## ***Memorandum***

TO: Bay Area Toll Authority

DATE: January 2, 2019

FR: Deputy Executive Director, Operations

W. I. 1251/1256

RE: Amendment to FY 2018-19 Toll Bridge Program Operating and Capital Budgets and BATA Long Range Plan: BATA Resolution No. 124, Revised and BATA Resolution No 72, Revised

Staff requests the Committee to refer to the Authority for approval amendments to the BATA Toll Bridge Program Operating and Capital Budgets (BATA Resolution No. 124, Revised) for the Toll Bridge Operating, Toll Bridge Seismic Retrofit, SB-1 Local Partnership Formula, Toll Bridge Rehabilitation and Regional Measure 3 (RM3) programs; and to the BATA Long Range Plan (BATA Resolution No. 72, Revised) to add projects in the Bay Area Traffic Relief Plan, to be funded by RM3 toll revenues and to make other project updates.

### **FY 2018-19 Operating Budget**

Staff is proposing to amend the BATA Toll Bridge Program Operating Budget to increase both the revenue and expense budget. Total operating surplus will be increased by \$14 million from these changes. The FY 2018-19 operating budget is shown in Attachment A.

#### **Operating Revenue**

Staff recommends increasing the overall revenue by \$24.8 million from the originally approved \$866.1 million to \$890.9 million. The following is the breakdown of the addition.

<b>Source</b>	<b>Amount</b>
Caltrans	\$9,000,000
Transbay Joint Powers Authority (TJPA)	510,000
Bay Area Headquarter Authority (BAHA)	15,300,000
<b>Total</b>	<b>\$24,810,000</b>

#### **Operating Expense**

Staff recommends increasing the overall expense by \$10.8 million to cover additional projects and carryover encumbrances from FY 2017-18. The following is the breakdown of the addition.

<b>Expense</b>	<b>Amount</b>
RM3 Related Expense	\$3,300,000
Credit Card Fees	2,000,000
Misc. Toll Administration Operation Exp	1,500,000
RM2 Marketing	2,000,000
Transbay Transit Center Peer Review	510,000

Carryover Encumbrance	1,475,640
<b>Total</b>	<b>\$10,785,640</b>

### **FY 2018-19 Capital Budget**

#### **Toll Bridge Seismic Retrofit Program**

With the removal of the remaining piers of the old eastern span of the San Francisco-Oakland Bay Bridge (SFOBB) last September, Caltrans will be certifying that the projects and objectives of the Toll Bridge Seismic Retrofit Program as described in AB 144 have been fulfilled. While there remains minor work, including on-going fulfillment of environmental and permit obligations and administrative close-out activities, there are no more major construction activities that require oversight by the Toll Bridge Program Oversight Committee (TBPOC). All seven state-owned toll bridges in the Bay Area have now achieved seismic safety either via retrofit or via replacement of existing structures.

The TBPOC recommended transitioning the new eastern span of the SFOBB from a construction phase to an operations and maintenance phase under normal Caltrans and BATA oversight and completing remaining minor close-out activities under the Toll Bridge Rehabilitation Program (Rehab Program). This is similar to steps taken at the conclusion of the Regional Measure 1 Toll Bridge Program.

Currently, staff forecasts a program contingency balance of \$52.7 million. The contingency balance has increased from \$24.8 million as the TBPOC has taken action to: 1) complete demolition activities sooner and at lower cost than forecasts and; 2) resolve outstanding risks. Staff recommends that the Authority adopt a final amended Toll Bridge Seismic Retrofit Program Budget (as shown in Attachment E1 and E2 to BATA Resolution No. 124, Revised) and transfer the remaining program contingency to the Rehab Program in two parts: \$26.5 million as Miscellaneous Bridge Improvements to cover potential close-out risks and \$26.2 million as BATA Program Contingency for the upkeep and rehabilitation of the toll bridges.

#### **SB-1 Local Partnership Formula Program**

Staff recommends eliminating the SB-1 Local Partnership Formula Program (LPP) in the BATA Capital budget as Caltrans has agreed to exchange the future Richmond-San Rafael Bridge (RSR) funding in the Rehab Program with the SB-1 LPP Grant. As the result of the SB1 fund swap, the \$10.8 million BATA match originally budgeted in this program will be transferred into the Rehab Program in FY 2018-19. Meanwhile, the Rehab Program budget will be adjusted by \$10.2 from FY 2020-22 to reflect the remaining LPP Grant money originally budgeted for this revenue source.

