 12 projects with a net funding decrease of approximately \$25.5 million. The revision was referred by the Programming and Allocations Committee on February 13, 2019, and approved by the MTC Commission on February 27, 2019. Caltrans approval is expected in late March 2019, and final federal approval is expected in mid-April 2019. Among other changes, this revision:

- Adds one new exempt project and updates the funding plan of one other project to reflect the award of Federal Transit Administration Bus and Bus Facilities Infrastructure Investment Program discretionary grants;
- Updates the funding plan of the Solano Transportation Authority's I-80/I-680/SR-12 Interchange Improvements project to reflect the award of Trade Corridor Enhancement Program funds;
- Updates the funding plans of two Altamont Corridor Express projects to reflect the award of Transit and Intercity Rail Capital Program funds;
- Archives three implemented projects; and
- Deletes three projects that will not move forward as federal projects.

Changes made with this revision do not affect the air quality conformity finding or conflict with the financial constraint requirements.

Revision 2019-09 is a pending administrative modification.

Revision 2019-10 is an amendment that revises four projects with a net funding decrease of approximately \$18.7 million. The revision was referred by the Programming and Allocations Committee on March 6, 2019, and approved by the MTC Commission on March 27, 2019. Caltrans approval is expected in late April 2019, and final federal approval is expected in mid-May 2019. Among other changes, this revision:

- Amends one new exempt project into the TIP; and
- Archives one project.

Changes made with this revision do not affect the air quality conformity finding or conflict with the financial constraint requirements.

Subject: Allocation of approximately \$57 million of Transportation Development Act (TDA) and State Transit Assistance (STA) funds to SamTrans in support of transit operations.

Background: TDA and STA funds are apportioned annually to operators or counties through the MTC Fund Estimate in support of their transit operations and capital projects. This month, SamTrans is requesting \$56.5 million in TDA and STA funds based on amounts available in the FY2018-19 MTC Fund Estimate (Resolution 4322, Revised). Most of the funds will be allocated by resolution while \$0.9 million in Lifeline and RM2 operating will be allocated by Executive Director's Delegated Authority. Of the total SamTrans request, \$9.0 million will be passed through to Caltrain in support of its transit operations. SamTrans claims STA funds on behalf of Caltrain since it is one of the Joint Powers Authority agencies and its managing partner.

Excluding the pass-through funds, TDA and STA funds comprise 30% of SamTrans' \$161 million operating budget. The operating budget increased by 6.5% compared to last year's operating budget. Almost half of the budget increase is due to increased cost of insurance.

Some initiatives SamTrans has or will undertake in the current fiscal year include:

- 1) Pilot on-demand service in Pacifica at the end of April;
- 2) Adopted an express bus study with plans to implement two routes in the summer;
- 3) Adopted a fare policy and is considering a \$0.25 fare increase on the adult base fare;
- 4) Received its first two electric buses and will receive six more.

Agenda Item 4a

MTC Resolution No. 4202, Revised

Subject: Revisions to the One Bay Area Grant (OBAG 2) Policies and Procedures related to the requirement that each county produce a progress report for their adopted Priority Development Area Investment and Growth Strategies (PDA IGS). In cooperation with the County Transportation Agencies (CTAs), MTC proposes to conduct a comprehensive evaluation of the OBAG program, which will satisfy the 2019 PDA IGS progress reporting requirement.

Background: The OBAG 2 program adopted by the Commission establishes commitments and policies for investing Surface Transportation Block Grant Program (STP) and Congestion Mitigation and Air Quality Improvement (CMAQ) funds for regional and county programs from FY2017-18 through FY2021-22.

This month, staff proposes to revise the OBAG 2 Project Selection Criteria and Programming Policy to clarify provisions pertaining to the interim status reporting requirement for PDA Investment & Growth Strategies.

