Current law requires the measure of indemnity to be based upon the replacement cost of the insured property and prohibits it from being based upon the cost to repair, rebuild, or replace at a location other than the insured premises. This bill would instead prohibit, in the event of a total loss of an insured structure, a fire insurance policy issued or delivered in this state from containing a provision that limits or denies, on the basis that the insured has decided to rebuild at a new location or to purchase an already built home at a new location, payment of the building code upgrade cost or the replacement cost, including any extended replacement cost coverage, to the extent those costs are otherwise covered by the terms of the policy or any policy endorsement.</p>

That law requires these counties to utilize the sums existing in their housing trust funds as of June 30, 2013, for affordable housing, as specified. For that same purpose, current law requires a city that has a population of less than 100,000 and is incorporated within that county to be considered suburban and requires a county or city so classified to make 2 reports, as specified, to the Legislature and the Department of Housing and Community Development. Until December 31, 2023, the Planning and Zoning Law also requires that housing density requirements in place on June 30, 2014, apply within ½ mile of a Sonoma-Marin Area Rail Transit station. <p><a href="#">SB 1078</a> Committee on Transportation and Housing</p>	<p>Chaptered 10/1/2018</p>	<p>Senate Chaptered</p>	<p><b>Housing.</b> Current law authorizes the legislative body of a city or a county to establish an enhanced infrastructure financing district to finance public capital facilities or other specified projects of communitywide significance. Current law requires the district to require, by recorded covenants or restrictions, that housing units built pursuant to this authority remain available at affordable housing costs to, and occupied by, persons and families of very low, low-, or moderate-income households, as provided. This bill would delete an unnecessary reference to "households" in these provisions.</p>

This bill would require a participating driver to possess either a valid driver's license issued by the State of California or, in the case of a nonresident active duty military member or a nonresident dependent of an active duty military member, a valid driver's license issued by the other state or territory of the United States in which the member or dependent is a resident.</p>		
<p><a href="#">SB 1115</a> <a href="#">Hill</a></p>	<p>Chaptered 9/22/2018</p>	<p>Senate Chaptered</p>	<p><b>Property taxation: welfare exemption: low income housing.</b> Current law partially exempts from property taxation property used exclusively for rental housing and related facilities, if specified criteria are met, including, except in the case of a limited partnership in which the managing general partner is a nonprofit corporation eligible for the exemption, that 90% or more of the occupants of the property are lower income households whose rents do not exceed the rent limits prescribed by a specified law. Current law limits the total exemption amount allowed to a taxpayer, with respect to a single property or multiple properties for any fiscal year on the sole basis of the application of this criterion, to \$10,000,000 of tax. This bill would increase the total exemption amount allowed from \$10,000,000 to \$20,000,000 in assessed value with respect to lien dates occurring on and after January 1, 2019.</p>

This bill would waive the above requirement if the recipient transit agencies expend the funding provided on certain transit activities.</p>	<p>Support &amp; Seek Amendment</p>	
<p><a href="#">SB 1145</a> <a href="#">Leyva</a></p>	<p>Chaptered 9/19/2018</p>	<p>Senate Chaptered</p>	<p><b>Enhanced infrastructure financing districts: maintenance.</b> Current law authorizes the legislative body of a city or a county to establish an enhanced infrastructure financing district to finance public capital facilities or other specified projects of community significance. Current law prohibits a district from financing routine maintenance and repair work. Current law authorizes the issuance of bonds for the funding of these purposes if approved by 55% of the voters voting on a proposal to issue the bonds. This bill, instead, would authorize a district to finance the ongoing or capitalized costs to maintain public capital facilities financed in whole or in part by the district, but would prohibit the use of proceeds of bonds issued to finance maintenance of any kind.</p>		
<p><a href="#">SB 1172</a> <a href="#">Beall</a></p>	<p>Chaptered 9/26/2018</p>	<p>Senate Chaptered</p>	<p><b>High-Speed Rail Authority: property acquisition: capital outlays: public contracts: county assessor's records.</b> The California Constitution permits the taking of private property for public use only when just compensation is paid. The Eminent Domain Law prescribes the procedures for the exercise of that constitutionally authorized power. Under that law, a public entity may not commence an eminent domain proceeding until its governing body has adopted a resolution of necessity that meets specified requirements. Current law defines "governing body" for these purposes with respect to various state and local public entities. This bill would specify that the State Public Works Board is the "governing body" for these purposes for a taking by the High-Speed Rail Authority.</p>		

