

**Metropolitan Transportation Commission  
Programming and Allocations Committee****March 6, 2019****Agenda Item 4a****MTC Resolution No. 4202, Revised**

---

**Subject:** Revisions to the One Bay Area Grant (OBAG 2) Policies and Procedures related to the requirement that each county produce a progress report for their adopted Priority Development Area Investment and Growth Strategies (PDA IGS). In cooperation with the County Transportation Agencies (CTAs), MTC proposes to conduct a comprehensive evaluation of the OBAG program, which will satisfy the 2019 PDA IGS progress reporting requirement.

**Background:** The OBAG 2 program adopted by the Commission establishes commitments and policies for investing Surface Transportation Block Grant Program (STP) and Congestion Mitigation and Air Quality Improvement (CMAQ) funds for regional and county programs from FY2017-18 through FY2021-22.

This month, staff proposes to revise the OBAG 2 Project Selection Criteria and Programming Policy to clarify provisions pertaining to the interim status reporting requirement for PDA Investment & Growth Strategies.

**PDA Investment & Growth Strategies**

PDA Investment & Growth Strategies are intended to assist County Transportation Agencies (CTAs) in establishing transportation project priority-setting processes for OBAG 2 funding that supports and encourages development in the region's PDAs.

As outlined in the OBAG 2 Project Selection Criteria and Programming Policy document, updates to each county's PDA Investment & Growth Strategy are required every four years and must be adopted by boards of the CTAs. Additionally, interim status reports are required two years after each update to address needed revisions and provide an activity and progress status.

Current PDA Investment and Growth Strategies were adopted in May 2017, with interim status reports due in May 2019.

**Comprehensive OBAG Evaluation**

In November 2018, the Commission directed staff to complete a comprehensive evaluation of the OBAG program and its effect on housing and realizing growth in targeted, transit-rich areas.

MTC staff identified an opportunity to combine these two related tasks into a single cooperative effort. In cooperation with the CTAs, MTC staff will conduct a comprehensive evaluation of the OBAG program which will also serve to meet the requirement for each county to produce a progress report on their IGS. As a result, CTAs will not be required to prepare and submit a PDA IGS progress report in May 2019.

The evaluation is to include the effects of the OBAG program, both regionally and by county, in the areas of housing, PDA growth, and greenhouse gas (GHG) reduction. In addition, the evaluation will also look at components of the OBAG

program itself, in terms of overall effectiveness in achieving stated goals including various planning programs and efforts, the funding framework, and overall program management.

This month's action revises language within the OBAG 2 Project Selection Criteria and Programming Policy to clarify that the interim IGS progress reports due in May 2019 will be satisfied through a collaborative OBAG evaluation between MTC and the CTAs. Pending approval, MTC staff will reach out to CTA staffs to further define and develop this collaborative effort.

The evaluation is expected to take 9-12 months and will be used to inform the development of OBAG 3 in future years.

**Issues:** None.

**Recommendation:** Refer MTC Resolution No. 4202, Revised to the Commission for approval. Because this resolution is proposed for revision under another agenda item, it is included once under this item with all proposed revisions. Only items referred by the Committee will be forwarded to the Commission.

**Attachments:** MTC Resolution No. 4202, Revised, Attachment A and B-1 and Appendices A-8 and A-10

Of the \$3,779,849 freed up by this swap, \$1,000,000 is returned to the region's STP/CMAQ balance to help address the CMAQ shortfall as a result of the region becoming attainment for carbon monoxide (CO) and therefore receiving less CMAQ funds which are distributed based on air quality status. The remaining \$2,779,849 is held for future Commission action.

Attachment A  
Resolution No. 4202

**OBAG 2**  
**One Bay Area Grant Program**  
**Project Selection Criteria and Programming Policy**

counts towards the county's minimum PDA investment target. The CMA is required to map these projects along with the associated PDA(s) and provide a policy justification for designating the project as supporting a PDA through proximate access. This information should assist decision makers, stakeholders, and the public in evaluating the impact of the investment on a nearby PDA, to determine whether or not the investment should be credited towards the county's PDA minimum investment target. This information must be presented for public review when the CMA board acts on OBAG programming decisions.

