RE: <u>BATA Resolution No. 122 – FY 2017-18 Toll Bridge Program Operating and Capital Budgets</u>

Under this item, staff requests that BATA Resolution No. 122 authorizing the FY 2017-18 operating and capital budgets be referred to the full Authority for approval.

FY 2016-17 Operating Update

Г

Total paid toll traffic for the first ten months year to date of FY 2016-17 is up slightly over the same period in FY 2015-16. The increase is across all seven bridges but the rate has slowed considerably from the previous year (Table 1).

As a result of the slight traffic increase, toll revenue through the first ten months of FY 2016-17 is approximately \$5 million or 0.8% above FY 2015-16 (Table 2). BATA is projected to end the year with a surplus for capital commitments in excess of \$108 million.

FY 2017-18 Draft Operating Budget

The FY 2017-18 draft budget continues to reflect the strong regional economy. Besides toll revenue, interest and reimbursement revenue will also increase in the coming year. The surge in operating expense is mainly the result of the planned rollover of existing short term bond issuances in FY 2017-18. Overall BATA is expected to make another strong contribution of over \$108 million to its current capital program, of which \$63 million is designated to the Toll Bridge Rehabilitation Program. The draft FY 2017-18 operating budget is shown in Attachment A.

General Toll Revenue - \$727 million

Staff is estimating total toll revenue of \$727 million for FY 2017-18, about 2% higher than the FY 2016-17 budget. Even excluding the HOV based increase in 2010, this will be the eighth consecutive year that two-axle vehicle revenue has increased.

Other Revenues - \$103 million

Reimbursement revenue - Staff is anticipating a 13% increase in reimbursement revenue, about \$1.1 million. All agencies clearing transactions through the FasTrak[®] Regional Customer Service Center reimburse BATA for their FasTrak[®] collection costs. With the opening of the BAIFA Lanes on I-680 and increasing user volume on I-580 express lanes, reimbursement is expected to increase significantly in FY 2017-18.

Rebate for Build America Bonds (BABs) - We continue to expect the Treasury Department to make their required BABs payment. The total interest subsidy payment from the federal government will be \$71 million but still reflects a reduction due to budget sequestration.

Operating Expense

Total cost for Toll Bridge operations is proposed to be \$722 million for FY 2017-18, up 5% from FY 2016-17. Highlights of the FY 2017-18 budget include:

Toll bridge operations and maintenance expense - \$76.5 million

Caltrans Toll Collection & Operations Services - \$23.6 million

• Caltrans toll collections and operations costs are projected to increase by 4% from last year. The increase reflects salary and overhead support cost increases for Caltrans' employees.

Electronic Toll Collection - \$47.6 million

- Staff is proposing a total budget of \$24.7 million for the operation of the FasTrak[®] Regional Customer Service Center (RCSC), a 6% increase from FY 2016-17. The operations on I-580 express lane and first full year of BAIFA's new I-680 express lanes are the factors for this increase.
- Staff is proposing a total budget of \$13.9 million for banking/credit card fees, same as FY 2016-17. This assumes no change in interbank charges.
- Staff is proposing a total budget of \$3.7 million for collection contract/DMV expenses, a 54% increase from FY 2016-17. The surge is caused by increased user volume on all seven toll bridges, and the express lanes operation.

BATA AGENDA ITEM 6c

Agenda Item 5c

Toll Bridge Administration - \$31.2 million

Overall bridge administration costs will increase by \$11 million or approximately 54%. The increase is due to financing and issuance costs for the planned rollover of existing short term bonds in FY 2017-18.

Transfers to MTC - \$20.6 million

This portion of the operating budget maintains BATA's support for existing programs, transfers, and reserves throughout the agency. BATA transfers \$7.5 million, 1% of gross revenue, to MTC for general administrative support. The administrative support transfer will increase 3% consistent with the expected traffic growth. The Transbay Terminal receives maintenance support of \$4.9 million which includes the 3.5% annual increase required by statute. The Regional (RM2) marketing expense includes \$2.7 million for Clipper[®] promotion and outreach, and \$1.2 million for other RM2 transit projects. A transfer of \$1.1 million for ABAG San Francisco Estuary Partnership's staff overhead cost is also included in this budget.

Debt Service - \$541 million

Debt service will increase by \$24 million or approximately 5%. Higher variable interest rates and new interest payment for the FY 2016-17 issuance will increase interest payments by \$23.2 million or 5%. The budget also includes \$56 million for principal payments.

FY 2017-18 Capital Budget

Express Lanes

The FY 2017-18 BATA express lanes capital budget remains at \$342 million. Through agreement with MTC, the Bay Area Infrastructure Financing Authority (BAIFA) is responsible for the development, construction and operation of the planned 270 mile express lane program. BAIFA has approved a detailed expenditure plan for the implementation of projects that convert high occupancy vehicle lanes to express lanes on I-680 in Contra Costa County and I-880 in Alameda County, start-up funding for operations of those lanes and project development for new lanes for I-80 in Solano County.

The entire \$342 million in the express lanes Capital Budget is already incorporated into the BATA financial model. This includes a transfer of \$2.8 million to the BAIFA operating budget to help funding its first year of express lanes operation in FY 2017-18.

Toll Bridge Seismic Retrofit Program

On May 9, 2017, the Toll Bridge Program Oversight Committee (TBPOC) approved an allocation of \$4 million estimated savings from the FY 2016-17 approved budget to the FY 2017-18 budget. The Capital Outlay Support (COS) issue is an ongoing discussion with Caltrans that is not yet fully resolved.

In addition to the partial COS budget approval, the TBPOC approved an allocation of \$11.2 million from program contingency to the San Francisco-Oakland Bay Bridge (SFOBB) East Span Replacement Project for the Yerba Buena Island Transition Structures #2 (YBITS#2) Construction Contract. The \$11.2 million fund transfer request approved by the TBPOC has been included in the budget.

Toll Bridge Rehabilitation Program

The BATA Toll Bridge Rehabilitation Program is a financially constrained program. The program focuses on bridge related projects with a goal of maintaining the safe and efficient operation of the bridges and its facilities.

| BATA Rehabilitation Projects | 15.8 | 0.3 | 16.1 | 82.3 |
| Total | \$42.9 | \$19.7 | \$62.6 | \$118.9 |

The program budget for FY 2017-18 is \$62.6 million, down from \$118.9 million in FY 2016-17. The higher allocation in FY 2016-17 budget was mainly due to the \$42 million allocation to the Richmond/San Rafael Access Improvement project Total projected project expenditures over the 10-year plan are estimated to be \$630 million or an average annual budget of \$63 million.