PDA Investment & Growth Strategies

PDA Investment & Growth Strategies are intended to assist County Transportation Agencies (CTAs) in establishing transportation project priority-setting processes for OBAG 2 funding that supports and encourages development in the region's PDAs.

As outlined in the OBAG 2 Project Selection Criteria and Programming Policy document, updates to each county's PDA Investment & Growth Strategy are required every four years and must be adopted by boards of the CTAs. Additionally, interim status reports are required two years after each update to address needed revisions and provide an activity and progress status.

Current PDA Investment and Growth Strategies were adopted in May 2017, with interim status reports due in May 2019.

Comprehensive OBAG Evaluation

In November 2018, the Commission directed staff to complete a comprehensive evaluation of the OBAG program and its effect on housing and realizing growth in targeted, transit-rich areas.

MTC staff identified an opportunity to combine these two related tasks into a single cooperative effort. In cooperation with the CTAs, MTC staff will conduct a comprehensive evaluation of the OBAG program which will also serve to meet the requirement for each county to produce a progress report on their IGS. As a result, CTAs will not be required to prepare and submit a PDA IGS progress report in May 2019.

The evaluation is to include the effects of the OBAG program, both regionally and by county, in the areas of housing, PDA growth, and greenhouse gas (GHG) reduction. In addition, the evaluation will also look at components of the OBAG

program itself, in terms of overall effectiveness in achieving stated goals including various planning programs and efforts, the funding framework, and overall program management.

This month's action revises language within the OBAG 2 Project Selection Criteria and Programming Policy to clarify that the interim IGS progress reports due in May 2019 will be satisfied through a collaborative OBAG evaluation between MTC and the CTAs. Pending approval, MTC staff will reach out to CTA staffs to further define and develop this collaborative effort.

The evaluation is expected to take 9-12 months and will be used to inform the development of OBAG 3 in future years.

Issues: None.

Recommendation: Refer MTC Resolution No. 4202, Revised to the Commission for approval. Because this resolution is proposed for revision under another agenda item, it is included once under this item with all proposed revisions. Only items referred by the Committee will be forwarded to the Commission.

Resolution No. 4202

OBAG 2
One Bay Area Grant Program
Project Selection Criteria and Programming Policy

counts towards the county's minimum PDA investment target. The CMA is required to map these projects along with the associated PDA(s) and provide a policy justification for designating the project as supporting a PDA through proximate access. This information should assist decision makers, stakeholders, and the public in evaluating the impact of the investment on a nearby PDA, to determine whether or not the investment should be credited towards the county's PDA minimum investment target. This information must be presented for public review when the CMA board acts on OBAG programming decisions.

- PDA Investment & Growth Strategy: Updates to each county's PDA Investment & Growth Strategy are required every four years and must be adopted by the CMA Board. The updates should be coordinated with the countywide plan and Regional Transportation Plan (RTP) updates to inform RTP development decisions. Interim status reports are required two years after each update to address needed revisions and provide an activity and progress status. The interim status report required for 2019 will be satisfied through a collaborative effort between the CMAs and MTC. See Appendix A-8 for details.
- Project Selection: County CMAs or substitute agencies are given the responsibility to develop a project selection process. The process should include solicitation of projects, identifying evaluation criteria, conducting outreach, evaluating project applications, and selecting projects.
 - Public Involvement: In selecting projects for federal funding, the decision making authority is responsible for ensuring that the process complies with federal statutes and regulations. In order to ensure that the CMA process for administering OBAG 2 is in compliance with federal regulations, CMAs are required to lead a public outreach process as directed by Appendix A-7.
 - CMAs must adopt a specific scoring methodology for funding allocation to projects within PDAs or Transit Priority Areas (TPAs) that rewards jurisdictions with the most effective housing anti-displacement policies.
 - MTC and the CMAs will conduct an analysis of the impact of this incentive-based scoring methodology on project selection and local anti-displacement and affordable housing production policy development. The findings will be used to inform future planning and funding priorities.
 - Unified Call for Projects: CMAs are requested to issue one unified call for projects for their OBAG 2 program. Final project lists are due to MTC by July 31, 2017, with all associated project information submitted to MTC using the Fund Management System (FMS) by August 31, 2017. On a case-by-case basis and as approved in advance by MTC staff, these deadlines may be waived to allow coordination with other county-wide call for projects or

