

Attachment A

Next Generation Bay Area Freeways Study: Study Timeline and Advisory Group Composition

Study Timeline

The study includes ongoing engagement with two advisory groups, one-on-one meetings with various stakeholders, two rounds of community engagement, two rounds of technical analysis and an initial assessment of operational deployment to develop and refine pathways (i.e., combinations of pricing and complementary strategies).

Advisory Groups: Staff-Level and Executive-Level

MTC staff is working closely with a twenty-member staff-level Advisory Group that brings together diverse interests. This group has convened nine times over the first year of the study. The Advisory Group is complemented by a ten-member Ad Hoc Executive Group that mirrors the membership of the staff-level Advisory Group at the executive level. This group has convened twice over the first year of the study.
