

2017-2019 Work Plan & Tasks

A. Regional Planning and Implementation

Initiate and support efforts that advance regional action on resiliency and climate adaptation:

- Bay Area Resilient by Design Challenge
- Caltrans Regional Sea Level Rise Planning Grant

Advance local and regional measures and capacity to meet/exceed state goals:

- Climate Technical Assistance Pilot Program
 - *Initial pilots include model solar ordinance for new construction and trip caps*
 - *New BARC website/data portal to support local jurisdictions, serve as centralized source of climate information*

Regional leadership:

- Bay Area Resilient by Design Challenge
- Great Communities Collaborative Working Groups on Transit-Oriented Development and Climate Equity
- Low Income Investment Fund Western Regional Advisory Committee
- Funders Network for Smart Growth and Livable Communities

B. Integration and Coordinated Communication

Facilitate linkage among other regional climate planning efforts:

➤ **Sustainable Communities Strategy**

- *Advance Resiliency and Air Quality Mitigation in local efforts, and across multiple jurisdictions*
- *Help set framework for incorporating resiliency in 2021 update*

➤ **Regional Climate Strategy**

- *Link substance of required planning documents: BAAQMD Regional Climate Protection Strategy, Plan Bay Area, and other planning documents*

Coordinate Public Communication and Engagement Strategy:

- **Joint BARC member agency responses to federal and state policy and budgetary actions**
- **Inter-agency Public Information Officer (PIO) Coordination**
- **Bay Area Metro Talks Speaker Series**
- **Cross Agency Brownbag Speaker Series**

Supporting Effective Coordination and Collaboration Among BARC Member Agencies:

- **Government Alliance for Race and Equity (GARE)**
 - *Support cohort of regional agencies' staff participation.*
