Key Takeaways for BAHFA Next Steps

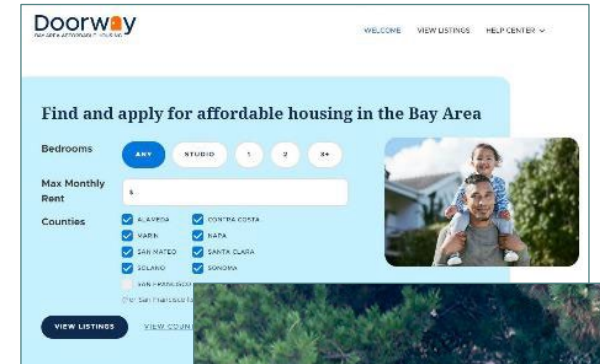

Part 1: BAHFA's Current Status

- BAHFA is funded through Summer 2026. We must start planning now to extend the runway.

Part 2: Investing in Affordability: Near-term Benefits and Long-Term Systems Change

- 2028 is likely the next best opportunity to pursue a regional housing measure
- Near-term funding strategy is multi-pronged: State budget request; financing revenue; private funding and more

Part 3: Proposed Strategic Planning Process

Strategic Planning Overview

North Star:

BAHFA was created to raise transformative revenue to meet regional affordable housing needs at scale

Purpose:

Articulate the vision and plan to sustain BAHFA until capitalized at scale

Process:

An inclusive process is necessary to maintain, strengthen, and expand coalition of BAHFA supporters

Four Modules:

1. New Regional Financing Products & Approaches
2. Regional Housing Programs
3. Sustaining Funding Strategy
4. Framework for Future Ballot Measure