#### **Toll Bridge Rehabilitation Program**

Staff recommends that the Authority adopt a revised Rehab Program budget (as show in Attachment C-1 to BATA Resolution No. 124, Revised) that includes the transfer from the Toll Bridge Seismic Retrofit Program and administrative changes, including a funding swap between the Rehab Program and SB-1 LPP for the BATA-SB1 Capital Program (as shown in Attachment G to BATA Resolution No. 124, Revised).

### **Regional Measure 3**

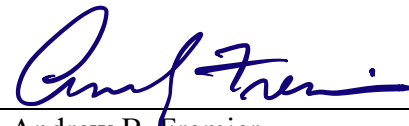

In 2018, Bay Area Voters passed RM3, which will raise tolls for vehicles crossing the region's state-owned toll bridges by \$3 over the course of six years, with a \$1 toll increase effective January 1, 2019, a \$1 toll increase effective January 1, 2022, and a \$1 toll increase effective January 1, 2025. These toll increases will finance the Bay Area Traffic Relief Plan, a program of roadway and transit projects approved by the California Legislature in Senate Bill 595 (Chapter 650, Statutes of 2017). The Bay Area Traffic Relief Plan is designed to reduce auto and truck traffic; relieve crowding on BART; unclog freeway bottlenecks; improve bus, ferry, BART and commuter rail service; and enhance bicycle and pedestrian mobility in the bridge corridors.

As the financial manager for the RM3 revenues, BATA is responsible for the preparation of financial plans, the issuance of debt financing and dispersal of funds to project sponsors. MTC is the program and project coordinator, with duties that include reviewing project applications, programming and allocating funds to specific projects, and monitoring project delivery. BATA is requesting amendment of the BATA Long Range Plan and BATA Toll Bridge Program Operating and Capital Budgets to include the Bay Area Traffic Relief Plan (as shown in Attachment I to BATA Resolution No. 124, Revised).

Two lawsuits challenging Senate Bill 595 and RM3 are pending in the Superior Court in the City and County of San Francisco. The toll increases, when collected, will be placed into an escrow account managed by an independent trustee. While BATA is amending the Long Range Plan and budget for the RM3 Projects, MTC will not begin allocating RM3 funds to capital projects unless and until BATA prevails in the litigation. If BATA should lose the litigation, the funds will be reimbursed to toll payers.

### **Recommendation**

Staff recommends that this Committee refer for Authority approval BATA Resolution No. 124, Revised to update and amend the FY 2018-19 Toll Bridge Program Operating and Capital Budgets and BATA Resolution No. 72, Revised to update and amend the BATA Long Range Plan.

### ABSTRACT

#### BATA Resolution No. 72, Revised

This resolution adopts an updated Bay Area Toll Authority (BATA) Long-Range Plan for the Regional Measure 1, Regional Measure 2 and Toll Bridge Seismic Retrofit Programs. This resolution supersedes Resolution No. 12, which adopted the previous BATA Long-Range Plan for the Regional Measure 1 program on December 16, 1998.

Attachment A to this resolution was partly revised on September 28, 2011 to amend certain projects into the Toll Bridge Seismic Retrofit and Toll Bridge Rehabilitation Programs. In particular, the Antioch Bridge and Dumbarton Bridge Seismic Retrofits were added by statute to the Toll Bridge Seismic Retrofit Program and the Antioch Bridge Approach Improvement Project was added to the Toll Bridge Rehabilitation Program. BATA is required to prepare, adopt and from time to time revise a Long Range Plan for the completion of all projects within its jurisdiction funded from the toll revenues.

Attachment A to this resolution was revised on December 18, 2013 to amend the Toll Bridge Seismic Retrofit Program and to add the Regional Express Lanes Network and Transit Core Capacity Challenge Grant Programs.

Attachment A to this resolution was revised on June 24, 2015 to provide operating capital to the Regional Express Lanes Network Program.

This Resolution was revised on January 23, 2019 to add projects in the Bay Area Traffic Relief Plan, to be funded by Regional Measure 3 (RM3) toll revenues. Attachment A to this resolution was also revised on January 23, 2019 to add the RM3 Program and to make other project updates.