<p><a href="#">SB 1226</a> <a href="#">Bates</a></p>	<p>Chaptered 10/1/2018</p>	<p>Senate Chaptered</p>	<p><b>Building standards: building permits.</b> The California Building Standards Law requires that only those building standards approved by the California Building Standards Commission, and that are effective at the local level at the time an application for a building permit is submitted, apply to the construction performed under that building permit. This bill would require the department to propose the adoption of a building standard to the California Building Standards Commission pursuant to existing law that would authorize, when a record of the issuance of a building permit for the construction of an existing residential unit does not exist, the above-described enforcement officials to determine when the residential unit was constructed and then apply the State Housing Law, the building standards published in the California Building Standards Code, and other specified rules and regulations in effect on that date and issue a retroactive building permit for that construction.</p>		
<p><a href="#">SB 1227</a> <a href="#">Skinner</a></p>	<p>Chaptered 9/29/2018</p>	<p>Senate Chaptered</p>	<p><b>Density bonuses.</b> Would require a density bonus to be provided to a developer that agrees to construct a housing development in which all units in the development will be used for students enrolled full-time at an institution of higher education accredited by the Western Association of Schools and Colleges or the Accrediting Commission for Community and Junior Colleges and the developer enters into an agreement with an institution of higher education to that effect, where 20% of the units are used for lower income students, as defined, provided at a specified rent level, and the development provides priority for the applicable affordable units for lower income students experiencing homelessness.</p>

This bill would delete the repeal of the California Training Benefits Program, thereby providing for its operation in perpetuity.</p>		

<p><a href="#">SB 1260</a> <a href="#">Jackson</a></p>	<p>Chaptered 9/21/2018</p>	<p>Senate Chaptered</p>	<p><b>Fire prevention and protection: prescribed burns.</b> Current law requires a local agency to designate, by ordinance, very high fire hazard severity zones in its jurisdiction within 120 days of receiving recommendations from the Director of Forestry and Fire Protection and exempts a local agency, as defined, from that requirement if ordinances of the local agency, adopted on or before December 31, 1992, impose standards that are equivalent to, or more restrictive than, specified state standards. Current law authorizes a local agency, at its discretion, to exclude from specified requirements governing fire risk reduction an area identified as a very high fire hazard severity zone by the director within the jurisdiction of the local agency, following a specified finding supported by substantial evidence that those requirements are not necessary for effective fire protection within the area. This bill would eliminate the above-described exemption and exclusion and would require the local agency to transmit a copy of the adopted ordinance to the State Board of Forestry and Fire Protection within 30 days of adoption.</p>		
<p><a href="#">SB 1262</a> <a href="#">Beall</a></p>	<p>Chaptered 9/17/2018</p>	<p>Senate Chaptered</p>	<p><b>Construction Manager/General Contractor project delivery method: Department of Transportation.</b> Would remove the cap on the number of projects for which the Department of Transportation is authorized to use the CM/GC method and make conforming changes to existing provisions. The bill would impose the requirement to use department employees or consultants to perform project design and engineering services on at least 2/3 of the projects delivered by the department utilizing the CM/GC method.</p>		
<p><a href="#">SB 1328</a> <a href="#">Beall</a></p>	<p>Chaptered 9/22/2018</p>	<p>Senate Chaptered</p>	<p><b>Mileage-based road usage fee.</b> Current law requires the Chair of the California Transportation Commission to create a Road Usage Charge (RUC) Technical Advisory Committee in consultation with the Secretary of the Transportation Agency. Under current law, the purpose of the technical advisory committee is to guide the development and evaluation of a pilot program to assess the potential for mileage-based revenue collection as an alternative to the gas tax system. Current law requires the technical advisory committee to study RUC alternatives to the gas tax, gather public comment on issues and concerns related to the pilot program, and to make recommendations to the Secretary of the Transportation Agency on the design of a pilot program, as specified. Current law repeals these provisions on January 1, 2019. This bill would extend the operation of these provisions until January 1, 2023.</p>

This bill would extend the date for which the authorized pilot program is to be completed by the department to January 1, 2020.</p>
