Current law requires all moneys, except for fines and penalties, collected by the state board as part of a market-based compliance mechanism to be deposited in the Greenhouse Gas Reduction Fund and to be available upon appropriation. Existing law continuously appropriates 35% of the annual proceeds of the fund for transit, affordable housing, and sustainable communities programs and 25% of the annual proceeds of the fund for certain components of a specified high-speed rail project. This bill would continuously appropriate 4% of the annual proceeds of the fund for each of 3 specified fiscal years to the state board to implement a grant program to replace older, high-polluting schoolbuses with zero-emission or near-zero-emission schoolbuses, as specified.

The bill would authorize the Director of Fair Employment and Housing to exercise discretion to investigate, or to bring a civil action, based on a verified complaint that alleges a violation of these provisions.</p>

Current law requires the Judicial Council to determine the adjustment amount based on the change in the annual California Consumer Price Index, as specified. Effective January 1, 2018, the net disposable income threshold is \$1,000 per month and is not requested to be annually adjusted for cost-of-living increases. This bill would extend the January 1, 2018, date of repeal to January 1, 2021, for the version of existing law that is currently operative, thereby maintaining the net disposable income threshold at \$1,500 per month, adjusted annually for cost-of-living increases, until January 1, 2021, and would repeal the successor version of that law that becomes operative on January 1, 2018.</p>
