Agenda Item 2j

MTC Resolution No. 4273, Revised

- Subject:** Project Approval for FY2018-19 Cap and Trade Low Carbon Transit Operations Program
- Background:** On April 24, 2019, the Commission adopted the FY2018-19 Low Carbon Transit Operations Program (LCTOP) population-based funds project list via MTC Resolution No. 4273, Revised. The Transit Performance Initiative (TPI) category included \$1.3 million to VTA for the *Fast Transit Program: Speed Improvement Project*.
- Caltrans, which administers LCTOP, has determined that VTA's *Fast Transit* application is ineligible for FY2018-19 funding. In order to retain those funds within the region, MTC must reprogram to another project. Due to timing restrictions, the funds must be programmed to an existing LCTOP project or an approved FY2018-19 project application. Further, due to program restrictions, the beneficiary project must have a funding plan that enables receipt of additional LCTOP funds (e.g., the approved funding plan shows anticipated future LCTOP funds). Based on these constraints, staff recommends placing these funds on a Caltrans-approved VTA LCTOP project entitled *2021 Zero Emission Bus Procurement*. VTA is putting its \$6.3 million in FY19 LCTOP revenue-based funds on this project, and anticipates a total LCTOP contribution of \$20.9 million over several years.
- Issues:** VTA's 2021 Zero Emission Bus Procurement project is not within the intended scope of the MTC Cap and Trade Framework's LCTOP TPI setaside, which is for investments in key transit corridors (such as the originally proposed VTA Fast Transit Program). Because the timing of this action prevents MTC from fully programming FY19 LCTOP TPI funds according to the framework, \$1.3 million will be counted toward VTA's minimum LCTOP TPI percentage. Concurrently, VTA is expected to commit a like amount of local funds toward an eligible TPI project. Staff will follow up on this commitment through ongoing semi-annual TPI updates to the Commission.
- As required by the LCTOP program, VTA's board is scheduled to take a concurrent approval action for the reprogramming on June 21, 2019.
- Recommendation:** Refer MTC Resolution No. 4273, Revised, to the Commission for approval.
- Attachments:** MTC Resolution No. 4273, Revised

Transit Performance Initiative Project Savings Policy

The following policy is adopted for projects funded through the Transit Performance Initiative Investment Program, including those projects funded with federal STP/CMAQ funds and Low Carbon Transit Operations Program funds:

Savings following project completion may be used to expand the scope of the project, if the expanded scope provides additional quantifiable benefits to the original transit corridor. The expanded scope must be approved by MTC staff prior to expenditure. All other project savings will be returned to MTC proportionally.

Staff will update the Commission on any such actions through the semi-annual Transit Performance Initiative updates.
