Report of Independent Auditors

To the Members of the Executive Committee of the ABAG Finance Authority for Nonprofit Corporations:

We have audited the accompanying financial statements of the ABAG Finance Authority for Nonprofit Corporations ("FAN"), which comprise the statement of net position as of June 30, 2019, and the related statements of revenues, expenses and changes in net position and of cash flows for the year then ended.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to FAN's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the FAN's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the ABAG Finance Authority for Nonprofit Corporations as of June 30, 2019, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

The accompanying management's discussion and analysis ("MD&A") on pages 3 through 6 is required by accounting principles generally accepted in the United States of America to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise FAN's basic financial statements. The other supplementary schedules appearing on pages 18 through 23 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, these supplementary schedules are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

ABAG Finance Authority for Nonprofit Corporations Financial Statements for the Year Ended June 30, 2019 Notes to the Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity and Operations

ABAG Finance Authority for Nonprofit Corporations (FAN) was created pursuant to Chapter 5, Division 7, and Title 1 of the Government Code section 6500 of the State of California in 1990, to provide the means to meet the capital financing needs of public agencies and their nonprofit partners serving the public interest.

FAN is a joint powers authority comprising of California municipalities. FAN is governed by a board appointed by its members.

FAN assists eligible nonprofit entities and other borrowers in obtaining tax-exempt financing. Eligible entities include nonprofit corporations organized under Internal Revenue Code 50l(c)(3) and other qualified borrowers financing projects in the public interest. Payments by these eligible borrowers are used to repay their respective debt and FAN is not liable for the repayment of debt in the event of a default by a borrower.

Prior to July 2017, the Association of Bay Area Governments (ABAG) provided administrative support for FAN.

In July 2017, ABAG staff was consolidated into the Metropolitan Transportation Commission (MTC) and MTC staff will continue to provide administrative support to FAN in accordance with the ABAG-MTC Contract for Services. FAN paid MTC a total of \$640,765 for these services in the fiscal year ended June 30, 2019. On the *Statement of Revenues, Expenses, and Changes in Net Position*, this amount is reflected as salaries and benefits and a portion of overhead costs.

B. Basis of Presentation

FAN's basic financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the United States of America.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

FAN's basic financial statements are prepared using the *economic resources measurement focus* and *the accrual basis of accounting*. FAN accounts for all transactions in a single enterprise fund, which is a separate set of self-balancing accounts that comprise assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues and expenses. All transactions are accounted for on the accrual basis, which means that expenses are recorded when the liability is incurred and revenues are recorded when earned, rather than when cash changes hands.

Notes to the Financial Statements

D. Cash and Investments

FAN has assigned its management of cash and investments to MTC under the contract for services and adopted MTC's investment policy. Accordingly MTC, on behalf of FAN invests its available cash under the prudent investor rule. The prudent investor rule states, in essence, that "in investing ... property for the benefit of another, a trustee shall exercise the judgment and care, under the circumstance then prevailing, which people of prudence, discretion, and intelligence exercise in the management of their own affairs." This policy affords FAN a broad spectrum of investment opportunities as long as the investment is deemed prudent and is authorized under the California Government Code Sections 53600, et seq.

Investments allowed under MTC's investment policy adopted by FAN include the following:

- Securities of the U.S. Government or its agencies
- Securities of the State of California or its agencies
- Certificates of deposit issued by a nationally or state chartered bank
- Authorized pooled investment programs
- Commercial paper Rated "A1" or "P1"
- Corporate notes Rated "A" or better
- Municipal bonds
- Mutual funds Rated "AAA"
- Other investment types authorized by state law and not prohibited in MTC's investment policy.

FAN applies the provisions of GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and External Investment Pools, as amended (including by GASB Statement No. 72, Fair Value Measurement and Application), which generally requires investments to be recorded at fair value with the difference between cost and fair value recorded as an unrealized gain or loss. Investments are stated at fair value based upon quoted market prices. FAN reports its money market securities and short term investments at amortized cost. This is permissible under this standard provided those investments have a remaining maturity at the time of purchase of one year or less and that the fair value of those investments are not significantly affected by the credit standing of the issuer or other factors. Net increases or decreases in the fair value of investments are shown in the Statement of Revenues, Expenses and Changes in Net Position.

FAN considers all balances in demand deposit accounts to be cash, and classifies all other highly liquid cash equivalents as short-term investments. Highly liquid cash equivalents are short-term investment that meet the following definitions:

- Readily convertible to known amounts of cash.
- So near their maturity that they present insignificant risk of changes in value because of changes in interest rates.