- a PDA through proximate access. CMAs must also document that this information was used when presenting its program of projects to their board and the public; and
- o Self-certification that the PDA Investment and Growth Strategy has been completed and adopted by the CMA Board, or will be adopted in coordination with the RTP update. The interim progress report requirement for 2019 will be satisfied through a collaborative effort between the CMAs and MTC. Documentation of subsequent required updates and interim progress reports must also be submitted by the CMAs throughout the OBAG 2 period.

COUNTY PROGRAMS

The categories below comprise the eligible OBAG 2 County Programs, administered by the nine county CMAs. The CMAs should ensure that the project selection process and selected projects meet all eligibility requirements throughout this document as well as in federal statutes and regulations. MTC staff will work with CMAs and project sponsors to resolve any eligibility issues which may arise, including air quality conformity exceptions and requirements.

County CMA Program

The base OBAG 2 County program accounts for 40% of the total funding available through OBAG 2 and is distributed to each county according to the OBAG 2 county formula after accounting for the CMA Planning minimum guarantee (see Appendices A-2 and A-3). This program includes CMA planning and outreach as well as the various projects selected through each county's competitive call for projects. Projects selected through the base county program are subject to the PDA investment minimum requirements.

1. CMA Planning and Outreach

This category provides funding to the county Congestion Management Agency (CMA) or substitute agency to support programming, monitoring and outreach activities. Such efforts include, but are not limited to: county-based planning efforts for development of the RTP/Sustainable Communities Strategy (SCS); development of PDA growth strategies; development and implementation of a complete streets compliance protocol; establishing land use and travel forecasting process and procedures consistent with ABAG/MTC; ensuring the efficient and effective delivery of federal-aid local projects; and undertaking the programming of assigned funding and solicitation of projects.

The minimum funding level for the CMA planning and outreach program continues OBAG 1 commitments by escalating FY 2016-17 amounts at 2% per year. In addition, counties are guaranteed that the base funding level for the CMA's planning and outreach program will not exceed 50% of the county's total OBAG 2 County Program distribution. Actual CMA planning and outreach amounts for each county, are shown in Appendix A-3.

Appendix A-8: PDA Investment & Growth Strategy

The purpose of a PDA Investment & Growth Strategy is to ensure that CMAs have a transportation project priority-setting process for OBAG 2 funding that supports and encourages development in the region's PDAs, recognizing that the diversity of PDAs will require a range of different strategies. Some of the planning activities noted below may be appropriate for CMAs to consider for jurisdictions or areas not currently designated as PDAs if those areas are still considering future housing and job growth. Regional agencies will provide support, as needed, for the PDA Investment & Growth Strategies. From time to time, MTC shall consult with the CMAs to evaluate progress on the PDA Investment and Growth Strategy. This consultation may result in specific work elements shifting among MTC, ABAG and the CMAs. Significant modifications to the scope of activities may be formalized through future revisions to this resolution. The following are activities CMAs need to undertake in order to develop a project priority-setting process:

(1) Engaging Regional/Local Agencies

- Develop or continue a process to regularly engage local planners and public works staff. Understand the needs of both groups and share information with MTC and ABAG.
- Encourage community participation throughout the development of the Investment and Growth Strategy, consistent with the OBAG 2 Call for Projects Guidance (Appendix A-7).
- The CMA governing boards must adopt the final Investment & Growth Strategy.
- Participate as a TAC member in local jurisdiction planning processes funded through the regional PDA Planning Program or as requested by jurisdictions. Partner with MTC and ABAG staff to ensure that regional policies are addressed in PDA plans. Look for opportunities to support planning processes with technical or financial assistance.

