Re: Request to join the Bay Trail Board of Directors as an "Alternate Member"

Dear Ms. Gaffney,

Completion of the San Francisco Bay Trail is called out in the State Coastal Conservancy's Strategic Plan, and the Conservancy has a long history of supporting and valuing its recreational, alternative transportation, community connection, and health and wellness benefits.

I respectfully ask your consideration of my joining the Bay Trail Board of Directors as an "Alternate" for my colleague Brenda Buxton.

I currently serve as the Regional Manager for the Conservancy's San Francisco Bay Area Program, and have direct experience developing and managing trail-related projects, securing matching funds, and working with multiple stakeholders and interests. Previous positions with the Bay Area Ridge Trail Council and The Exploratorium have allowed me to do sub-regional and site-specific trail planning, and develop programs that connect communities to each other and the shoreline. I hold a Master's Degree in Environmental Science. Most importantly, I am an avid trail user and enthusiast!

Cordially,

A handwritten signature in blue ink, consisting of several overlapping loops.

Moira McEnespy
Regional Manager
