Subject: Please keep bike lanes

External Email

Hi,

I'm writing in support of the bike lane on the Richmond-San Rafael bridge. As a user of the bike lane, I feel strongly about this.

I firmly believe we should be doing all we can to encourage lower-carbon forms of travel, particularly for regular travel like commuting. The bridge bike lane is an important enabler of bike commuting. I urge you to consider implementing congestion pricing to reduce backups at the bridge during commuting hours.

Thanks for your consideration,

Hannah Gramling