- PDA Investment & Growth Strategy: Updates to each county's PDA Investment & Growth Strategy are required every four years and must be adopted by the CMA Board. The updates should be coordinated with the countywide plan and Regional Transportation Plan (RTP) updates to inform RTP development decisions. Interim status reports are required two years after each update to address needed revisions and provide an activity and progress status. The interim status report required for 2019 will be satisfied through a collaborative effort between the CMAs and MTC. See Appendix A-8 for details.
- Project Selection: County CMAs or substitute agencies are given the responsibility to develop a project selection process. The process should include solicitation of projects, identifying evaluation criteria, conducting outreach, evaluating project applications, and selecting projects.
  - Public Involvement: In selecting projects for federal funding, the decision making authority is responsible for ensuring that the process complies with federal statutes and regulations. In order to ensure that the CMA process for administering OBAG 2 is in compliance with federal regulations, CMAs are required to lead a public outreach process as directed by Appendix A-7.
  - CMAs must adopt a specific scoring methodology for funding allocation to projects within PDAs or Transit Priority Areas (TPAs) that rewards jurisdictions with the most effective housing anti-displacement policies.
  - MTC and the CMAs will conduct an analysis of the impact of this incentive-based scoring methodology on project selection and local anti-displacement and affordable housing production policy development. The findings will be used to inform future planning and funding priorities.
  - Unified Call for Projects: CMAs are requested to issue one unified call for projects for their OBAG 2 program. Final project lists are due to MTC by July 31, 2017, with all associated project information submitted to MTC using the Fund Management System (FMS) by August 31, 2017. On a case-by-case basis and as approved in advance by MTC staff, these deadlines may be waived to allow coordination with other county-wide call for projects or

- a PDA through proximate access. CMAs must also document that this information was used when presenting its program of projects to their board and the public; and
  - o Self-certification that the PDA Investment and Growth Strategy has been completed and adopted by the CMA Board, or will be adopted in coordination with the RTP update. The interim progress report requirement for 2019 will be satisfied through a collaborative effort between the CMAs and MTC. Documentation of subsequent required updates and interim progress reports must also be submitted by the CMAs throughout the OBAG 2 period.

## COUNTY PROGRAMS

The categories below comprise the eligible OBAG 2 County Programs, administered by the nine county CMAs. The CMAs should ensure that the project selection process and selected projects meet all eligibility requirements throughout this document as well as in federal statutes and regulations. MTC staff will work with CMAs and project sponsors to resolve any eligibility issues which may arise, including air quality conformity exceptions and requirements.

### County CMA Program

The base OBAG 2 County program accounts for 40% of the total funding available through OBAG 2 and is distributed to each county according to the OBAG 2 county formula after accounting for the CMA Planning minimum guarantee (see Appendices A-2 and A-3). This program includes CMA planning and outreach as well as the various projects selected through each county's competitive call for projects. Projects selected through the base county program are subject to the PDA investment minimum requirements.

#### **1. CMA Planning and Outreach**

This category provides funding to the county Congestion Management Agency (CMA) or substitute agency to support programming, monitoring and outreach activities. Such efforts include, but are not limited to: county-based planning efforts for development of the RTP/Sustainable Communities Strategy (SCS); development of PDA growth strategies; development and implementation of a complete streets compliance protocol; establishing land use and travel forecasting process and procedures consistent with ABAG/MTC; ensuring the efficient and effective delivery of federal-aid local projects; and undertaking the programming of assigned funding and solicitation of projects.

The minimum funding level for the CMA planning and outreach program continues OBAG 1 commitments by escalating FY 2016-17 amounts at 2% per year. In addition, counties are guaranteed that the base funding level for the CMA's planning and outreach program will not exceed 50% of the county's total OBAG 2 County Program distribution. Actual CMA planning and outreach amounts for each county, are shown in Appendix A-3.

## **Appendix A-8: PDA Investment & Growth Strategy**

The purpose of a PDA Investment & Growth Strategy is to ensure that CMAs have a transportation project priority-setting process for OBAG 2 funding that supports and encourages development in the region's PDAs, recognizing that the diversity of PDAs will require a range of different strategies. Some of the planning activities noted below may be appropriate for CMAs to consider for jurisdictions or areas not currently designated as PDAs if those areas are still considering future housing and job growth. Regional agencies will provide support, as needed, for the PDA Investment & Growth Strategies. From time to time, MTC shall consult with the CMAs to evaluate progress on the PDA Investment and Growth Strategy. This consultation may result in specific work elements shifting among MTC, ABAG and the CMAs. Significant modifications to the scope of activities may be formalized through future revisions to this resolution. The following are activities CMAs need to undertake in order to develop a project priority-setting process:

### **(1) Engaging Regional/Local Agencies**

- Develop or continue a process to regularly engage local planners and public works staff. Understand the needs of both groups and share information with MTC and ABAG.
- Encourage community participation throughout the development of the Investment and Growth Strategy, consistent with the OBAG 2 Call for Projects Guidance (Appendix A-7).
- The CMA governing boards must adopt the final Investment & Growth Strategy.
- Participate as a TAC member in local jurisdiction planning processes funded through the regional PDA Planning Program or as requested by jurisdictions. Partner with MTC and ABAG staff to ensure that regional policies are addressed in PDA plans. Look for opportunities to support planning processes with technical or financial assistance.

