External Email

Hi board members,

I'm an Oakland-based transit rider and a board member at Seamless Bay Area. I'm reaching out to encourage you to support AB 629, the Seamless and Resilient Bay Area Transit Act, at tomorrow's MTC meeting!

I've been commuting exclusively by transit for over a decade now. Here in the Bay Area I travel frequently between Oakland, San Francisco, Emeryville, Berkeley, and Albany. The improvements that would be set in motion by AB 629 would make my life much easier. It would be simpler to plan trips and calculate fares and routes. It would facilitate connections between agencies, making it easier and less time consuming to make transfers. And it would get buses moving faster across our region.

Thanks so much for taking up this legislation and considering a vote of support.

Best,
Stephanie
