Subject: April 28 meeting - Item 12a (AB 629) - support statement

External Email

Dear MTC Committee,

I'm writing to let you know how impactful your support of the AB 629 measure would be to my family and myself.

Right now, getting to all my work sites around the Bay from SF to San Jose is often challenging and involves private cars, networks of buses, trains, light rail and private transit. Getting to see friends and family and enjoying the area can be challenging and confusing. Getting my son to care and activities and school faces the same challenge.

I'd love to use the public transit network more and I see how a single fare program, mapping and way finding across services and the AB629 measure will make that happen.

Thank you for your time, hoping to hear of your support for this measure.

**Best regards,
Alison McDougall-Weil**
