RE: Goals and Performance Targets for Plan Bay Area 2040 – MTC Resolution No. 4204

On September 11, 2015, the MTC Planning Committee and ABAG Administrative Committee considered the revised staff recommendation for Plan Bay Area 2040 goals and performance targets. These goals and performance targets have undergone extensive discussion over the past five months with stakeholders and policymakers as discussed in the September 4, 2015 memo to the committees. The MTC Planning Committee and ABAG Administrative Committee forwarded the goals and targets for approval by the ABAG Executive Board and the Commission, respectively.

The committees made several important amendments to the revised staff recommendation, all of which are highlighted in the table below. The targets list was amended to include two additional placeholders for future targets, one focused on goods movement and another focused on jobs/wages. Furthermore, the committees voted to defer adoption of target language under Adequate Housing (target #2) until a later date to allow for additional discussion at the staff and policymaker levels.

Goal	#	Performance Target
Climate Protection	1	Reduce per-capita CO ₂ emissions from cars and light-duty trucks by 15%
Adequate Housing	2	<i>[placeholder pending further discussion by MTC and ABAG on housing target language]</i>
Healthy and Safe Communities	3	Reduce adverse health impacts associated with air quality, road safety, and physical inactivity by 10%
Open Space and Agricultural Preservation	4	Direct all non-agricultural development within the urban footprint (existing urban development and UGBs)
	5	Decrease the share of lower-income residents' household income consumed by transportation and housing by 10%
Equitable Access	6	Increase the share of affordable housing in PDAs, TPAs, or high-opportunity areas by 15%
	7	<i>[placeholder for a future performance target related to displacement risk]</i>

Goal	#	Performance Target
Economic Vitality	8	Increase by 20% the share of jobs accessible within 30 minutes by auto or within 45 minutes by transit in congested conditions
	9	<i>[placeholder for a future performance target related to jobs/wages]</i>
	10	<i>[placeholder for a future performance target related to goods movement]</i>
Transportation System Effectiveness	11	Increase non-auto mode share by 10%
	12	Reduce vehicle operating and maintenance costs due to pavement conditions by 100%
	13	Reduce per-rider transit delay due to aged infrastructure by 100%

When combined with the staff recommendation to consider a displacement risk target at a future date (target #7), this results in seven goals and nine finalized performance targets included for approval in MTC Resolution No. 4204. The remaining four performance targets, currently listed as placeholders, will be presented for consideration by the MTC Planning Committee and ABAG Administrative Committee in November 2015.
