Subject: Support for Seamless Bay Area hiring kit re: MTC ED selection

Dear members of the MTC Executive Director Selection Committee,

I'm writing on behalf of [San Francisco Transit Riders](#), a member-supported advocate for excellent, affordable and growing public transit.

As an organization of transit riders, we support a strong, integrated regional public transportation system as we believe a robust public transit network is essential to the livability and sustainability of the Bay Area. As you embark on this very important search for the next regional transportation leader, we strongly urge your consideration of Seamless Bay Area's Hiring Kit, which outlines a wide range of recommendations to consider, including a candidate scoring kit, a vision for MTC under new leadership (of which we soundly support), and possible candidates to consider across the globe.

Thank you for your consideration.

Sincerely,
Rachel Hyden
