

# **Connected Transportation/ Seamless Mobility**

**Bay Area Opportunities and Challenges**

**Commission Workshop – January 2020**

# Seamless System Challenges

- **Physical Gaps in the System**
- **Customer Usability**
- **Mega Project Delivery/Governance**

# Illustrative Gaps in the Region's Rail System

1

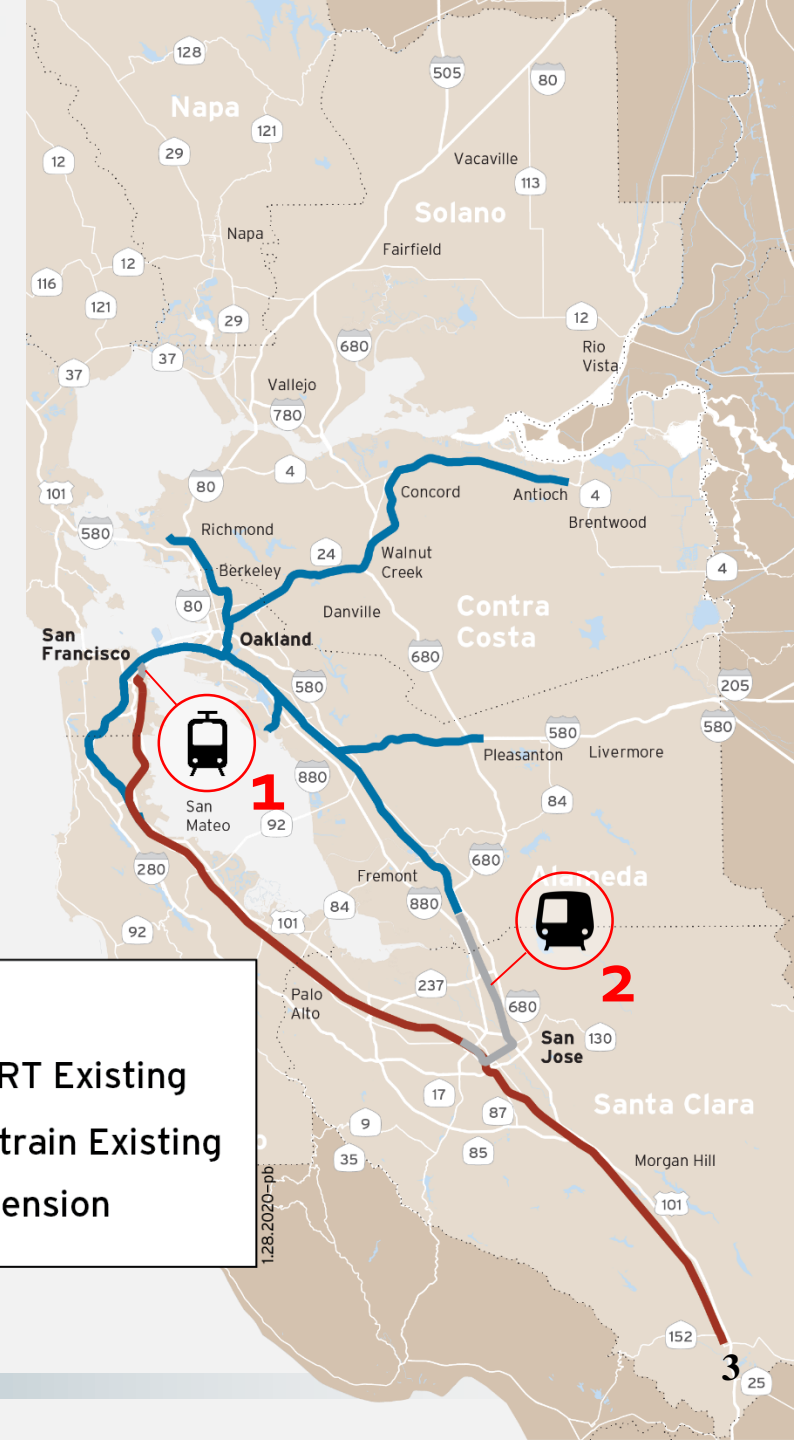

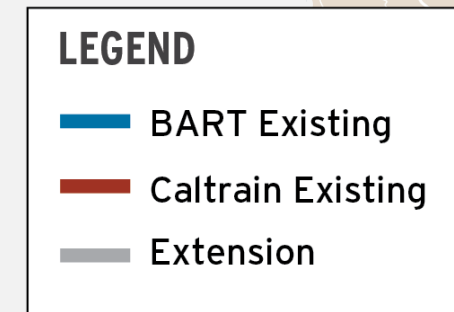

DTX

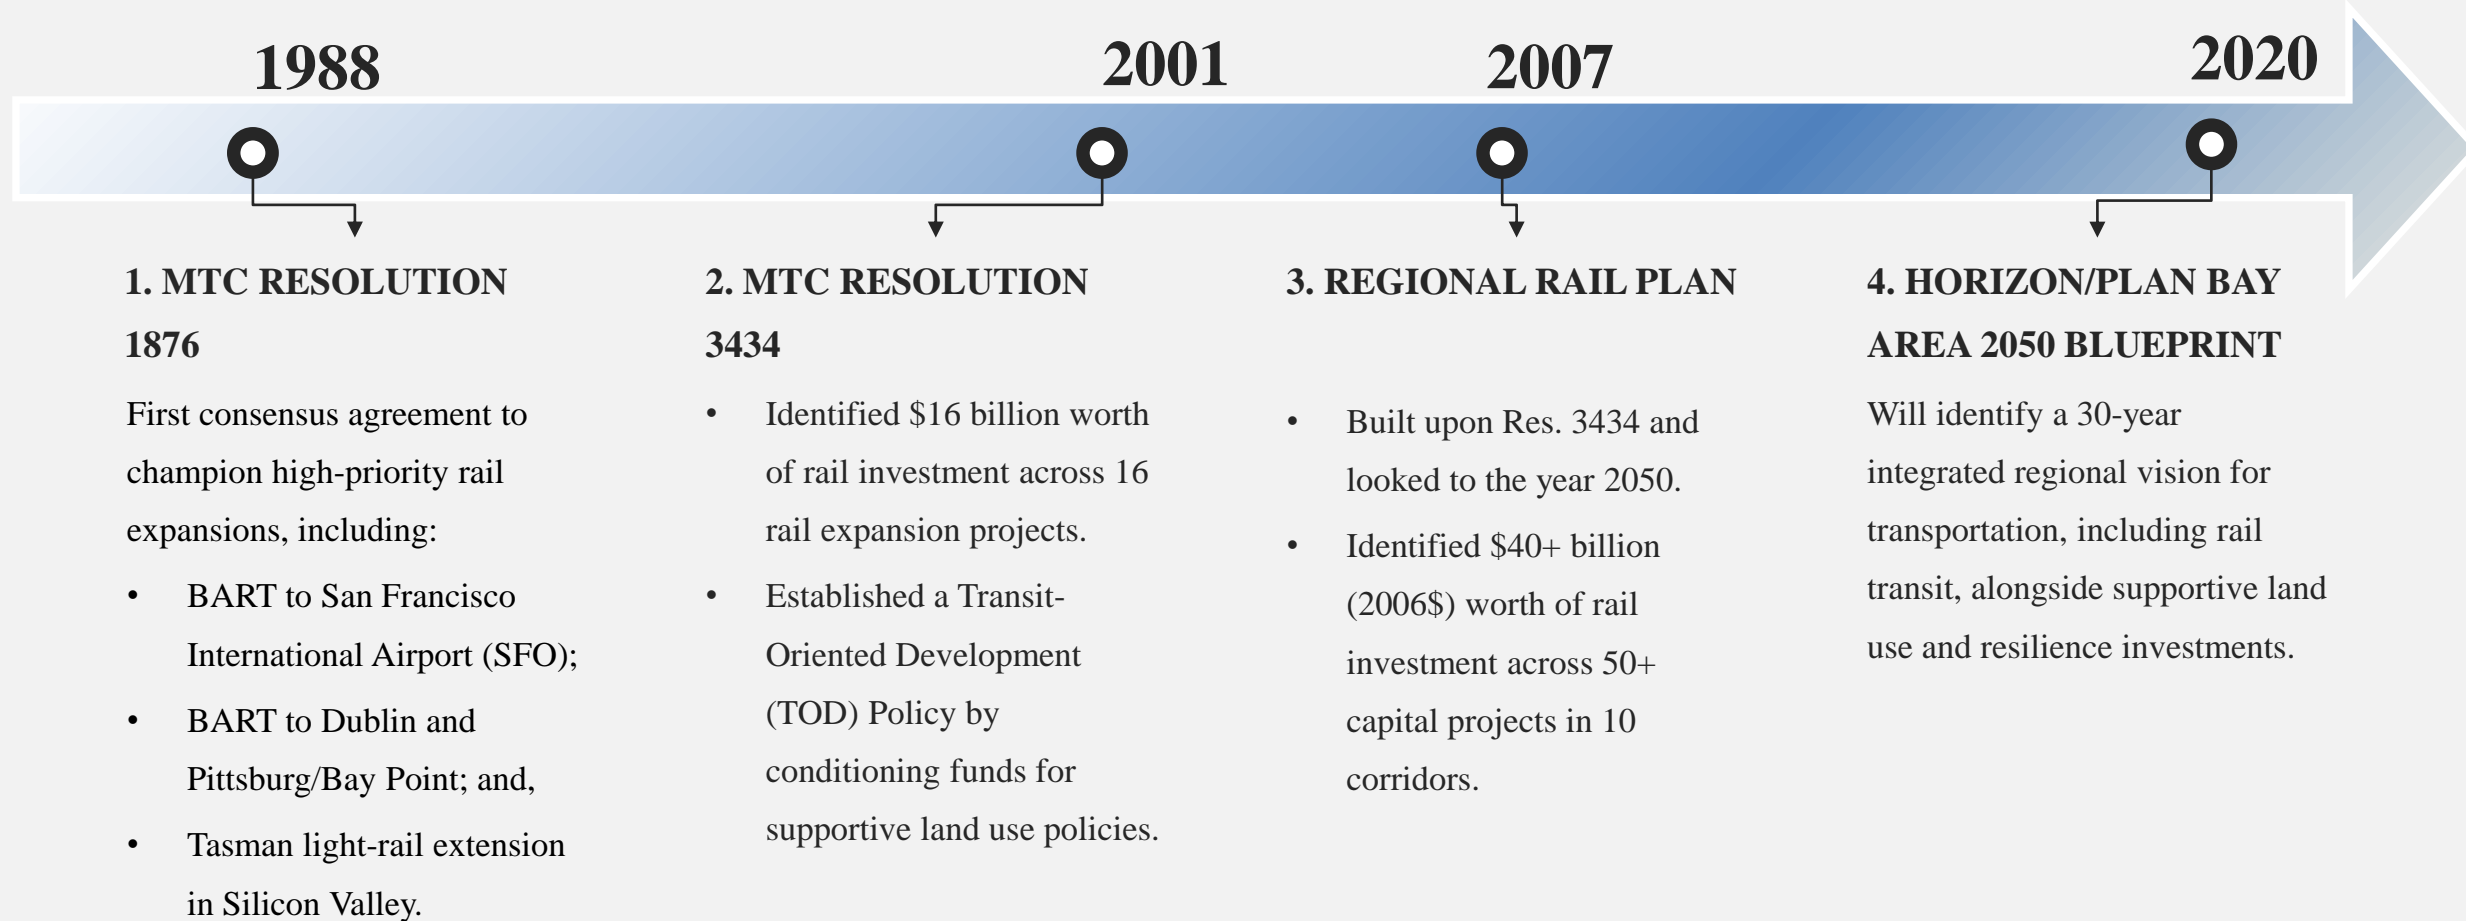

2

