

Bay Area Toll Authority Oversight Committee (BATA Oversight)

June 10, 2020

Agenda Item 4b - 20-0538

Contract Amendment - Construction Management Services for the San Francisco-Oakland Bay Bridge Metering Lights Project: WSP, Inc. (\$500,000)

Subject: A request for Committee approval of a contract amendment with WSP, Inc, for Construction Management services for the San Francisco-Oakland Bay Bridge Metering Lights (SFOBB ML) System Upgrade project in an amount not to exceed \$500,000.

Background: BATA is partnering with the California Department of Transportation (Caltrans) District 4 to upgrade the SFOBB Metering Lights System (the Project). The project will modernize both the system software and the in-lane equipment to increase reliability and modify the signal algorithm to account for the new east span bridge alignment, vehicle type and vehicle performance. The civil construction is currently in progress. Construction, testing and activation of the new system is expected to be completed by the end of the year.

At the April 4, 2019 meeting, the BATA Oversight Committee approved entering into a contract with WSP, Inc. to provide construction management services for the Project. The original procurement is from the 2017 On Call Bench for Construction Management Services with a period of performance target of December 2020.

The initial contract authorization covered only early consultant services tasks such as contractor bid analysis, site inspection and limited construction inspection tasks. This request covers the cost to complete consultant construction management services. The amendment will add additional resources for labor compliance and material/source inspection support during construction.

Project funding, including funds for this contract amendment, have already been budgeted for in the FY 2019-20 BATA Toll Bridge Rehabilitation Program. While project construction and system testing phases will occur in the next fiscal year, the project is fully funded and no additional funding will be needed in the FY 2020-21 budget.

Attachment A includes a summary of WSP, Inc. and its project team's small business and disadvantaged business enterprise status.

Recommendation: Staff recommends that the Committee authorize the Executive Director or designee to execute a contract amendment in an amount not to exceed \$500,000 for Construction Management Services.
