Agenda Item 6.b.

BAHFA Update at Bay Area Caucus Meeting

Subject:

Summary update on the status of Bay Area Housing Finance Authority's (BAHFA's) pilot programs and impact to date as recently presented to the Bay Area Caucus

Background:

The Bay Area Housing Finance Authority recently completed a new strategic plan that prioritizes delivery of a focused set of core programs while pursuing a stepwise approach to long-term financial sustainability. As a part of the strategic planning process, BAHFA has documented the impact to date of the pilot programs that the agency has created and deployed during the last four years.

On April 22, 2026, staff presented an update on BAHFA to the Bay Area Caucus in Sacramento. The invitation was extended by Senator Josh Becker, who serves as chair of the Bay Area Caucus. The purpose of the presentation was to update legislators on BAHFA's progress to date, with a special focus on the outcomes achieved from BAHFA's initial pilot activities and the results of the recently completed strategic plan.

This item includes the materials that were presented to the Bay Area Caucus to ensure that Committee members have visibility into recent advocacy efforts. Additionally, the attachments provide a succinct overview of BAHFA's achievements to date that are responsive to recent requests by Committee members – including a list of BAHFA-funded new construction and preservation projects by county.

The item is agendized as part of the Committees' Consent Calendar. At the Committee meeting, staff will be present to respond to questions if needed.

Issues:

None