(2) Planning Objectives – to Inform Project Priorities

- Keep apprised of ongoing transportation and land-use planning efforts throughout the county
- Encourage local agencies to quantify transportation infrastructure needs and costs as part of their planning processes
- Encourage and support local jurisdictions in meeting their housing objectives established through their adopted Housing Elements and RHNA.

The second round of PDA Investment & Growth Strategies will assess local jurisdiction success approving sufficient housing at all income levels. They will also, where appropriate, assist local jurisdictions in implementing local policy changes to facilitate achieving these goals¹. The locally crafted policies should be targeted to the specific circumstances of each PDA. For example, if the PDA currently has few moderate- or low-income households, any recommend policy changes should be aimed at promoting affordable housing. If the PDA currently is mostly low-income housing, any needed policy changes should be aimed at community stabilization.

¹ Such as inclusionary housing requirements, city-sponsored land-banking for affordable housing production, “just cause eviction” policies, policies or investments that preserve existing deed-restricted or “naturally” affordable housing, condo conversion ordinances that support stability and preserve affordable housing, etc.

MTC and ABAG staff will distribute a technical memo to guide this task by October 1, 2016, including data to identify jurisdictions' challenges (e.g. RHNA performance and current affordability) and a listing of the Bay Area's best housing policies that are intended to address a range of housing challenges. This section should identify planning costs needed to address policy changes and other barriers to creating or maintaining affordability.

(3) Establishing Local Funding Priorities

Develop funding guidelines for evaluating OBAG projects that support multi-modal transportation priorities based on connections to housing, services, jobs and commercial activity. Emphasis should be placed on the following factors when developing project evaluation criteria:

- **Projects located in high impact project areas.** Favorably consider projects in high impact areas, defined as:
 - a. PDAs taking on significant housing growth in the SCS (total number of units), including RHNA allocations, as well as housing production, especially those PDAs that are delivering large numbers of very low, low and moderate income housing units,
 - b. Dense job centers in proximity to transit and housing (both current levels and those included in the SCS) especially those which are supported by reduced parking requirements and TDM programs,
 - c. Improved transportation choices for all income levels (reduces VMT), proximity to quality transit access, with an emphasis on connectivity (including safety, lighting, etc.)
- **Projects located in Communities of Concern (COC)** – favorably consider projects located in a COC as defined by MTC or as defined by CMAs or Community Based Transportation Plans.
- **PDAs with affordable housing preservation, creation strategies** and community stabilization policies – favorably consider projects in jurisdictions with affordable housing preservation, creation strategies and community stabilization policies.
- **Projects that protect public health during construction and operation** – Favorably consider projects that implement the Best Practices in the Air District's Planning Healthy Places, or projects located in jurisdictions that have demonstrated a commitment to adopt, as policies and/or enforceable ordinances, best practices to reduce emissions of and exposure to local air pollution.²
- **PDAs that overlap or are co-located with: 1) populations exposed to outdoor toxic air contaminants as identified in the Air District's Community Air Risk Evaluation (CARE) Program and/or 2) freight transport infrastructure** – Favorably consider projects in these areas where local jurisdictions employ best management practices to mitigate PM and toxic air contaminants exposure.

² Guidance and maps have been developed in partnership with BAAQMD, CMAs, ABAG, and city staff, please see: <http://www.baaqmd.gov/plans-and-climate/planning-healthy-places>.

Process/Timeline

CMAAs will develop a new PDA Investment & Growth Strategy every four years, consistent with the update of the Regional Transportation Plan/Sustainable Communities Strategy. The Investment & Growth Strategy must be adopted by the CMA Board (new for OBAG 2). The interim status report required for 2019 will be satisfied through a collaborative effort between the CMAAs and MTC. CMAAs will provide a status report update every two years.