BART to San Jose

# MTC's Role in Regional Rail Expansion Programs

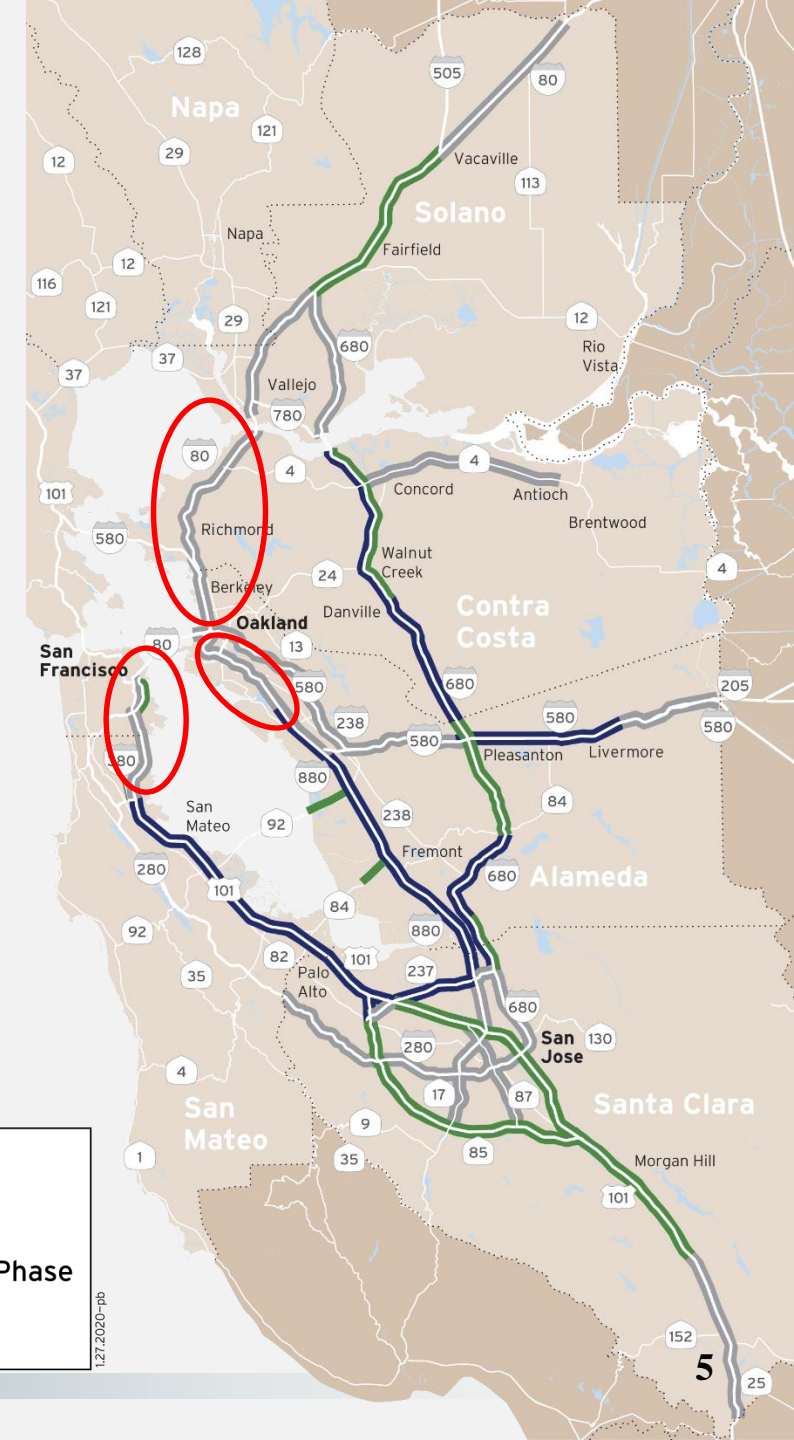

# Illustrative Gaps in the Regional Express Lanes Network

- **210** directional miles open by 2022
- **200** miles in the pipeline
- Significant gaps in a regional network that could serve a robust express bus system and carpools
- Commute challenges from the greater mega region

## AUTHORIZED EXPRESS LANES

- Express Lanes in Operation or Under Construction
- Express Lane Projects in Environmental or Design Phase
- Potential Future Express Lane Projects

# MTC Role in Express Lane Coordination

	<div>BAIFA</div> <div>80, 880, 680</div> <div>ALA/CC/SOL</div> <div>270 miles</div>	<div>Alameda CTC</div> <div>ALA-680/580</div> <div>90 miles</div>	<div>VTA</div> <div>SCL-237, 85, 101</div> <div>190 miles</div>	<div>San Mateo</div> <div>SM-101</div> <div>40 miles</div>
<div>Approve plans;</div> <div>O&amp;M Agreement;</div> <div>Hours/eligibility</div>	Caltrans: SHS Owner			
Project Funding and Delivery	BAIFA with CTAs	Alameda CTC	VTA	San Mateo
Toll Policy and Violations	BAIFA	Alameda CTC	VTA	San Mateo
Toll System/Operations Including Liability and Rehab/Replacement	BAIFA	Alameda CTC	VTA	SM via BAIFA
Use of Net Revenue	BAIFA	Alameda CTC	VTA	San Mateo
Regional Coordination	BAIFA			
FasTrak / Customer Service	BATA			
Reg. Planning/Funding Priorities	MTC			

