

## EXECUTIVE DIRECTOR'S REPORT

ABAG Executive Board

September 17, 2020

### **KEY HIGHLIGHTS FOR AUGUST/SEPTEMBER:**

#### **Plan Bay Area 2050**

Comments on the Draft Blueprint closed in August, and all the feedback we received from digital workshops, telephone town halls, a tribal summit, a statistically valid poll, emailed or written correspondence is now easily accessible on the Plan Bay Area website.

Check it out on the link below. The feedback can be found under "Your Comments."

<https://www.planbayarea.org/your-comments/plan-bay-area-2050>

We look forward to more public engagement opportunities in 2021.

#### **Regional Housing Needs Allocation (RHNA): Final HMC Meeting and Proposed Methodology**

The final HMC meeting will be Friday, September 18. HMC members will discuss methodology options and seek to come to a consensus on the RHNA proposed methodology. Staff will then prepare the proposed methodology report and present it to the RPC and Executive Board in October. Public comment periods on the proposed methodology and on the subregion shares will open on in mid-October, followed by public hearings in November.

#### **October Metro Talks: Gender Equity in Transportation**

On Thursday, October 3, at 4 p.m., I will moderate a discussion on what a safe and equitable transit system, accessible for women and girls, can look like in the Bay Area. Join us for a conversation exploring how the Bay Area transportation can be more welcoming to women and girls, especially those from our communities of color facing greater burdens in the current COVID crisis—and what the transit sector can do to support riders and provide career pathways with elevated economic opportunities.
