

Attachment A: Significant Work Elements/Outcomes

	Work Element	Outcome	Housing	Mobility/ Mode Shift	Climate	Equity/ Affordability
1	BAHFA Affordable Housing Measure	Produce and preserve up to 80,000 affordable homes	x		x	x
2	Address the Transit Fiscal Cliff – Survive and Thrive	Provide affordable and environmentally friendly mobility option for over 1 million daily riders		x	x	x
3	Transportation Revenue Measure	Generate funding to keep transit running and make other priority improvements to our transportation system		x	x	x
4	Deliver Transformation Action Plan/Network Management	Implement key initiatives including fare integration, development of a regionwide mapping and wayfinding system, and transit priority among others.		x	x	x
5	Next Gen Clipper	Delivery of a flexible, modern fare-collection system that supports open payments, fare capping, START and other discount programs, a mobility wallet, and more		x	x	x
6	Transit 2050+	Identify key gaps in the region’s network and develop a regional transit network plan scaled to available resources.		x	x	x
7	eBike Bike Share Expansion	Support investments in e-bikes and complementary programs and infrastructure to enable affordable and equitable access to e-bikes.		x	x	x

Attachment A: Significant Work Elements/Outcomes

	Work Element	Outcome	Housing	Mobility/ Mode Shift	Climate	Equity/ Affordability
8	Zero Emission Transition and Transportation Electrification	Invest \$65M to support charging infrastructure and the electrification of bikeshare and local fleets. Invest federal transit formula funding to leverage federal and state funding to transition Bay Area transit fleet to zero emission.		x	x	x
9	MAP/Rail Megaprojects and Transit Oriented Communities	MAP: Assist project sponsors in delivering Plan Bay Area 2050 major capital projects by prioritizing funding and sequencing projects with a focus on regional policies and risk management that benefit transit riders. TOC Policy: Finalize local guidance and pivot toward monitoring compliance toward complete communities' policy deployment.		x	x	x
11	Mobility Hubs	Invest \$35M to support the enhancements of hubs facilitating first-last mile connections to public transit, shared mobility and active transportation.		x		
12	Transit Priority (Forwards; IDEA; and TAP)	Forwards: Deliver operational improvements that provide travel time savings/reliability for buses and HOVs on congested corridors and bridge approaches IDEA: Facilitate grant programs that support installation of traffic signal and technology improvements on arterials/corridors that improve transit efficiency and reliability		x	x	

Attachment A: Significant Work Elements/Outcomes

	Work Element	Outcome	Housing	Mobility/ Mode Shift	Climate	Equity/ Affordability
		TAP: Support transit recovery through implementation of operational strategies and improved project delivery policies				
13	BATA Asset management	Optimize investments to preserve and protect BATA bridges		x		
14	BATA Open Road Tolling Transition	Replace existing toll collection infrastructure with state-of-the-art toll gantries, and a new electronic toll system capable of collecting tolls at freeway speeds, which will increase driver safety and decrease vehicle delay.		x		
15	Express Lane Construction and Operations	Complete the regional express lanes network; operate and maintain it to facilitate transit and carpool priority		x		x
16	FasTrak Equity Action Plan	Create opportunities for drivers with violation penalties to get out of debt and into FasTrak accounts and identify other programs to level the playing field for all drivers to access Bay Area toll facilities				x
17	SR37 Ecological Protection, Congestion Relief	Develop a reliable new carpool lane and bus service option in the SR 37 corridor and accelerate critical ecological restoration work in the San Pablo Baylands.		x	x	x