Further discussion of this action is contained in the Executive Director's Memoranda to the BATA Oversight Committee, dated December 6, 2006, September 7, 2011, December 4, 2013,

*Pursuant to California Streets and Highways Code § 30950.3 and § 30914 (9) BATA is required to prepare, adopt and from time to time revise a Long Range Plan for the completion of all projects within its jurisdiction funded from the toll revenues.*

## **Introduction**

When first adopted in 1998, BATA's Long-Range Plan focused on the completion of the 1988 voter-approved Regional Measure 1 (RM 1) Program that funded major rehabilitation and congestion-relief projects on the Bay Area's bridges. The Plan has since been amended to incorporate BATA responsibilities for the Toll Bridge Seismic Retrofit Program (SRP) and the toll-funded projects designated in the voter-approved Regional Measure 2 and recent Regional Measure 3 programs. Other toll funded programs include BATA commitments to the Regional Express Lanes Network (ELN) and Transit Core Capacity Program (CORE).

### **Toll Bridge Seismic Retrofit Program (SRP) At A Glance**

The Toll Bridge Seismic Retrofit Program provides \$9.1 billion in funding for the seismic retrofit of five of the seven state-owned toll bridges in the Bay Area and for two former toll bridges in Southern California. To date, Caltrans has completed the retrofit of the San Mateo-Hayward, Carquinez, Benicia-Martinez, Richmond-San Rafael, Dumbarton and Antioch bridges in the Bay Area. The San Francisco-Oakland Bay Bridge achieved seismic safety with the opening of the new east span to traffic on September 2, 2013. The SRP program was concluded in December 2018.

### **Regional Measure 1 (RM 1) At A Glance**

Regional Measure 1 provided \$2.3 billion in funding for a number of major toll bridge congestion relief projects around the Bay Area. These include the widening of the San Mateo-Hayward Bridge, which opened in 2002, construction of the new Alfred Zampa Memorial (southbound Carquinez) Bridge, which opened in 2003, and the new Congressman George Miller (northbound Benicia-Martinez) Bridge, which opened in 2006. The RM1 program was completed with the opening of a new Interstate 880/State Route 92 Interchange in 2011.

### **Regional Measure 2 (RM 2) At A Glance**

Regional Measure 2 provides approximately \$1.5 billion in funding for 40 capital improvement projects in the bridge corridors, plus up to \$1.6 billion in operating funds for 14 transit routes and projects. The transit operating funding is capped at 38 percent of annual RM 2 revenue or roughly \$45 million annually.

### **Regional Measure 3 (RM 3) At A Glance**

Similar in structure to RM 2, Regional Measure 3 provides approximately \$4.5 billion traffic relief and transit improvement program funded by progressively increased bridge tolls on the Bay Area's seven state-owned toll bridges. Major projects in the RM 3 expenditure plan include new BART cars to accommodate growing ridership; extending BART's Silicon Valley service to Santa Clara; extending Caltrain to downtown San Francisco; expanding S.F. Muni's transit vehicle fleet; more frequent transbay bus service; interchange improvements in Alameda, Contra Costa and Solano counties; an expanded express lane network; expanded ferry service; a direct freeway connector from northbound U.S. 101 in

Marin County to the Richmond-San Rafael Bridge; upgrades to relieve congestion in the Dumbarton Bridge corridor; improving State Route 37; and extending the new SMART rail system to Windsor and Healdsburg.

### Key Differences Between RM 1 and RM 2/RM 3

Whereas RM 1 made a commitment to the voters to fully fund and deliver a specific set of improvements in the bridge corridors, RM 2 and RM 3 provide a cap on the amount of funding to be provided to each project in the expenditure plan. This is similar to the model used by “self-help counties” in their sales tax expenditure plans. As a result, RM 2 and RM 3 monies provide only a down payment on a project in some instances, leaving it up to the project sponsors to secure the remaining funds necessary to fully fund the project. It is the project sponsors who ultimately are responsible for the full funding and delivery of a given project. BATA's charge is to ensure that every RM 2 and RM 3 allocation is spent on a project that will eventually deliver a tangible benefit to the traveling public.

### Toll Bridge Rehabilitation (Rehab) Program At A Glance

Toll Bridge Rehabilitation provided approximately \$60 million a year to fund the up-keep and rehabilitation of the toll bridges, toll facilities, and tolling equipment. The funds are used to keep all structures and systems in a state of good repair.