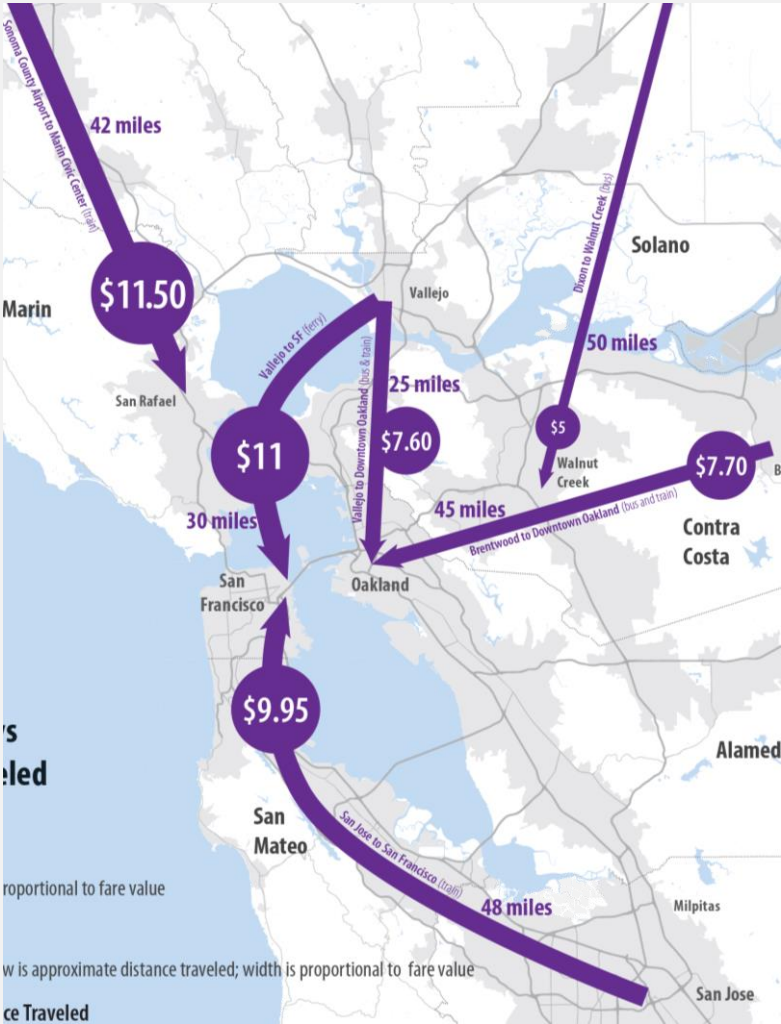

# Physical Network Gaps: MTC Role for Discussion

- **Planner**
  - How can PBA 2050 address the problem of network gaps?
- **Investor**
  - Are we being aggressive and strategic enough in managing the financing and delivery of these projects?
- **Builder/Operation**
  - Should we be expanding our role here?

