- American Community Survey 2018-2022
- American Community Survey 2014-2018
- Urbanized Area

The Plan Bay Area 2050+ Equity Priority Communities incorporate EPCs identified with 2014-2018 ACS data, as well as EPCs identified with 2018-2022 ACS data into a single consolidated map of Plan Bay Area 2050+ Equity Priority Communities.

Plan Bay Area 2050+ will analyze both data vintages as part of Plan Bay Area 2050+ equity and performance analyses. This approach will meet federally required Title VI and Environmental Justice Analysis requirements and maintain the existing, board-approved methodology for identifying EPCs.
