

# 2020 Climate Bond Proposals

2020 Climate Bond Funding Comparison Chart			
	SB 45 (Allen) (millions)	AB 352 (Garcia) (millions)	Governor's Budget* (millions)
<b>Resiliency/Climate Risk Reduction</b>	<b>\$4,129</b>	<b>\$2,965</b>	<b>\$4,750</b>
Wildfire, flood, drought and other natural disaster prevention and community resilience	\$1,619	\$ 1,250	
Safe drinking water and protecting water supply and water quality from climate risks	\$1,170	\$925	
Fish and wildlife protection from climate risks	\$520	\$475	
Agricultural land protection from climate risks	\$190	\$100	
Protecting coastal lands, waters, natural resources, and wildlife from climate risks	\$630	\$215	

\*Governor's Budget directs 80% of funds to mitigate near-term risks (wildfire, floods and drought). The remaining 20% is reserved for reducing longer-term risks related to sea level rise and extreme heat. Includes \$ for resiliency planning and demonstration projects to protect critical infrastructure.
