Agenda Item 2c - 20-0416

MTC Financial Statements for June 2021 (Unaudited)

Subject:

MTC Financial Statements for the fourth quarter period ending June 30, 2021. The June 2021 financials are preliminary, unaudited, and subject to change upon completion of the annual audit process.

Based on preliminary year-end figures, MTC has a current budget surplus of slightly over \$14 million. Total revenue, including grants, is currently \$101 million against expenditures of \$86.5 million. These figures do not include final expenses, encumbrances or audit adjustments that are part of the normal close/audit process.

Excluding grant related revenue and expense, MTC total MTC operating revenue was approximately \$62 million against operating expenses of nearly \$58 million. The projected year-end surplus of \$3.4 million is still subject to year-end accruals and audit adjustments. Nevertheless, the projection of ending FY 2021 with an operating surplus is a major change from our budget/deficit concerns going into the FY 2021 budget.

Grant revenue and expense is generally excluded from the calculation of year-end operating balance. Grants are budgeted on a life-to-date basis and tend to live over multiple budget years. As such, as general rule, the remaining grant revenue and expense will be carried over and budgeted in the subsequent, FY 2022, operating budget. In addition, unearned portions of federal transportation planning funds are not lost but will also be carried over, along with any remaining contract obligations, into the subsequent budget year.

Operating Revenue

Total operating revenue for FY 2020-21was at \$101 million, \$61.6 million excluding grants. Highlights include:

- TDA Sales Tax Revenue was at \$14.1 million or nearly \$3.2 million over the budget estimate. The unexpected increase was the result of the economy recovering faster than anticipated and a court decision that struck down the federal prohibition against state sales tax on internet sales.
- **Federal Transportation Planning** Revenue earned was \$12.2 or \$3.9 million below the budget estimate. The balance of funds will be carried over and rebudgeted in FY 2022.
- State Grants Revenue earned was \$4.1 million, \$7.4 million below the budget estimate. MTC is reimbursed as actual expenses are incurred however, it is not unusual for projects to be delayed into future years. LCTOP, for example has contracts fully encumbering the revenue but will carry over into FY 2022. Any remining unearned revenue will be re-budgeted into the FY 2022 budget.

- Local Funding Year-end revenue is \$4.9 million, just 37% of the FY 2021 budget. Most grant revenue is not recorded until the expense is incurred. A combination of delays in executing funding agreements and timing issues getting project contract approvals usually cause delays in project reimbursements. Remaining funds will generally be carried over to FY 2022.
- Interfund Transfers Total transfers to MTC was \$26 million, nearly \$35 million below the FY 2021 budget estimate. Excluding the administrative and operating cost reimbursements from BATA, the remaining funds are mainly project based and will carry over into the next fiscal year to cover future project expenses. COVID is mainly responsible for slowing down our project delivery.

Operating Expenditures:

Total operating expenditures, excluding grant funded contract services, were \$58 million, \$53 million below the adopted budget, \$35 million after including \$21 million in year-end contract encumbrance. Excluding operating contracts, total operating expenses were nearly \$43 million, \$3.0 below the FY 2022 approved budget. Contract services present an unbalanced picture because contracts are often encumbered for multiple years and plus there is a natural delay built into the contract approval and project implementation process. Expense highlights include:

- Salaries and Benefits Ended FY 2020-21 with total of \$37.4 million, \$1.5 million below budget. The savings are the result of some strategic delays in recruiting MTC positions to protect against running an operating deficit.
- **Travel, Training** Significantly below the FY 2020-21 budget due to the suspension of travel caused by the pandemic.
- General Operations Total expenses were \$1.7 million or 69% of the approved budget. Most of the variance is the result of closing most office operations due to the pandemic.
- Non-Grant Contracts Total expenses were \$15.2 million, \$37 million including year-end contract encumbrance. Even including the year-end encumbrance amount, total expenses are only 53% of the approved budget.

Federal Grants:

During the FY 2020-21 fiscal year we applied for seven new grants. Surface Transportation Block Grants (STBG), State/Local grants as follows:

• Three STBG Grants \$

\$6.0 million

• Four State and Local Grants

\$2.0 million

The combined \$160.5 million in active grants were expended as follows:

- \$8.5 million on staff costs.
- \$74.7 million expended and encumbered on various consultants are detailed on pages 12 through 14 under Grand Funded Consultants.

There were two grants that were fully spent and closed out.

The current remaining grant balance is \$77.3 million which will be carried over to the next year.

Actions under Executive Director Signature Authority:

Please see Attachment A, pages 19 and 20 for relevant actions.

If there are any questions, please contact Brian Mayhew at (415) 778-6730.

Issues: None.

Recommendation: This item is provided for information only and no action is required of the

Committee.