### **(2) Planning Objectives – to Inform Project Priorities**

- Keep apprised of ongoing transportation and land-use planning efforts throughout the county
- Encourage local agencies to quantify transportation infrastructure needs and costs as part of their planning processes
- Encourage and support local jurisdictions in meeting their housing objectives established through their adopted Housing Elements and RHNA.

The second round of PDA Investment & Growth Strategies will assess local jurisdiction success approving sufficient housing at all income levels. They will also, where appropriate, assist local jurisdictions in implementing local policy changes to facilitate achieving these goals<sup>1</sup>. The locally crafted policies should be targeted to the specific circumstances of each PDA. For example, if the PDA currently has few moderate- or low-income households, any recommend policy changes should be aimed at promoting affordable housing. If the PDA currently is mostly low-income housing, any needed policy changes should be aimed at community stabilization.

<sup>1</sup> Such as inclusionary housing requirements, city-sponsored land-banking for affordable housing production, “just cause eviction” policies, policies or investments that preserve existing deed-restricted or “naturally” affordable housing, condo conversion ordinances that support stability and preserve affordable housing, etc.

MTC and ABAG staff will distribute a technical memo to guide this task by October 1, 2016, including data to identify jurisdictions' challenges (e.g. RHNA performance and current affordability) and a listing of the Bay Area's best housing policies that are intended to address a range of housing challenges. This section should identify planning costs needed to address policy changes and other barriers to creating or maintaining affordability.

### **(3) Establishing Local Funding Priorities**

Develop funding guidelines for evaluating OBAG projects that support multi-modal transportation priorities based on connections to housing, services, jobs and commercial activity. Emphasis should be placed on the following factors when developing project evaluation criteria:

- **Projects located in high impact project areas.** Favorably consider projects in high impact areas, defined as:
  - a. PDAs taking on significant housing growth in the SCS (total number of units), including RHNA allocations, as well as housing production, especially those PDAs that are delivering large numbers of very low, low and moderate income housing units,
  - b. Dense job centers in proximity to transit and housing (both current levels and those included in the SCS) especially those which are supported by reduced parking requirements and TDM programs,
  - c. Improved transportation choices for all income levels (reduces VMT), proximity to quality transit access, with an emphasis on connectivity (including safety, lighting, etc.)
- **Projects located in Communities of Concern (COC)** – favorably consider projects located in a COC as defined by MTC or as defined by CMAs or Community Based Transportation Plans.
- **PDAs with affordable housing preservation, creation strategies** and community stabilization policies – favorably consider projects in jurisdictions with affordable housing preservation, creation strategies and community stabilization policies.
- **Projects that protect public health during construction and operation** – Favorably consider projects that implement the Best Practices in the Air District's Planning Healthy Places, or projects located in jurisdictions that have demonstrated a commitment to adopt, as policies and/or enforceable ordinances, best practices to reduce emissions of and exposure to local air pollution.<sup>2</sup>
- **PDAs that overlap or are co-located with: 1) populations exposed to outdoor toxic air contaminants as identified in the Air District's Community Air Risk Evaluation (CARE) Program and/or 2) freight transport infrastructure** – Favorably consider projects in these areas where local jurisdictions employ best management practices to mitigate PM and toxic air contaminants exposure.

<sup>2</sup> Guidance and maps have been developed in partnership with BAAQMD, CMAs, ABAG, and city staff, please see: <http://www.baaqmd.gov/plans-and-climate/planning-healthy-places>.

### **Process/Timeline**

CMAAs will develop a new PDA Investment & Growth Strategy every four years, consistent with the update of the Regional Transportation Plan/Sustainable Communities Strategy. The Investment & Growth Strategy must be adopted by the CMA Board (new for OBAG 2). The interim status report required for 2019 will be satisfied through a collaborative effort between the CMAAs and MTC. CMAAs will provide a status report update every two years.

**APPENDIX A-10: Checklist for CMA and Local Jurisdiction Compliance with MTC Resolution No. 4202**