Considerations for Strategic Planning Process

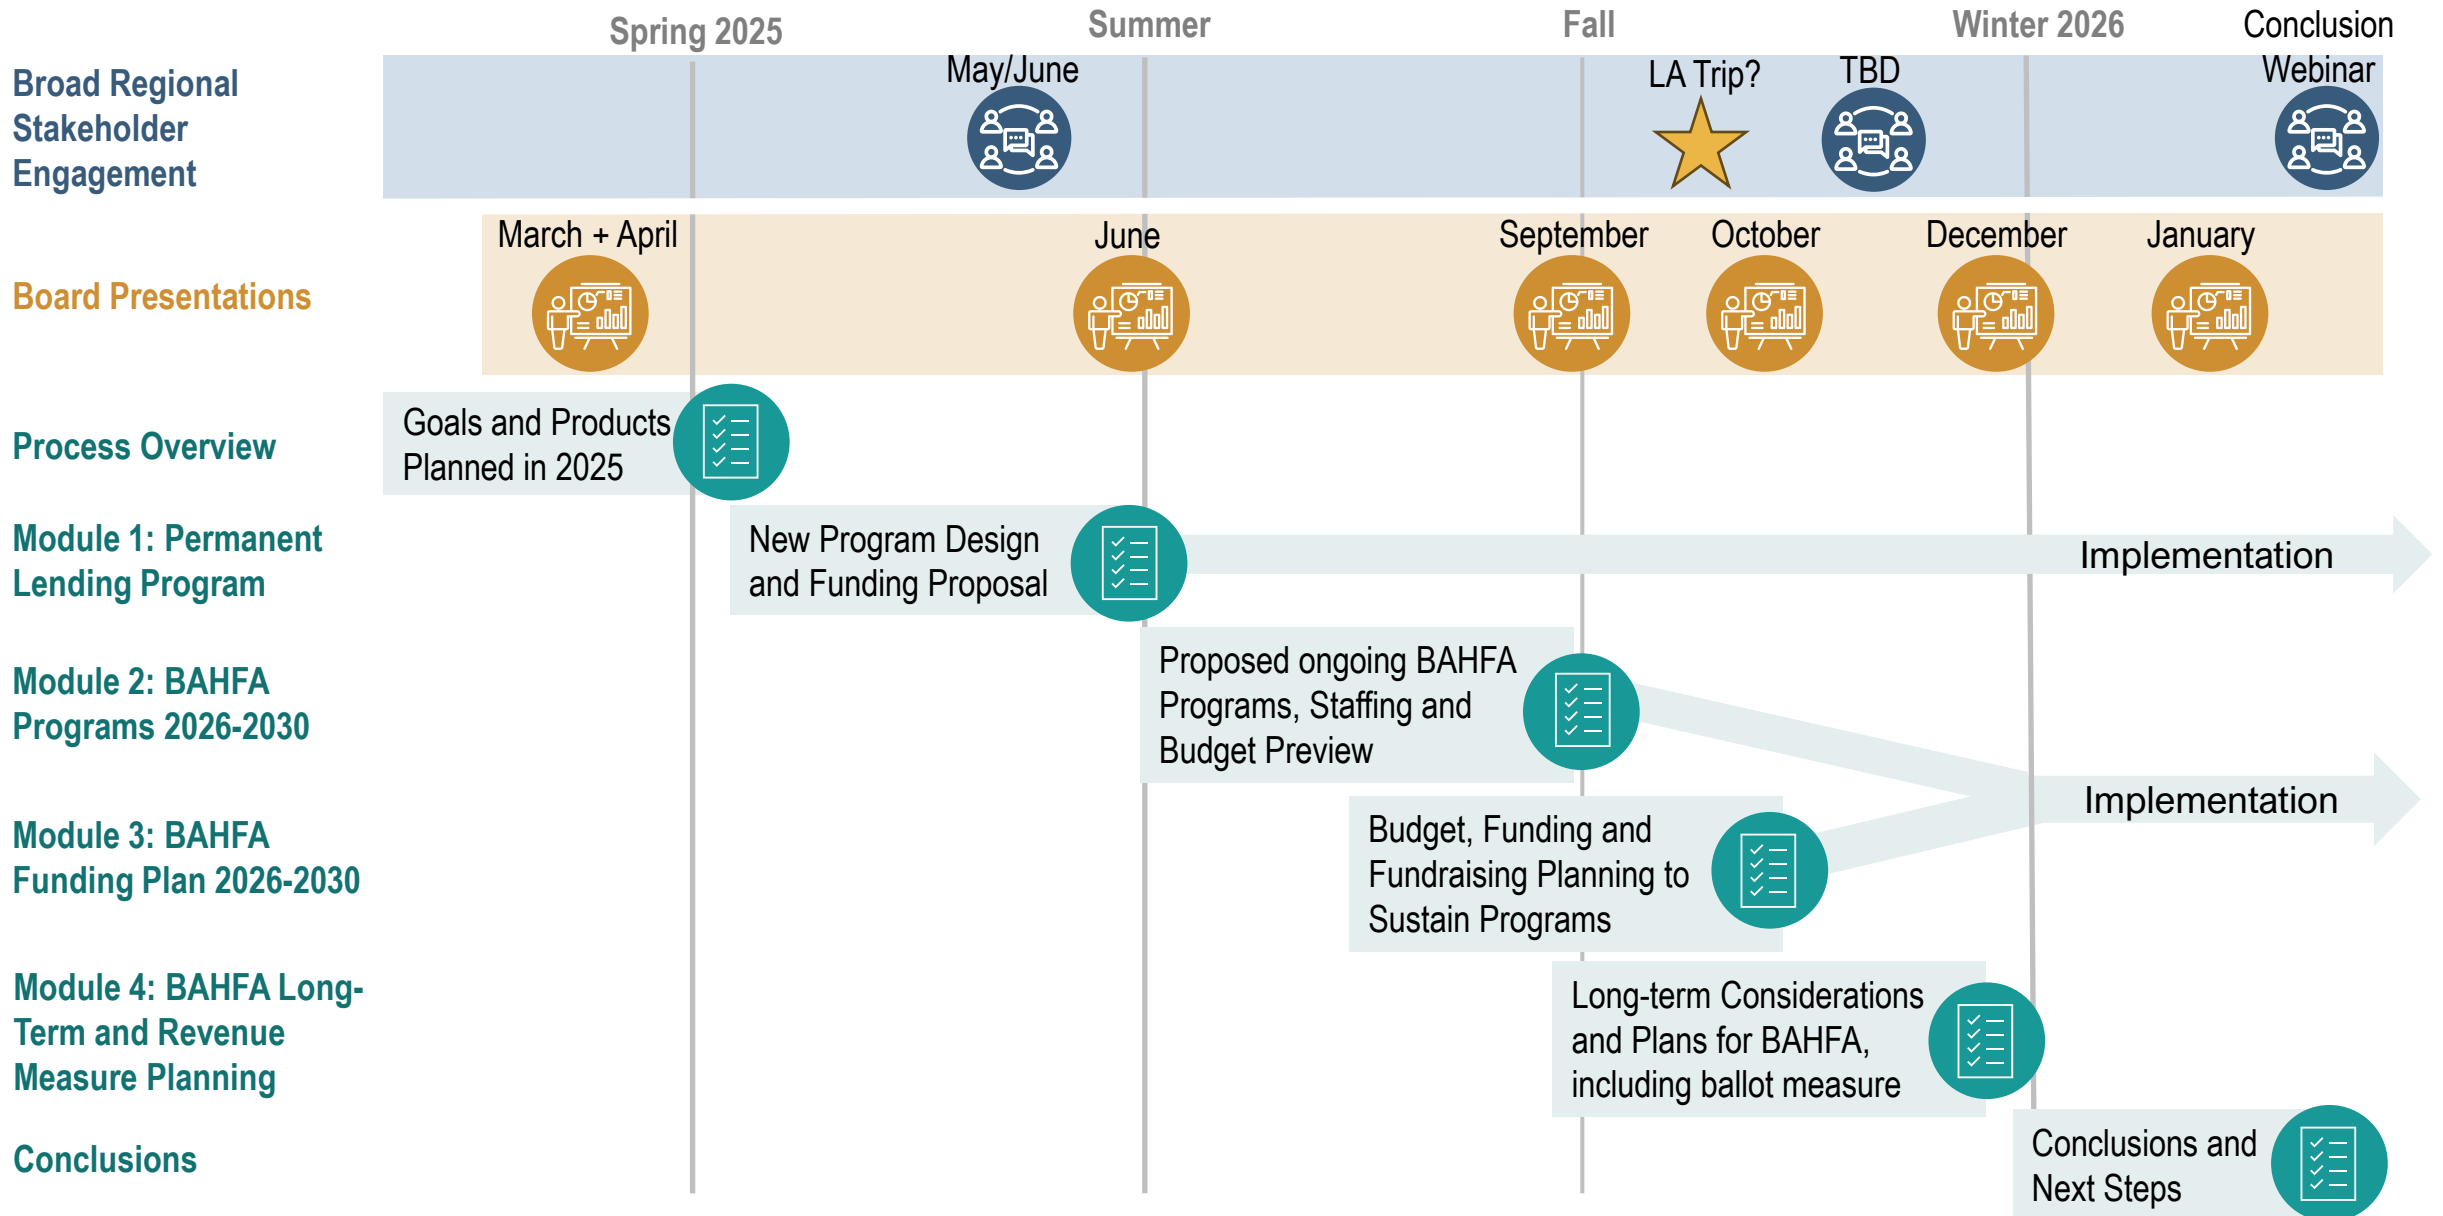

Lessons Learned

- **Plan for multiple scenarios.**
BAHFA needs a sustainability plan that bridges to a potential 2028 revenue measure and will carry BAHFA into 2030 and beyond if timing of a revenue measure shifts.
- **Focus on financial sustainability.**
BAHFA must create self-sustaining funding to ensure operational stability given uncertainty of revenue measure timing.

Focused Scope

- **What is BAHFA's *unique* contribution?**
Must strike a balance between maintaining long-term vision while achieving short-term impacts on housing affordability and stability.
- **Right-Sized Process.**
Given short timeframe, limited funding, and competing priorities the process will be largely staff-driven with targeted consultant support.
