Current law requires the measure of indemnity to be based upon the replacement cost of the insured property and prohibits it from being based upon the cost to repair, rebuild, or replace at a location other than the insured premises. This bill would instead prohibit, in the event of a total loss of an insured structure, a fire insurance policy issued or delivered in this state from containing a provision that limits or denies, on the basis that the insured has decided to rebuild at a new location or to purchase an already built home at a new location, payment of the building code upgrade cost or the replacement cost, including any extended replacement cost coverage, to the extent those costs are otherwise covered by the terms of the policy or any policy endorsement.

Current law prohibits a district from financing routine maintenance and repair work. Current law authorizes the issuance of bonds for the funding of these purposes if approved by 55% of the voters voting on a proposal to issue the bonds. Current law requires the Franchise Tax Board to annually adjust for inflation these adjusted gross income amounts. For 2017, the adjusted gross income limit is \$80,156 and \$40,078, respectively. Current law authorizes a local agency, at its discretion, to exclude from specified requirements governing fire risk reduction an area identified as a very high fire hazard severity zone by the director within the jurisdiction of the local agency, following a specified finding supported by substantial evidence that those requirements are not necessary for effective fire protection within the area.