GASB Statement No. 72 sets forth the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are not active;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Financial Statements for the Year Ended June 30, 2019

Notes to the Financial Statements

The following is a description of the valuation methodologies used for assets measured at fair value at June 30, 2019:

Local Agency Investment Fund: The position in the California State Local Agency Investment Fund is determined by the fair value of the pool's underlying portfolio.

CalTRUST Medium-Term Fund: The position in the CalTRUST Medium-Term Fund is determined by the fair value of the fund's underlying portfolio.

The following table set forth by level, within the fair value hierarchy, FAN's investments at fair value.

Investments by fair value level at June 30, 2019	Level	1	Level 2		Level 3		Total	
Mutual Funds CalTRUST Medium-Term Fund	\$		\$	1,073,116	\$	-	\$	1,073,116
Government Pool Investments: Local Agency Investment Fund*	\$	_	\$	2,794,878	\$	· · <u>·</u>	\$	2,794,878

^{*}LAIF is a program created by state statute as an investment alternative for California's local governments and special districts. LAIF funds are available for immediate withdrawal.

C. Deposit and Investment Risk Factors

There are many factors that can affect the value of deposits and investments such as credit risk, custodial credit risk, concentration of credit risk and interest rate risk.

i.) Credit Risk

Generally, credit risk is the risk that an issuer of an investment fails to fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. CalTRUST is rated "AA-" by Standard and Poor's and LAIF is unrated.

ii.) Custodial Credit Risk

Custodial credit risk is the risk that securities held by the custodian and in the custodian's name may be lost and not be recovered.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, FAN may not be able to recover its deposits that are in the possession of an outside party. All checking accounts are insured by the Federal Depository Insurance Corporation (FDIC) up to the limit of \$250,000.

Under California Government Code Sections 53651 and 53652, depending on specific types of eligible securities, a bank must deposit eligible securities to be posted as collateral with its agent with the securities having a fair value of 110% to 150% of FAN's cash on deposit.

ABAG Finance Authority for Nonprofit Corporations Financial Statements for the Year Ended June 30, 2019 Notes to the Financial Statements

iii.) Concentration of Credit Risk

Concentration of credit risk is the risk associated with lack of diversification, such as having substantial investments in a few individual issuers, thereby exposing the organization to greater risks resulting from adverse economic, political, regulatory or credit developments. Investments in issuers that represent 5 percent or more of total cash and investments at June 30, 2019 are as follows:

	2019
Mutual Funds	
CalTRUST Medium-Term Fund	26%
Government Pool Investments:	
Local Agency Investment Fund	68%

iv.) Interest Rate Risk

Interest rate risk is the potential adverse effect resulting from changes in market interest rates on the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The weighted average maturity of the investments in the LAIF investment pool and CalTRUST Medium-Term is 0.47 years and 2.16 years respectively.

4. CONDUIT FINANCING PROGRAMS FOR ELIGIBLE ORGANIZATIONS

FAN is a conduit finance issuer. Debt obligations issued through FAN are those of the governments, non-profit organizations and private companies who utilize FAN's governmental status to access the tax-exempt and taxable municipal bond market. Debt service on these issuances are the obligations of the related borrowers. FAN, as a conduit issuer, is only obligated to make debt service payments on the bonds or loans to the extent it receives funds for that purpose from the conduit borrower, thus FAN has no ongoing debt servicing responsibility and does not record the outstanding debt liability on FAN books.

FAN has issued bonds for various borrowers. They include but not limited to developers creating new neighborhoods (Community Facilities and Assessment Districts), private primary and secondary schools and private higher education (Education), hospitals and/or healthcare systems (Health Care), multifamily rental housing (Housing), cultural institutions, charitable organizations and other for-profit businesses involved in certain public benefit projects (Others).

⁽¹⁾ In April 2005, ABAG Finance Authority for Non Profit Corporations (Authority) participated in the issuance of \$23,000,000 variable rate demand revenue bonds on behalf of Air Force Village West, Inc. (Borrower). On March 1, 2017, the Borrower suspended debt service payments. The non-payments triggered an event of default on the Bonds. The Bonds subsequently became bank bonds and held by the Letter of Credit Provider. As of June 30, 2019, the credit facility is in the process of being liquidated pursuant to the bankruptcy case. Once it is sold and the sale proceeds distributed, we anticipate receiving instructions from the Letter of Credit Bank to cancel all of the outstanding Bonds. (2) This bond issue was fully redeemed on July 2, 2018.
