Subject: please save the Richmond San Rafael Bridge bike path!

External Email

Hi Bay Area Metro staff,

I commute to Berkeley by bike and I ride over the Richmond San Rafael bridge in the morning. Without access to the path, I will be forced to drive instead. We have to keep our transportation alternatives open if we are going to convince people that alternatives to cars are possible. Otherwise, everyone is forced to drive and traffic will only get worse! Please keep the path open in the morning, and during any pipeline construction.

Thank you,

Ian Kizu-Blair