### Transit Core Capacity Challenge (CORE) Grant Program At A Glance

The Metropolitan Transportation Commission's (MTC) Core Capacity Challenge Grant program is focused on AC Transit, BART, and SFMTA – regional transbay systems that carry 80% of the region's overall transit riders as well as more than three-quarters of the low-income and minority passengers. BATA is contributing \$250 million towards this multi-billion program that will help the region achieve an optimal state of repair for the region's transportation network.

### Regional Express Lane Network (ELN) At A Glance

BATA, MTC and its partner agencies are currently developing an express lane network offering toll-free travel for carpools, vanpools, motorcycles, buses and eligible hybrid vehicles, while also giving solo drivers the option to pay to use the lane to avoid congestion. BATA is providing \$362 million in funding for the ELN, including approaches to the BATA toll bridges. These funds are in addition to funding in Regional Measure 2 and Regional Measure 3. Regional Measure 3 includes \$300 million in funding that can be used to implement any express lanes authorized by the state, including those that may be authorized in the future.

### How Does the BATA Long-Range Plan Fit Into Other MTC Planning Efforts?

As the Bay Area's regional transportation planning agency, MTC is required to adopt a 25-year financially constrained plan that details exactly how the region will spend its anticipated funding. The current plan, known as Plan Bay Area 2040, details a comprehensive investment program intended to promote safety, reliability, access, livable communities, clean air and efficient freight travel. The projects and funding reported in the BATA Long-Range Plan have been incorporated into the Plan Bay Area's financial assumptions, and are consistent with the Plan's transportation goals and air quality requirements. Many of these toll-funded projects, especially in the RM 1 and SRP programs, have been included in the Bay Area's previous long-range transportation plans, and the passage of RM 2 and RM 3 simply provided additional revenue to fund them.

## Funding the Toll Bridge Programs

To fund the programs in the BATA Long Range Plan, BATA has adopted a multi-billion dollar plan of finance. The plan calls for a combination of carefully structured bond financings as well as pay-as-you-go toll funding to complete the programs. Since issuing its first series of bonds in 2001, BATA has been able to maintain high marks for credit-worthiness from the three major national bond-rating services, with ratings equivalent to the strongest transportation agencies in the country.

The fundamental purpose of the \$9.0 billion Toll Bridge Seismic Retrofit Program (SRP) is to protect public safety by strengthening or replacing seismically deficient toll bridge structures. Retrofit was required on all seven of the region's state-owned toll bridges. With the opening of the new east span of the San Francisco-Oakland Bay Bridge, all seven bridges have achieved seismic safety

As of December 2018, the SRP program is complete.

# **Regional Measure 1 Toll Bridge Capital Improvement Program (Completed)**

Approved by Bay Area voters in November 1988, the Regional Measure 1 Toll Bridge Capital Improvement Program (RM1) is a multi-billion dollar toll bridge expansion and enhancement program involving six of the Bay Area's seven state-owned toll bridges. The program is funded from toll revenues generated by raising the auto toll to a uniform \$1 in 1988 on all seven of the region's toll bridges.

RM 1 has delivered many projects used daily by Bay Area drivers. Since 1998, BATA and Caltrans have delivered the new Al Zampa Memorial (Carquinez) Bridge, a widened San Mateo-Hayward Bridge, and new Benicia-Martinez Bridge. The last and final RM1 project completed was the reconstructed Interstate 880/State Route 92 Interchange that opened to traffic in 2011.

As of December 2013, the RM1 program is complete.

# Regional Measure 2 (Ongoing)

In 2004, Bay Area Voters passed Regional Measure 2 (RM2), which raised tolls by \$1 for all vehicles crossing the region's state-owned toll bridges in order to raise some \$125 million annually for a program of roadway and transit projects approved by the California Legislature in Senate Bill 916 (Chapter 715, Statutes of 2004). SB 916 established the Regional Traffic Relief Plan, which is designed to reduce congestion and improve travel options in the bridge corridors and their approaches. The projects adopted in this long-range plan are consistent with Streets and Highways Code Section 30914. As the financial manager for the RM2 revenues, BATA is responsible for the preparation of financial plans, the issuance of debt financing and dispersal of funds to project sponsors. MTC is the program and project coordinator, with duties that include reviewing project application, programming and allocating funds to specific projects, and monitoring project delivery.

## Capital Program

The Regional Traffic Relief Plan provides over \$1.5 billion to 40 capital projects. Many of these projects are complete. Others are in various stages of completion ranging from initiating the environmental clearance process to construction of facilities. MTC began allocating RM2 funds to projects in the capital program in July 2004.

