**Agenda Item 3b**

**Adoption of ABAG Resolution No. 12-19, Delegation of Authority to MTC to conduct a public hearing on the proposed revision to the Bay Area Transportation Air Quality Conformity Protocol and Interagency Consultation Procedures**

---

**Subject:** Adoption of ABAG Resolution No. 12-19, Delegation of Authority to MTC to conduct a public hearing on the proposed revision to the Bay Area Transportation Air Quality Conformity Protocol and Interagency Consultation Procedures.

**Background:** ABAG, the Bay Area Air Quality Management District (BAAQMD), and the Metropolitan Transportation Commission (MTC) adopted the Bay Area's current Transportation Air Quality Conformity Protocol and Interagency Consultation Procedures in 2006 (ABAG Resolution No. 06-06). These procedures, along with the 2001 Ozone Attainment Plan and certain BAAQMD rules, are Bay Area elements of the California State Implementation Plan (SIP) which is the plan to attain the national ambient air quality standards (NAAQS). MTC has taken the lead to consult with the Air Quality Conformity Task Force<sup>1</sup> and revise the conformity procedures to reflect updated consultation best practices and agency roles and responsibilities.

MTC and the Sacramento Area Council of Governments (SACOG) share responsibilities for federal transportation-air quality requirements in Solano County. Northeastern Solano County is part of the Yolo-Solano Air Quality Management District, whereas the remainder of the county is part of the Bay Area Air Quality Management District. MTC and BAAQMD staff are proposing to update procedures for interagency consultation to account for additional federal transportation-air quality requirements and (specifically) provide clarity on MTC and SACOG's roles and updated responsibilities on these requirements, constituting a formal revision to the Bay Area elements of the SIP. The proposed SIP revisions have been reviewed and approved by the Air Quality Conformity Task Force and SACOG staff.

The key revisions to the Air Quality Conformity Protocol and Interagency Consultation Procedures are summarized below:

- Coordination between MTC and SACOG when exchanging travel data for emission inventories in eastern Solano County; and,
- Coordination between MTC and SACOG when conducting project-level conformity in eastern Solano County.

<sup>1</sup> The Bay Area's Air Quality Conformity Task Force consists of staff members of the U.S. Environmental Protection Agency (EPA), California Air Resources Board (CARB), Federal Highway Administration (FHWA), Federal Transit Administration (FTA), Caltrans, California Air Resources Board (CARB), BAAQMD, and MTC/ABAG.

**Public Hearing Requirements**

As co-lead agencies involved in preparing the SIP, the BAAQMD and ABAG are being asked to delegate authority to MTC to hold a public hearing on the revised conformity and interagency consultation procedures. If approved, MTC will notice and record the public hearing in accordance with MTC's public involvement procedures.

Staff requests that the ABAG Administrative Committee delegate authority to MTC to conduct a public hearing at a wintertime 2019-2020 Joint MTC Planning Committee with the ABAG Administrative Committee on behalf of the three co-lead agencies for revising the Bay Area's Transportation Air Quality Conformity Protocol and Interagency Consultation Procedures.

BAAQMD will be taking a similar action to delegate authority to MTC for the Public Hearing on November 20, 2019.

**Recommendation:** The ABAG Administrative Committee is requested to adopt ABAG Resolution No. 12-19.
