Subject: Richmond San Rafael Expansion

External Email

Hello,

I'm writing to ask for two things:

1. Richmond San Rafael pathway remain in place and open during any pipeline construction;
2. Congestion pricing be implemented prior to adding a 3rd Westbound vehicle lane to the bridge

Best regards,

Dani

We create opportunities for the most vulnerable members of society to use cycling to improve health, economic stability, and individual and collective capacity while increasing the use of bikes for all community members as a sustainable social green mode of transportation.

May we continue to build better, live sustainably and love courageously consistently.
