Agenda Item 3c

Assembly Bill 413 (Lee): Vehicles: Stopping, Standing and Parking Near a Crosswalk

Subject:

Prohibits vehicles from stopping, standing or parking within 20 feet of a marked crosswalk or intersection to improve visibility of bicyclists and pedestrians.

Background:

Assembly Bill (AB) 413 aims to improve safety for bicyclists and pedestrians by increasing their visibility at marked crosswalks or intersections. Specifically, it would prohibit vehicles from stopping or parking within 20 feet of a marked crosswalk or intersection, a safety measure known as “daylighting.” This measure keeps sight lines clear, so drivers can more easily see if pedestrians, bicyclists, or other non-motorized road users are waiting to cross the street.

Likewise, it allows pedestrians and other non-motorized road users to better spot approaching vehicles without stepping into the street.

The National Association of City Transportation Officials recommends “daylighting” as an important safety measure, and 43 states have already implemented “daylighting” laws.

Several Bay Area cities have led the state in implementing this measure, including San Francisco and Alameda. Los Angeles has also implemented “daylighting” in parts of the city, as have other cities across the country, including New York City, Portland, Oregon, and Hoboken, New Jersey. According to the California Research Bureau, daylighting resulted in 14 percent fewer collisions at intersections in the Tenderloin district in San Francisco. It contributed to a 30 percent decrease in pedestrian injuries in Hoboken, New Jersey.

Recommendation:

Support / ABAG Executive Board Approval

Support / MTC Commission Approval

Discussion:

Traffic safety is a significant transportation challenge globally, nationally, and regionally. MTC, in June 2020, adopted a Regional Safety/Vision Zero Policy (MTC Resolution No. 4400) to “establish a region-wide policy of intent to work with partner agencies to encourage and support actions toward eliminating traffic fatalities and serious injuries in the Bay Area by 2030.”

MTC and ABAG’s Plan Bay Area 2050 implementation plan supports legislative and policy changes that advance the Regional Vision Zero Policy. Our Vision Zero approach is data-driven, so funds and resources are used most effectively. Daylighting is known to improve pedestrian and driver safety by improving visibility. According to the California Research Bureau, daylighting is also a low-cost strategy, which aligns with the Regional Safety/Vision Zero Policy strategy of making the most of limited funding. For these reasons, staff recommends a support position on AB 413.

Known Positions:

Support

Safe Streets for All (sponsor)

AARP

California Bicycle Coalition

City of Fremont

Disability Rights California

Happy City Coalition

Norwalk Unides

San Diego Bicycle Coalition

Oppose

California Trucking Association