# Confusing & Inconsistent Fares

Example Local Bus Fares

Adult

Adult

Adult

Adult

Example Regional Rail Fares

Adult

Antioch → Powell  
45 miles

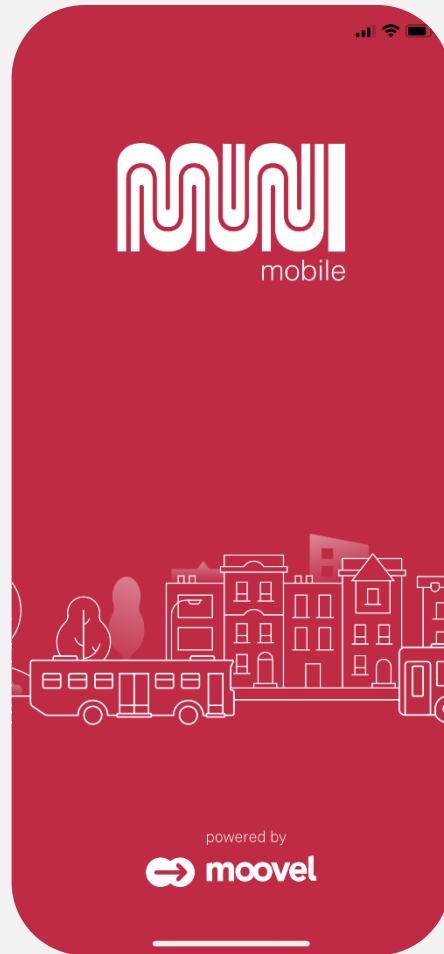

Adult

San Jose → SF  
47 miles

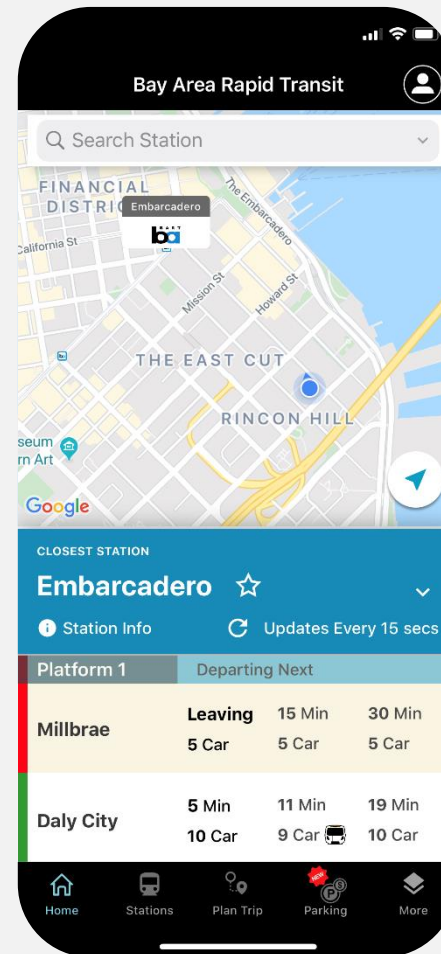

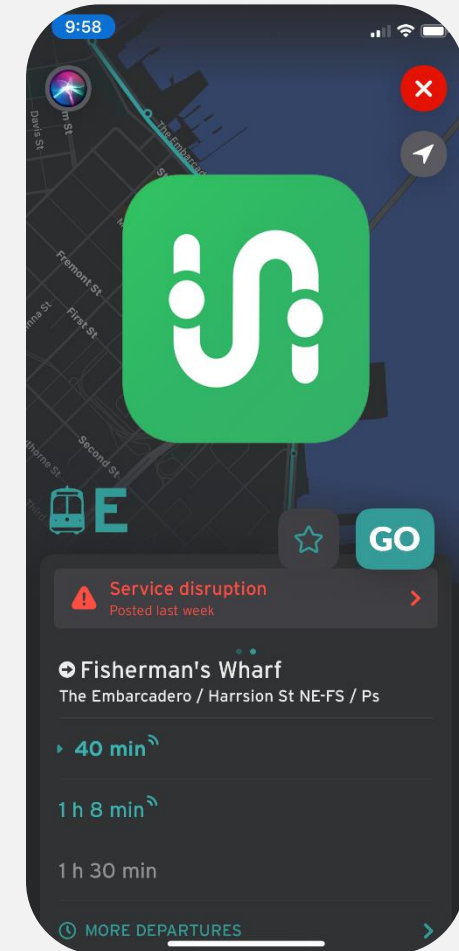

# Traveler Information Challenge

Muni Trip Planner app

BART Trip Planner app

Transit app Trip Planner

# Multiple Service Providers

# MTC's Role in Coordinating Seamlessness

# Customer Usability: MTC Role for Discussion

- **Fare Policy/Integration**
- **Wayfinding Signage**
- **Schedule Synchronization**
- **Traveler Information**

# Mega Project Delivery/Governance

## Current Trends for the Rail Network

**\$108 BILLION**

total Plan investment thru 2040

### RAIL INVESTMENTS:

26% of Plan (\$78b) to operate & maintain

10% of Plan (\$30b) to modernize & expand

**DECADES**

to design, fund & build megaprojects

delays occur in all phases:  
development, environmental,  
design/engineering, right-of-way  
acquisition, & construction

# Rail Expansion Work Under Development: Nearly All Exploring Governance for Success

- Caltrain Business Plan
- Caltrain Downtown Extension (DTX)
- Diridon Integrated Station Concept (DISC) Plan
- Dumbarton Rail
- Second Transbay Rail Crossing
- Valley Link

# MTC's Evolving Role

# Mega Project Delivery/Governance – MTC Role For Discussion

- **Convener**
  - Organize and facilitate the current conversations related to mega project priorities, connectedness, and organizational structure
- **Active Investor**
  - Conduct peer reviews, sit as member of project delivery committees
- **Seek Structural Changes**
  - Support legislative proposals toward establishing a network planner

# Key Questions for Discussion

- 1. How should we prioritize within seamless mobility?**
  - Physical infrastructure gaps
  - Customer usability
  - Mega Project Delivery/Governance
- 2. Are there seamless changes to focus on?**
- 3. Should seamless be about transit, express lanes, other?**
- 4. If seamless mobility is legislated, how involved do you want MTC to be?**