## Transit Operations

The Regional Traffic Relief Plan dedicates up to \$1.6 billion in operating funds to 13 projects. Annually up to 38 percent of the total annual RM2 revenues (approximately \$48 million per year) is provided for operations of commuter rail, express and enhanced bus, and ferry services. Beginning in fiscal year 2004–05, allocations of operating funds were made available on an annual basis.

# Regional Measure 3 (Ongoing)

In 2018, Bay Area Voters passed Regional Measure 3 (RM3), which will raise tolls for vehicles crossing the region's state-owned toll bridges by \$3 over the course of six years, with a \$1 toll increase effective January 1, 2019, a \$1 toll increase effective January 1, 2022, and a \$1 toll increase effective January 1, 2025. These toll increases will finance the Bay Area Traffic Relief Plan, a program of roadway and transit projects approved by the California Legislature in Senate Bill 595 (Chapter 650, Statutes of 2017). The Bay Area Traffic Relief Plan is designed to reduce auto and truck traffic; relieve crowding on BART; unclog freeway bottlenecks; improve bus, ferry, BART and commuter rail service; and enhance bicycle and pedestrian mobility in the bridge corridors. The projects adopted in this long-range plan are consistent with Streets and Highways Code Section 30914.7. As the financial manager for the RM3 revenues, BATA is responsible for the preparation of financial plans, the issuance of debt financing and dispersal of funds to project sponsors. MTC is the program and project coordinator, with duties that include reviewing project application, programming and allocating funds to specific projects, and monitoring project delivery.

## Capital Program

The Bay Area Traffic Relief Plan provides \$4.5 billion to 35 capital projects. Most are in the planning, project development, or environmental review stage as of this Plan's adoption, while others are ready for construction. MTC will begin allocating RM3 funds to projects in the capital program if and when lawsuits challenging the measure are successfully resolved.

## Transit Operations

The Bay Area Traffic Relief Plan dedicates up to 16% of RM3 annual revenues to 3 operating projects, not to exceed \$60 million annually. Revenues will be provided for operations of the San Francisco Transbay Terminal, expanded ferry service, and regional express bus. MTC will begin allocating RM3 funds to projects in the operating program on an annual basis if and when lawsuits challenging the measure are successfully resolved.

# **Toll Bridge Rehabilitation Plan**

## ***(Ongoing)***

BATA annually adopts a 10-Year Toll Bridge Rehabilitation Plan for the state-owned bridges. The Rehabilitation Program provides for on-going funds to maintain the structural integrity of the bridges and approaches, secure and update bridge facilities, and upgrade the revenue collection system for the bridges. BATA and Caltrans work closely to identify critical needs on the bridges and to prioritize funding and delivery.

The Rehabilitation Plan totals approximately \$600 million over a 10-year period and includes rehabilitation and operational improvements of toll bridges, approaches and facilities, and the maintenance and replacement of tolling equipment.

# Transit Core Capacity Challenge (Ongoing)

MTC's Core Capacity Challenge Grant (CORE) program is focused on AC Transit, BART, and SFMTA – the Bay Area's three largest transit operators, responsible for transbay systems that carry over 80% of the region's overall transit riders as well as more than three-quarters of the low-income and minority passengers. The program complements other prior funding commitments by MTC in the region. By leveraging regional discretionary funds and local contributions, including BATA funds and proposed Cap and Trade Revenue, MTC can accelerate and solidify funding for fleet replacement projects and provide new funding for key enhancement projects.

Towards this multi-billion program, BATA is contributing \$250 million in available toll funds that will help the region achieve an optimal state of repair for the region's transportation network.

# Regional Express Lane Network (Ongoing)

Express lanes offer toll-free travel for carpools and buses, while also giving solo drivers the option to pay to use the lane to avoid congestion. The region has 70 miles of express lanes in operation today. The regional network authorized by the state in 2018 totals 600 directional miles, including approaches to the BATA toll bridges, to be constructed by 2040.

BATA and Metropolitan Transportation Commission (MTC) have formed a joint exercise of powers authority, called the Bay Area Infrastructure Financing Authority (BAIFA) which is responsible for planning, developing and funding a Regional Express Lane Network along with its partners. BATA is providing \$342 million in funding toward BAIFA projects in Alameda, Contra Costa and Solano counties, as shown below.

BAIFA and BATA may also contribute funding to other authorized express lane projects, as described in Senate Bill 595 (Regional Measure 3).
